PULLMAN JOINS THE PROCESSION

Gets in Line With Progressive Cities That Are Using Bitulithic Paving

Pullman, Washington, has given notice to the world that it is for progress and that her citizens are enterprising by awarding a contract for paving her streets with bitulithic.

The city council of Pullman has for a long time been considering the demand of taxpayers that the streets be hard surfaced, and after various trips of inspection to cities and other kinds of hard surface paving, the council finally decided unanimously in favor of bitulithic as the best and also the cheapest in the long run.—Paid adv.
