INCONVENIENCE OF UP-TOWN OFFICE.

Although Hood River may take on a more metropolitan air if a telegraph office is established in the up-town business district, since it is learned that the office will not be opened after 8 o'clock at night, an effort will be made to have the office continued at the new O-W-R. & N. Co. passenger station, where messages may be sent at any time of the night.

AN INCONSISTENCY.

It was Solomon, wasn't it, who said that there was nothing new under the sun? In a way the wise man of bible lore may have been correct. He had much experience, matrimonial and other wise, and even the seers of modern times declare that experience counts. But the old king would have to modify his sayings in these strenuous times and modestly admit that some incidents are decidedly peculiar.

The White Salmon Enterprise, calling attention to the fact that Lyle is advertised as the town opposite Hood River, states that it is good to be so famous that a distance of 20 to 30 miles up and down the river is "opposite Hood River."

Supreme Court Decides Ferry Case.

Unusual interest was manifested here in the decision last week of the Oregon Supreme Court in its action relative to the controversy which arose here four years ago over the right of vessels navigating the Columbia River to land on private property which was overflowed during the summer freshet.

Novel Clubhouse.

Mrs. F. R. Brydie returned Tuesday from a three months' visit in the East. Mr. Brydie, who is now in Iowa, will remain there two weeks longer. He will visit Chicago and return here by way of southern Idaho, where he has property which he will inspect.

Want Commission Government.

A revision of the city charter is strongly urged by P. B. Davis, who is an advocate of the commission form of government for The Dalles. The city recorder being the instigator of the movement of this system of municipal rule here. He wishes to see the charter changed so that the commission government may be adopted.

Program at The Gem Tonight.

The most interesting of the four long films presented by The Gem theatre tonight is that entitled "A Trip over the Rocky and Selkirk Mountains in Canada," which displays in wonderful pictures the beautiful scenery of the region.

The New Theatre.

Prof. F. P. Littlejohn, who made the hit of the evening at the public assembly of the Woodmen Tuesday night, is presenting this week by the New Electric Theatre.

Purchases Locomotive.

The Mt. Hood Railroad has increased the number of its locomotives, having purchased last week engine No. 58 from the O-W-R. & N. Co.

Supreme Justice Geo. H. Burnett was here Saturday visiting friends. Justice Burnett was on his way to Pendleton.

WOODMEN ELECT STATE OFFICERS

At the elections held yesterday the following officers of the State Camp of Woodmen were elected: Frank M. Powell, of Albany, state consul; J. J. Thurston, of Siver, clerk; Sherman Rhodes, of Reedville, adviser; M. Snow, of Klamath Falls, banker; F. G. McWilliams, of Ashland, escort; W. S. Deaton, of Klondike, watchman; J. E. Johnson, of Glendale, secretary.

Yesterday afternoon drill teams from Portland, Mosier, The Dalles and White Salmon gave interesting exhibitions on the streets.

WHITE SALMON.

The Trout Lake Irrigation & Power Co. is the name of a new organization incorporated by O. J. Smith, C. Guler, J. E. Reynolds, J. M. Filoon, C. M. Cutting, John Wolder, A. G. Belsheim, all property holders of Trout Lake.

Starting from a bonfire on the ranch of the Getchell sisters the first "forest fire" of the season swept through their slashing, burned the bridge over the canyon, consumed the slingshots on the Hooton-Coe tract, a large quantity of saw logs for Rev. Grimes and lashed up the Bancroft house and barn.

While on their way to their new home in North Yakima by boat, Mr. Eakin, father of Miss Eakin, the miller, was nearly drowned at The Dalles. After he had walked over the gang plank it was removed and when he came back in the dark he stepped off into the river. He was fished out, but had it been at the other dock he would have drowned.

Word has been received of the drowning of Wilbur Childers at or near Estacada, Ore. He was one of a party of three crossing the Clackamas river in a frame carried by a wire rope, and when about 90 feet above the stream the shore line of the cable pulled out precipitating them into the stream. The other two got out safely but Childers was drowned. He was formerly a resident of this county, and is well known here.

Mr. and Mrs. F. W. Rockhold, who are now located in San Francisco, where Mr. Rockhold is teaching in the public schools have been spending a few weeks on their ranch in the Upper Valley. Mr. Rockhold left the first of the week to resume his work after the spring vacation. Mrs. Rockhold will remain here two weeks after which she will leave for California to join her husband. They will then attend the commencement exercises of Stanford University, of which Mr. Rockhold is an alumnus, and return here to spend the summer.

J. J. Ward had a narrow escape from fire one day last week when he and his wife were gone. Some one started a fire in his barn or tried to but found their fuel too damp.
