WHY NOT SEE THE WEST?

In a way our American people are an ignorant lot. As an example take the eastern sports leader, who when the summer months begin to approach has numerous maids pack numerous trunks and bundles together...

The fact is astonishing. It is really a "slaughter of the innocents." The European managers of hotel trusts was fat and grew more opulent than American magnates.

Indeed, the movement that is being promulgated by the hoteliers organization deserves the commendation of all patriotic American citizens.

The last game was lost by the Heights through errors on the part of Koonitz and Salsbels. Each one of the pitchers struck out nine men.

The Heights team will go to Parkdale next Sunday to play the aggregation of that place. A special fare will be made by the Mt. Hood Railroad for the occasion, and it is expected that a large crowd will attend from here.

Referring to numerous communications that are addressed to its offices concerning the location of different kinds of lands and the lack of knowledge on the part of United States Land officials, the Oregonian in an issue of its week contains an editorial that should be perused by newcomers seeking locations.

The newcomer relies too much on the knowledge of the government land agent. In so far as the land agent's knowledge goes such a reliance is not to be found fault with.

There are six United States land offices in Oregon, and in each several millions of acres of land, about which the land office officials know but little, for the reason that they are not charged with any such duties.

The location owned by Mr. Koberg offers an excellent site for a swimming pool. A large cliff, known as Stanley Rock juts far into the river and forms a protective cove, which for years has been frequented in the summer months by residents who are fond of aquatic sports.

What has become of the automobile association? At its inception it seemed that it was going to be one of the greatest howling successses the Valley had ever known.

The board of directors of the Pine Grove school district No. 7, desire sealed bids for the painting of the school building and tinting the walls of the school rooms, said building containing about 400 yards of 2 coats exterior work, and a 2 coat trimming.

1,500 geraniums must be sold this month, from 50c, 75c and \$1.00 per dozen. 1,500 celery plants must also go. All plants at wholesale price. Greenhouse on the Heights.

tion are quietly securing these ends without the eclat that characterized some of the first meetings.

The news has been received here that Richard Lloyd Jones, a nephew of E. L. Smith, and is a former associate editor of Collier's Weekly, has assumed control of the Wisconsin State Journal, published at Madison, Wis.

The little city of Husum, across the river in Skamania county, through the efforts of its correspondents to the daily papers, who have great and vivid imagination, receives a great deal of publicity.

LOWER CITY WINS CHAMPIONSHIP SERIES

The sixth and last of the baseball games played between the two rival aggregations of the city, the League team, composed of boys of the lower town, and the Heights team, resulted Sunday in a victory for the former.

The last game was lost by the Heights through errors on the part of Koonitz and Salsbels. Each one of the pitchers struck out nine men.
