THE WATER SITUATION.

With the return of the verdict of the jury in the condemnation case, when a valuation of \$31,441 was placed on the Pacific Power & Light Company's water system...

From the attitude of the attorneys of the Pacific Power & Light Co. the company will in all probability appeal the case. However, an appeal can in no event affect the transfer of the property...

The mayor by his attitude evidences his characteristic obstinacy, a serious impediment to the city's progress. A continued refusal on his part to sign the warrants will place him in the "rara avis" class...

As to the communication of J. F. Batheider, which was presented to the council at its Monday night meeting, its purpose may be considered meritorious in but one respect...

The time has come for definite action. Popular sentiment should be heeded, and it is demanding that the municipal water system be hastened to completion...

In this respect the communication is erroneous. It states that no work can be done on the municipal water plant until next summer. The assumption is an entirely mistaken one...

It is to be hoped that the city's chief executive will awaken to the situation. He states that if he signs the warrants in payment for the system, he will become personally liable...

An Indianapolis hobo stole a new pair of trousers from a tailor and disposed of the old garment to a rag man. He was caught, the trousers were reclaimed by the tailor, and the culprit bound over to the grand jury...

Washington apple growers have admitted the superiority of the Oregon fruit. The Spokane apple show will judge exhibits of apples hereafter not by the superiority of quality but by the excellency of pack.

Help the Park Grange save the ten acre tract west of the city. It is possible to establish there an ideal public park.

Twenty apples on a two-year-old tree is Hood River's latest record.

Mrs. Quackenbush Buried in Portland. Funeral services of Mrs. Edward Quackenbush, who died at Hood River September 8, were held at 1:30 Sunday afternoon from the First Presbyterian church...

Mrs. Quackenbush, whose age was 71 years, has resided for several summers at the Quackenbush country home on the Belmont road. Her death was caused by a stroke of paralysis. She leaves surviving her husband, Elmer Quackenbush, and sons.

DOROTHY COLLIE KILLED BY AUTO

The first serious automobile accident in the Hood River Valley occurred yesterday afternoon at a short time before 5 o'clock when little Dorothy Collie, the 7-year-old daughter of W. R. Collie, of the East Side, was killed by an automobile driven by Miss Dorothy Epping...

HYDRO ELECTRIC MAKES SURVEYS

M. W. Elmer, a prominent hydraulic and mining engineer of Portland, left Monday evening after having been busy engaged for several days making surveys on the power sites of the Hydro Electric Co., one of which is situated near the Tucker bridge on the county road and the other on a property of N. C. Evans, about two miles up the Hood River from the city...

EXPLOSION INJURES JOHN W. HUTSON

John W. Hutson, while testing the efficiency of a number of stumping power caps, with which he was blowing stumps on the Middlecreek orchards in the Middle Valley, sustained serious injuries Monday afternoon, when the caps exploded in his left hand. The caps had become wet and Mrs. Hutson and A. C. Hallam, his partner in clearing the land, were discussing the probability of them being useless...

CHECK FORGED FOR BIG SUM

The Butler Bank received yesterday from its New York depository, the Irving National Exchange Bank, a forged check for the sum of \$8,750 purporting to be drawn by E. A. Franz in favor of Chas. A. McCann and the forged certification of Truman Butler, cashier of the local institution. New York Bank was immediately notified that the check was a fraudulent one...

THE DALLES PROTESTS AGAINST POWER RATES

The Pacific Power & Light Company is "in bad" at The Dalles with their consumers, who are up in arms because of an increase in rates which recently went into effect. Local business men have just received their bills for light and power used during the month of August, and in many cases the bills are doubled as compared with the amounts paid for July...

A special meeting of the Council will be held within a few days when an attempt will be made to compel the Pacific company to lower its rates. If the electrical concern refuses to do so and the Council is unable to make it fu-nah light and power at the former rates, a movement will be started for a municipal light and power plant in this city...

Warner Purchases in Willow Flat. W. R. Warner, III, who has been in the Valley for more than a year, has purchased from D. J. Dodson, 103 acres of raw land in the Willow Flat district. Mr. Warner will begin at once the improvement of his tract, clearing and setting it to orchard. He plans to make his home here and will later erect a handsome residence on the estate.

Mr. Warner arrived here the guest of Fordham Kimball, in the middle of July last year. He is a son of W. R. Warner, the wealthy Philadelphia drug manufacturer. Mr. Warner spent last winter in California studying the culture and handling of citrus fruits.

LETTER CAUSES A TIE VOTE

(Continued From Page One) dents of that portion of the city have a just reason for their complaint and would recommend that steps be taken to grant their petition. This ordinance we would also present as part of our report a letter written by Dr. Dumble...

The Tip Top Auto Co. announces the sale of a 50 horsepower Speedwell Cruiser to Dr. W. S. Nichol and a 30 horsepower Overland car to Dr. E. L. Seigler. The above cars were chosen after an extended investigation of automobiles.

The revival at Odell conducted by Evangelist C. L. Organ will continue all of this week and next. An all day meeting with a basket dinner will be held next Sunday. Great interest is being shown in the meeting. Last Sunday night the tabernacle was filled.

Rev. T. S. Handsaker, who has been ill for several days, expects to be able to occupy his pulpit next Sunday morning and evening. Last Sunday Evangelist Organ preached at the Christian church in the morning and Rev. E. A. Harris at night.

The Sealship is the Shipping Refrigerator Which the Shipper Uses to Send Us Sealship Oysters. The Sealshipcase is the Porcelain Enamelled Display From Which We Sell Sealship Oysters. This is the Guarantee of Purity.

For rent-Current account, 3400 lbs. of open construction, 400 lbs. of open construction, 400 lbs. of open construction.

Sealship Oysters. Why take the chances with imitations when you can get the real article? Sealship Oysters are shucked and immediately packed into air-tight, ice cooled steel containers, and shipped straight to us under seal. We place them in the porcelain enameled refrigerator. We give them to you in the waxed lined paper pail. This is the only authorized way Sealship Oysters are sold, and is the only way you can be sure of getting genuine Sealship Oysters. Unscrupulous dealers can imitate the name, but they cannot imitate the manner in which Sealship Oysters are handled, which insures your getting solid oyster meats. It's impossible for these dealers to give consumers oysters which are the pick of the finest oyster beds on the coast. Practically all the best oyster growers and shippers are affiliated with the Sealship System in order to maintain a high standard of purity and nutrition in the oyster meats—a higher standard than the National Government requires. That is the reason Sealships are ALL AND ALWAYS so tempting, tasty, delicious and nutritious, too.
