## FRUIT PROSPECTS POOR IN EUROPE

We have received from the British foreign office through the high commissioner for Canada the results of consular inquiries as to the prospects of the fruit crop in several European countries. In France there is generally a great shortage in every kind of fruit for export, but more especially of pears, peaches and apples. These will only be available for export to the United Kingdom this season at most, one half of the ordinary available quantities in an average year for pears, cherries, apricots and apples; but for pears, peaches and apples reports will only be available one-third, if that, of the usual supplies, and the price will probably be about one-third higher than last year. Fruit prospects in Belgium are very meagre. It appears likely that the Belgian fruit crop this year will be unsatisfactory and the fruit poor in quality and restricted in quantity. The fruit crop in Holland is generally satisfactory. There will only be an exception as they were affected by night frosts at the time of blossoming. Peaches under glass are moderate on the whole; those in the open air are reported to be bad with the exception of the well known district of Westland, where the condition is from good to very good. It is probable that in Germany the crop of almost every kind of fruit will be small this year and considerably smaller than in 1911. In the Berlin district it is expected that there will be a medium crop of apples and pears, a fairly small crop of stone fruit, a bad crop of all varieties of berries and a small crop of nuts. Considerable damage is expected amongst fruit growers with the prices obtained in 1911, and this year attempts are being made to fix a minimum price below which the growers will not sell. In Norway reports of the probable harvest of apples are somewhat discouraging, and the same applies more or less to pears. For cherries, plums and bush fruits, the prospects are considerably better. The Hungarian agricultural department reports (June 25) that for Hungary plums and pears show the best promise. Spring fruit injured other fruit trees and only an insignificant yield of peaches is looked for. But also promise only a poor yield.—Census and Statistics Monthly.

## Nervous? Thin? Pale?

Are you easily tired, lack your usual vigor and strength? Then your digestion must be poor, your blood must be thin, your nerves must be weak. You need a strong tonic. You need Ayer's Sarsaparilla, the only Sarsaparilla entirely free from alcohol. We believe your doctor will endorse these statements. Ask and find out.

If you think constipation is of trifling consequence, just ask your doctor. He will discharge you of this notion in almost order. "Correct it at once!" he will say. Then ask him about Ayer's Pills. A mild liver pill, all vegetable.

## ORGANIZED CAMPAIGN AGAINST SINGLE TAX

Thomas S. Alexander, a well known business man of Portland, arrived in this city Friday to make arrangements for a speech to be made by Charles H. Shields, secretary of the Oregon Equal Tax League, here on Friday evening, September 13, at the Commercial club. Mr. Shields is engaged in an educational campaign against single tax, and he proposes to style his lecture, "Single Tax Exposed."  
Mr. Alexander declares that, judging by conditions here, there will be a tremendous attendance at the meeting, as there will be no charge made for admission and ladies will be specially invited.  
Discussing the issue of single tax, Mr. Alexander said:  
"The Oregon Equal Taxation League is an organization composed of 20,000 Oregon farmers and business men. Its sole purpose is to warn the people of the state of Oregon just what single tax is and what it will do."  
"I think I have been in every civilized country in the world and a great number of the civilized, and the only places I found single tax in successful operation were among the Hottentots and the aboriginal natives of South America."  
"Much to the disgust of Joseph Fels, who is financing the single tax campaign in Oregon, a number of the Fels' paid writers and workers have been attempting to delude the people of Oregon by the use of the measure they styled 'Graduated Single Tax,' and which will be voted upon in the November election, is not single tax. Of course it is, and if I need any further authority, I will simply say that Mr. U. R. Hiram, himself, in a letter to the Oregonian says that this measure is a flat-footed single tax measure."  
"Single tax proposes to tax the land owner, the home owner and lot owner out of existence. It is a single tax. By that I mean that it proposes to abolish taxation on all other forms of property and center it solely on the land. Why, it is so revolutionary that even the Socialists, on the streets of Portland get up and absolutely disavow the single tax propaganda."  
"I do not think there is the slightest chance that the measure will pass in Oregon, but the Oregon Equal Taxation League believes in letting every voter know just what this measure is and what it proposes to do."  
"It is also supporting the three capital 'good taxation' measures of Governor West and the state tax commission, the numbers of which are 301, 302 and 303—number 303 being specifically against single tax. I trust that all those who are in any way curious about this most important political question that has ever come up in Oregon, will attend Mr. Shields' lecture, and I am quite confident in saying that he will be found to be a master on his subject. He is one of the best economists in the west and is an interesting and entertaining speaker."
