

Ordinary Clothes? Or Extraordinary Clothes? Which Will You Have?

You can go to nearly any clothing store and get the first named kind, made from ordinary goods, in ordinary style. If you are clothes-wise you will not be satisfied to pay out your **good money for bad clothes** when **good clothes** can be obtained for practically the same price. It's very largely in the buying ability of a concern as to the service rendered the public. We are proud of our record as to buying, as well as selling and we count our customers by the thousands, **and satisfied customers at that.** We are not yet satisfied, however, and are anxious to convince any doubting ones of our ability to give you better service and more merchandise for your dollar than any competitor in the field.

Never Make Excuses For Your Baking

Perfect baking of bread, biscuit and pastry is simply a matter of using a perfect flour. Be sure of your flour and you will have little to worry about. To prove this assertion, try a sack of Olympic flour. You will find that your baking will be fully up to the standard of the best baking you ever had. There is a reason for this. Olympic flour is known to be up-to-highest standard before it leaves the mill. Every lot of Olympic flour is tested in actual baking at the mill's model bake shop. The bread it makes must be perfect else the flour never sees an Olympic sack. There is your protection. Try a sack right away. Olympic is made from the very finest selected, Northwestern grown, blue stem wheat. It is pure white without bleaching.
