We expect to get our money back from the increased amount of business we will do.

The Piano can be seen in the window of Wood's grocery store. Come in and try it. The piano is warranted to be first class in every particular.

BARNES ANIMAL SHOW TO APPEAR TUESDAY

"Totally different from anything you have ever seen before."

That is the keynote of the success of the Al G. Barnes Big Three Ring Wild Animal Circus that comes to Hood River next for two performances, Tuesday, May 9, the first of which will begin promptly at two o'clock in the afternoon, and the second at eight in the evening.

The Al G. Barnes is the only real wild anima circus in the world. There are other combinations that advertise trained animals as an adjunct to their exhibitions, but Barnes is the only one presenting a performance lasting two hours which is given entirely by 200 trained animals from the jungles and wildernesses of strange countries—animals so schooled as to perform the feats that human acrobats, comedians, etc., customarily consider their chef d'oevres.

There are lions, tigers, bears, leopards, panthers, cheetas, monkeys, and other more familiar animals that perform marvels in the way of horsemanship, leaping on and off the backs of fleet steeds as the travel at electrical speed around the three big rings.

Again, there are elephants that reproduce scenes in a barbershop with such humorous effect that the audiences are kept in a constant roar of sincere laughter. Also these comic fellows do a laundry "stunt" that is irresistibly funny; besides they play upon musical instruments and go through a score of tricks never before offered at a public entertainment.

A particular feature of the Al G. Barnes Big Three Ring Wild Animal Circus is the steel arena. In this stronghold are inclosed at each performance the most untamable of beasts and their human master; for a beast may be untamable, but stills yield, under human dominion, to training. Men and women both are the trainers --a fearless, indomitable coterie who direct the movement of savage lions, cougars, leopards and jaguars with the readiness of a school teacher handling a class of children.

The only troupe of performing Royal Bengal tigers, the same representing an expenditure of $20,000, that is known in the United States is offered by Al G. Barnes. There is one other, but that is a troupe owned and operated for the pleasure of the Maharajah of Ceylon. These fierce beasts do remarkable tricks in the steel arena, and their size and sinuous grace is such that many artists throughout the country have used them as models.

Bears are always popular. There is something almost human in their attributes, and in the troup of seven which Mr. Barnes presents are acrobats and comedians that never fail to score "big hits."

Columns would be necessary to describe all the marvels that are offered in this big show, in which every act is a thrill. But too muh stress cannot be laid upon the complete dog and pony circus which Mr. Barnes has provided. In this there appears educated goats, pigs and sheep, and there is not a dull moment during the act which in itself is a monument to the genius of the man who conceived it and the man who has devoted his life to the development of the animal circus—Al G. Barnes.

The intelligence of the seal is well known. But "High School Seals" are something new. Mr. Barnes has them. This group of amphibians do everything but talk. They ride horses with the ease of the practiced equestrian, play ball and juggle flaming torches, just the same as you would yourself if in the sawdust ring.

Music? To be sure. Al G. Barnes has one of the best musical organizations possible to obtain, and that is Professor Nichols' Military Concert Band, which will give a concert preceding each performance.

Yakima Fruit Yield Lower.

That the Yakima valley will produce this year not more than 1100 cars of fruit, or less than one-fourth of the total production of last year, is the prediction made today by President Fred Thompson of the Thompson Fruit company. Thompson's estimate is 300 cars of peaches, 500 cars of apples, 125 cars of pears and 100 cars of prunes, his figures being based on observation of orchards and information furnished by other fruit growers.

In spite of this prediction, which has aroused much protest from other fruit men, Mr. Thompson says the year will not be a bad one for the fruit men.—Spokane Spokesman-Review.

Do Ghosts Haunt Swamps?

No, never. It's foolish to fear a fancied evil when there are real and deadly perils to guard against in swamps and marshes, bayous and lowlands. These are the malaria germs that cause ague, chills and fever, weakness, aches in the bones and muscles and may induce typhoid. But electric Bitters destroys and casts out these vicious germs from the blood. "Three bottles drove all the malaria from my system," wrote Wm. Fretwell, of Lucama, N.C., "and I've had fine health ever since." Use this safe, sure remedy only. 50c at Chas. N. Clarke's.
