SOME COLONISTS ARE WORTH WHILE

(From The Oregonian)
A type of colonists of which Oregon cannot have too many is reported from Hood River. The installment thus far consists of ten families. In one of these are ten children, while others are well equipped in this respect. A particularly encouraging feature in regard to these colonists is that they do not tarry in the town. They seem to have had definite plans before leaving their eastern homes and are anxious to settle down and begin work. Colonists of this type will help them- selves by this and be an honor and a credit to the commonwealth. We shall be glad to chronicle the arrival of such settlers in any section of the state. They are the kind of people that Oregon needs and the kind that need Oregon, since here they will find a wide and varied field for their endeavor. The family man that knows what he wants and is equipped with a general knowledge of the different sections and resources of the state; who has chosen his location and loses no time in reaching it after he starts, will be very likely to have his highest expectations of Oregon realized and be glad that he came. It is the aimless wanderer who expects something for nothing, shifts about taking jobs in the city, or quarters his family upon the edge of a village for a few months waiting for something to turn up, who whines in homesick tones of "loway" or "Misery" and longs to return to their snowy areas. Let a man come to Oregon with his family, having a definite intention and purpose in view and with means enough to settle himself, even in a small way, in his chosen location, and he will be from the first a satisfied and useful citizen.

CRYING FOR HELP

Lots of it in Hood River Daily, But Growing Less
The kidneys cry for help. Not an organ in the whole body so delicately constructed. Not one so important to health. The kidneys are the filters of the blood. When they fail the blood becomes foul and poisonous. There can be no health where there is poisoned blood. Backache is one of the first indications of kidney trouble. It is the kidneys' cry for help. Head it. Doan's Kidney Pills are what is wanted. Are just what overworked kidneys need. They strengthen and invigorate the kidneys; help them to do their work. Read the proof from a Hood River citizen.
Mrs. Andy Beatty, 722 Prospect Ave., Hood River, Oregon, says: "A member of our family suffered from backache, headaches, dizzy spells and pains in the kidneys. The use of one box of Doan's Kidney Pills gave great relief. I also took Doan's Kidney Pills a short time and received beneficial results."
For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States. Remember the name—Doan's—and take no other.

Underwood Will Build Union Chapel.

The people of the Underwood vicinity have become imbued with the Union church idea are endeavoring to raise the means to build a chapel there. A meeting will be held at the school house there on Saturday afternoon, March 23, for the purpose of electing officers of the Chapel Association and adopting by-laws. Membership lists are in the hands of A. J. Underwood, and all are urged to join the association. All should sign membership cards before the meeting, for only members will be allowed to vote for officers. At present there are about 50 members. "Membership in the association," says P. L. Packard, consists of all such persons as, subscribing to the by-laws, shall band themselves together for the purpose of erecting a chapel at Underwood. It is the religious and moral development of themselves, and the community."

Can You Ask More?

Your Money Back for the Asking. You Promise Nothing
We are so confident that we can furnish relief for indigestion and dyspepsia that we promise to supply the medicine free of cost to every one who uses it according to directions who is not perfectly satisfied with the results. We exact no promises and put no one under any obligation whatever. Surely nothing could be fairer. We are located right here where you live, and our reputation should be sufficient assurance of the genuineness of our offer. We want every one who is troubled with indigestion or dyspepsia in any form to come to our store and buy a box of Rexall Dyspepsia Tablets. Take them home and give them a reasonable trial, according to directions. If they don't please you, tell us and we will quickly return your money. They have a very mild but positive action upon the organs with which they come in contact, apparently acting as a regulative tonic upon the relaxed muscular system, thus overcoming the weakness and aiding to restore the bowels to more vigorous and healthy activity. Three sizes, 25 cts., 50 cts., and \$1. Remember, you can obtain Rexall Remedies only at our store, The Rexall Store, Carl A. Plath.

Don't Neglect a Child's Cough.

The "Child's Welfare" movement has challenged the attention of thoughtful people everywhere. Mothers are natural supporters, and will find in Foley's Honey and Tar Compound a most valuable aid. Coughs and colds that are checked lead to croup, bronchitis and pneumonia yield quickly to the healing and soothing qualities of Foley's Honey and Tar Compound. C. A. Plath.

Cottage Grove Will Can Fruit

At a recent meeting of Cottage Grove Fruit Growers, presided over by H. C. Atwell, action was taken to establish there a cooperative canning plant for both fruit and vegetables. J. W. Hilt, of Eugene, where a cooperative plant of the same kind has thrived, was present and enthused the Cottage Grove Growers by an address.

Minuten Milk a Second.

Without a jar, shock or disturbance, is the awful speed of our early twentieth century. We wonder at such ease of nature's movement, and so do those who take Dr. King's New Life Pills. No griping, no distress, just thorough work that brings good health and fine feeling. Get at Chas. N. Clarke's.

Yakima Plans Blossom Festival.

The commercial club, the woman's leagues and business men of the Yakima fruit belt have planned to hold a blossom festival there again this year. The custom was inaugurated last year and was so successful that the people are enthusiastic over making it a permanent event.
John W. SickleSmith, Greenboro, Pa., has three children, and like most children they frequently take cold. "We have tried several kinds of cough medicine," he says, "but have never found any yet that did them as much good as Chamberlain's Cough Remedy." For sale by all dealers.

MUNCHING APPLES CURES DRINK HABIT

(Leone Cass Baer, in Oregonian)
Miss Calamity Step-and-Fetch-It, the clever and ultra lady writer from Kansas writes that she "has been reading where munching of apples is a certain cure for the terrible tobacco and drink habit." So she got busy at once and tried it, and has become so convinced of its efficiency that she has written these lines to the great brotherhood of hims who smoke and drink. She calls it
"An Appeal."
When the skies are sad and unhappy
And things look as bad as they can,
It's then I get to thinking
That smoking and drinking
Are fine to put heat in a man.
But dear gentlemen friends, don't
Give way;
With your enemy hard you must grapple.
The clouds will roll by,
If only you'll try
Munching a Hood River apple.
If desperate games like pinochle invite
If you fancy you're going insane
You're quite suicidal
And it's tough work to bridle
The bad words that flit through your
brain.
A Spitznberg leisurely bite
And ponder the deed you intended.
You'll find yourself cured,
So we are assured
Before the apple of discord is ended.
With this fruit did the trouble begin.
Just an apple—as everyone knows.
And by its juicy temptation
Planted first in creation
Its rotting harvest of woes.
So gentle, if you'd guard against sin,
Don't trust much to church, book or
chapel,
Just as homeopath's laws
Cure all ills with their cause,
Wouldn't you think it refers to an
apple?
P. S.—I do not think the cure will
be so effective if the apple is baked or
made into pie or sauce.

DINING SERVICE REQUIRES MUCH LAUNDRY

How would you like to wash an average of 100,000 napkins each month of the year, Mrs. Housekeeper? How would you like to wash the same number of dish cloths every thirty days? If you had to launder 40,000 table cloths each month—which includes starching and ironing—wouldn't you get pretty tired at the end of each day's work, especially if you also had to keep all this linen in repair?
Care of the table linen is just one small item that has to be attended to by the dining car department of the Southern Pacific Company. An average of 315,000 pieces of linen are laundered each month in this department of the railroad, and each piece is carefully gone over by inspectors in order to detect tears, or pieces that are beginning to show wear. At the commissary department of the Southern Pacific at Oakland, California, there is maintained a linen repair room where thousands of table cloths, dish towels, cooks' and waiters' aprons, etc., have to be kept in perfect condition all of the time. Fourteen electrically operated sewing machines are running steadily eight hours of the six week days. These machines have been so constructed that a hole in a piece of table linen can be darned so well that it is sometimes impossible to detect the stitches from the original weave.
Every piece of soiled linen, as it is brought in from a trip, is counted. It is again counted when it goes to the laundry and another careful count and inspection takes place when it is returned. Women do all of this work. A majority of the women employees who handle this linen were dependent upon railroad men who have been maimed or killed in the railroad service and the Southern Pacific in relative preference to the dependent relatives of those men who have been injured or killed in the service.

Lent is Surgeon's Joy.
Enter Lent; retire milady of fashion to her home, there to throw out the devil with prayer—that was the formula before the advent of these days of efficiency and science.
Now it is revised—Enter Lent, retire milady of fashion to a private hospital ward, there to have cut out that impish appendix and convalescence during the Lenten lull in the social whirl. There are 76 appendixless patients in the Cleveland, Ohio, hospital, says a dispatch from that city, received since Ash Wednesday. The patients are convalescing rapidly and will be out of the hospital before Easter, fully recuperated and ready to begin the social whirl all over again.

Railroad Expects More Berries.

An increased production of strawberries is expected in the Hood River and Mosier districts this year and the M. W. R. & N. Company, says the Oregonian, is preparing to give the growers special service to eastern points where the berries are sold. In 1910 the Hood River districts exported 62 carloads of berries from the state. This year the output will be approximately 100 carloads, according to early estimates.
Now is the time to buy cheap slab wood. A. C. Lofts, phone 310-X.

Something You Should Know About Substitution

If you wanted to buy oak lumber and the man delivered yellow pine, you would know the difference. If you wanted to buy silk and they sent you calico, you would have no trouble in seeing the substitution. It is not so easy, however, with medicine. A great many medicines look alike and taste alike, BUT THEY DON'T ACT ALIKE. Just think this over the next time you want medicines. Remember that at our store you can absolutely rely on every drug we sell. The difference between buying medicines and merchandise is the difference between knowledge and belief. You know the one but you have to believe in the other. You will be absolutely safe when you put your belief in us.
