PRIVATE FUND WILL BUY LIBRARY SITE

So many are the expressions of interest on the part of the citizens of the valley and city that the library committee of the Women's club hopes soon to announce the purchase of 25 feet additional land on the E. L. Smith property. All that remains is to transfer the good will of the citizens into dollars and cents, and this is being done this week by many determined women. This additional piece of land will be given to the city.
A most generous gift has already been made of \$800, which consists of \$200 apiece from Mrs. W. M. Stewart, Mrs. J. F. Watt, Mrs. G. J. Nelson and Mrs. E. H. Rand, in honor of their father and mother, Mr. and Mrs. E. L. Smith. This assures immediate success. This money is given with the expectation that the Women's club will raise no less than \$1200, which together with the \$800 will make possible the purchase of the 25 feet. The hope is that as many as possible will give \$25, or \$10, or \$5, but it ought to be remembered that smaller amounts are as essential to success as the larger sums. We wish every man, woman and child in the county might have a share in the library site, if only to the amount of 25 cents. Any sum is welcome. Those wishing to help are asked to bring or send their contributions to the library and obtain receipts.
The campaign closes May first. In a letter sent by Judge Castner to the Women's club the statement is made that the county commissioners agree to place the Carnegie library building on the present site of 40 feet or any additional adjacent ground that may be purchased. Here is a splendid project nearly completed, and it awaits only the prompt action of interested citizens.
Signed, Committee of the Women's Club.

CITY ILLUMINATED BY NEW SYSTEM

On Wednesday night of last week the current was turned into the lamps of the new lighting system, the installation of which was completed that evening by the Hydro-Electric Co. The new lights are of the highpower tungsten variety and an improvement was immediately noted. A number of additional lights have been added to the street system, and better service is given the Heights district and the residence districts of the Lower City.

AUTOMOBILES

A stupendous and record breaking exhibition of automobiles and motorcycle accessories and everything that pertains to auto transportation, will be one of the most distinctive features of the Panama Pacific International exposition in San Francisco in 1915. So vast in scope and so rich in mechanical and artistic accomplishment will this immense exhibition be that it will utterly dwarf anything of that kind that has ever been attempted.

A motorcycle played an important part in furnishing power for the printing of a newspaper in Elgin, Ill., when a sleet storm threw the electric power service of that city out of commission, says the May Popular Mechanics Magazine. The motorcycle was first harnessed up to a trimmer, shaver and rotor for the finishing of the plates. Then the motorcycle, along with a small portable gas engine, was belted to the shaft of the big press. The combined power granted and swung, chugging, giving off much smoke, but turned out 100 eight-page papers per minute, which was about half the speed the press usually makes.

The most useful automobile in Washington county, Maryland, is the one that serves as a circulating library for the remote cabin dwellers who are too hard-worked to seek literature themselves, says the May number of Popular Mechanics Magazine. The population of the county, outside of Hagerstown, is 30,000, spread over 500 square miles. For several years Miss Mary L. Ticeomb, of Hagerstown, who conceived the idea, carried literature to the out-of-the-way places in a sort of cupboard on wheels, drawn by a horse. But this outfit was small, and the horse got tired on the steep roads. So, when a train ran over the wagon and left nothing but splinters, an automobile, provided with a special library body, took its place, and books are now taken to the doors of the readers by 24 routes covering the whole county.

How Bad Backs Have Been Made Strong - Kidney Pills Corrected

All over Hood River you hear it. Doan's Kidney Pills are keeping up the good work. Hood River people are telling about it - telling of the bad backs made sound again. You can believe the testimony of your own townsmen. They tell of the benefit of you who are suffering. If your back aches, if the kidneys act too frequently, or passages are painful, scanty and off color, use Doan's Kidney Pills, the remedy that has helped so many of your friends and neighbors. Follow this Hood River citizen's advice and give Doan's a chance to do the same for you.
Mrs. E. E. Kreidler, 710 Eighth St., Hood River, Ore., says: "Shortly after I publicly recommended Doan's Kidney Pills in March 1910, I used them myself for kidney weakness and a dull ache in the small of back. I got a quick and lasting cure. We consider Doan's Kidney Pills a fine kidney medicine and use them freely in the family whenever a kidney trouble is needed."
For sale by all dealers. Price 50 cents. Foster-McLure Co., Buffalo, New York, sole agents for the United States.
Remember the name - Doan's - and take no other.

Smudge Pots Used at Yakima

At the lower Thompson ranch in Parker one night last week the orchard heaters in the apricot orchard, which is in full bloom, were lighted at midnight and burned all morning, says the Yakima Republic. The temperatures were not reported, but advice are that the heating prevented serious injuries to the tender buds.
Temperatures reported were: North Yakima, 39; Sulphur, 34; Naches, 31; Nob Hill, 32; Abatanum, 32; Scudder ranch, 25; Parker Heights, 31.

COMMONWEALTH CONFERENCE AT U. OF O.

Leaders in every department of public life in Oregon will be present at the University on Commonwealth Day and take serious part in the discussions of the problems before the people. "Commonwealth Day" has grown in importance and scope until now it is really a "Commonwealth Conference" that takes two days, but the old name still clings. This year, for the first time, the press, both city and country, will have a most prominent place in the program. The Commonwealth conference has been set for May 16 and 17.

The sessions of the Commonwealth Conference this year will be engaged mainly with the following problems:

- 1 Steps necessary to secure and to maintain the highest efficiency in the administration of the affairs of the Oregon school districts, municipalities, counties and the state government.
- 2 The introduction of the principles of cooperation into the business organization and the developmental activities of Oregon. This will include also the development of cooperation between the state and federal government.
- 3 The place of the press in the life of the community.
- 4 The readjustment of the curriculum of the public school system from the kindergarten to the high school, so that it may best meet twentieth century civic, social and industrial needs.
- 5 Organization and activities that will give best preparation of Oregon women for service in constructive civic betterment.

Bugs Cause Blight, Says Haslinger

During the past several years many theories have been advanced as to the cause of the tomato blight, and numerous remedies have been proposed. However, but few have ever been successful. The cause of the disease that is so disastrous for tomato growers in the Mid-Columbia district is still a puzzle for experts.
Geo. Haslinger, a Heights greenhouse man, is the latest with a theory as to the cause of the disease and a remedy for its cure. He says "The blight is caused by a small bug that works under the bark of the plants, and sucks the sap. If the plants are grown in hotbeds in which the soil has been thoroughly mixed with sulphur, sawdust and slacked lime and then transplanted in a soil that has the same kind of treatment, the bugs can be prevented from destroying the sap of the plants," he says.
Mr. Haslinger says that one pound of sulphur is enough for 100 plants, which should be set in rows four feet apart. When they are one month old the earth should be filled up around the plants six inches high and sticks two feet long should be stuck beside the plants. Tomatoes should not have very much water, and when they are irrigated the water should run in a furrow cut midway between the rows of plants, so that the water will not come in direct contact with the plants.

St. Marks Gives Last Dance

The last of the series of pleasant dances given by the members of the St. Mark's Guild have been the hostesses this winter, was held at the Heilbronner hall last Friday evening. The event was joyful and all expressed a regret that the dance was to be the last. Chandler's orchestra furnished the music for the party.
Many out of town guests were present. Among them were Winifred and Eggmont Aves, of the Middle Valley, Miss Mary Montgomery, of the Middle Valley, Miss Ruth Cooper and Harry Stickney of Underwood.

"Our baby cries for Chamberlain's Cough Remedy," writes Mrs. T. B. Kendrick, Ravenna, Ga. "It is the best cough remedy on the market for coughs, colds and croup." For sale by all dealers.
