**COUNCIL ORDERS FILTERS INSTALLED**

At an adjourned meeting of the city council Tuesday night the fire and water committee was ordered to begin immediately the work of securing and installing a filter system for the water plant. An endeavor will be made to secure the permission of the Pacific Power & Light Co. to use funds of the water department, which are now segregated, to install the system. If this is not secured, the city will use money from the general fund for the work.

In order to prevent a water shortage on the Heights this summer, the city will purchase from the Farmers' Irrigating Co. ten inches of water at a cost of \$25. The installation of the filter system will cost approximately \$2,000. M. Sissenev, of the New York Continental Jewel Filter Co., was here yesterday and conferred with the city engineer, P. M. Morse. The work of the installation will begin at once.

If the city is enabled to settle litigation and dispose of its bonds, the filter system will not be needed another year. In this case the company agrees to take back the apparatus at a price of 75 per cent of the original cost.

**APPLES CREATE INTEREST IN FAR EAST**

A box of apples bought by him in Baltimore, Maryland, has aroused the interest of Ira C. Otto, a fruit grower of Linwood, Md. Mr. Otto was so interested in the fruit that he has written the following letter to J. L. Carter, by whom the fruit was grown:

"From a commission merchant in Baltimore, I recently purchased a box of Spitzenberg apples with your name on the box, and I must say that I think they are the finest apples I ever ate. For a far eastern market they were in excellent condition, not bruised nor shriveled and very solid. Every thing was fine, color, size, and wrapping. The packer was No. 285 (Clarence Mowbrader).

"Spitzenbergs are not grown in the eastern states. As I am a fruit grower I would like to have a little information as to how to grow such splendid fruit. Will you tell me something of the Spitzenbergs? I think I will set out about 50 trees of that variety this spring. Is it a good pollinizer with Staymen Winesap, Delicious or Black Ben for a commercial orchard? Or would King David be better than Black Ben? What size trees do you plant and how old are the trees when they commence to bear? What fertilizer do you use and how often do you spray? Do you irrigate?

"Ben Davis apples are not planted in this state as they are so good, I cannot praise too much your box of fruit and will appreciate very much your advice on how to plant an orchard."

**ENDEAVOR IS MADE TO SAVE CURRANTS**

An effort to save the currant and gooseberry industry, now almost a complete failure in some parts of the state because of a fly infesting the bushes, A. L. Lovett, of the crop pest staff will continue this summer with a spray which has proven effective in killing the Mediterranean fruit fly in South Africa.

For three years Prof. Hally has experimented with this spray in Cape Colony, and says that the fly eats it readily. It is composed of three ounces of lead arsenate and two and one-half pounds of sugar and four gallons of water, and is applied just at the time the petals fall. Mr. Lovett will apply a second spray about two weeks later.

Prof. Lovett will spend practically the whole of the summer on this experiment and other investigations of insect pests in the orchards and gardens in the Portland district. He went to North Albany last week to plan the summer campaign against the cabbage and radish maggots, and to investigate a report of a serious insect pest which is injuring tomato seed.

## French Dry Cleaning

### Saves Clothes and Money

Few people realize the possibilities of our FRENCH DRY CLEANING PROCESS, both as to the work and as a source of economy. We CLEAN anything in ladies' or gents' wearing apparel, leathers, tips, plumes, household draperies, etc.; this service has a wonderful life-restoring effect and makes any article look better and wear longer.

At light cost last winter's suit, cloak or anything left over, can be put in the best of condition and made to give you another season's wear; this means a great help in the problem of being well dressed, and by taking advantage of these services, you can reduce your clothing bill nearly FIFTY PER CENT.

We recommend FRENCH DRY CLEANING as one of the most effective means of economizing, which is so necessary in this day of "high cost of living," and we recommend OUR SERVICES as the most thorough and satisfactory in the city.
