D. D. D. In Hospitals; Standard Skin Cure

How many hospital patients, suffering the frightful itch, the raw scorching pain of skin diseases have been soothed to sleep by a soothing fluid washed in by the nurse's hands? That fluid is the famous D. D. D. Prescription for eczema.

THE SUPERVISING NURSE of one of our prominent Catholic institutions (name of nurse and institute on application), writes regarding a patient: "The disease had eaten her eyebrows away. Her nose and lips had become disfigured. Since the use of D. D. D. her eyebrows are growing, her nose and face have assumed their natural expression."

How many eczema sufferers are paying their doctors for regular treatment and are being treated with this same soothing, healing fluid?

DR. GEO. T. RICKARDSON frankly writes "D. D. D. is superior to anything I have ever found. Soft and soothing, yet a powerful agent."

To do the work D. D. D. Prescription must be applied according to directions given in the pamphlet around every bottle. Follow these directions—and see!

And it certainly takes away the itch at once—the moment the liquid is applied. The skin is soothed—calmed—so thoroughly refreshed—delightfully cooled.

All druggists of standing have the famous specific as well as the efficient D. D. D. Skin Soap.

But we are so confident of the merits of this prescription that we will refund the purchase price of the first full size bottle if it fails to reach your case. You alone are to judge.

OFFICER CARSON ARRESTS WRONG MEN

His description tallying almost exactly with that of George Wakefield and Charles Izie, two men wanted at Pendleton for alleged forgery and horsestealing, Marshal Carson arrested two men here Sunday night who gave their names as Lou Gard and J. McDowell. However, they proved an alibi, producing witnesses who swore that they had been in the valley since the alleged crimes had been committed. And Marshal Carson is now ready to play host man at the double wedding which the young men say they are going to have. When arrested they were at the passenger station, and each declared that he was expecting his sweetheart from Pendleton. "We have spent the day looking for housekeeping rooms," said McDowell, "and as soon as the girls come down we are going to be married."

FISH, FURS AND FEATHERS

"Of all the meat I have ever eaten," says James Waggener, "cougar meat is the best. Several years ago some friends and I started on a hunting trip in the St. Helens country. On the way to the mountain we stopped at a hop farm. We took dinner there, and the meat served was new to us, but was the best, as all expressed it, that we had ever eaten. After all of us had finished our host asked us what we thought of the meat and tried to guess what kind it was.

"Some guessed chicken, although they couldn't quite see how such big slices had been secured. Others guessed mutton, while some thought it was goat flesh or venison. But all agreed that it was very fine. It was then that the hop farmer told us that it was cougar.

"The animal had been killed the day before, after it has slaughtered one of the farmer's calves. The big beast had jumped into the corral, seized the calf by the throat and with the struggling animal thrown back over its back, had leaped over the barnyard fence as though it had been a cat with a mouse."

An old farmer was out one fine day looking over his broad acres, with an axe on his shoulder and a small dog at his heels. They espied a woodchuck. The dog gave chase and drove him into a stone where action immediately commenced. The dog would draw the woodchuck partly out from the wall, and the woodchuck would take the dog back. The old gentleman's sympathy getting high on the side of the dog, he thought he must help him. So, putting himself in position, with the axe above the dog, waited for the extraction of the woodchuck, when he would cut him down. So an opportunity offered and the old man struck, but the woodchuck gathered up at the same time, took the dog in far enough to receive the blow, and the dog was killed on the spot. For years after, the old gentleman, in relating the story, would always add, "And that dog don't know to this day but what the woodchuck killed him."

SPokane Asks for Apple Exhibits

The management of the Spokane Apple Show, which will be held on November 17-22, inclusive, has written to the local Commercial club asking for exhibits of local fruit. Declaring that it will be a splendid opportunity for publicity, if local apples win prizes, a portion of the letter of Manager Gordon C. Corabley, of the Spokane Show, is as follows:

"Putting this prize winning fruit, properly labeled, where it will be seen by 15,000,000 or 20,000,000 people during the week of December 1 means a lot of publicity for our northwestern apples and it means a very great deal of publicity for the individual districts from which this prize winning fruit comes."

"Every individual entry of fine fruit that you can induce your growers to make at the sixth National Apple show will be that much progress toward getting some of this fruit in the prize winning class and thus securing direct publicity for your district."

"It isn't often that a commercial organization has a chance to get great publicity like this, simply for the effort of inducing growers to make entries in competition and we feel that you will deem it advisable to actively circulate these premium lists and to back them up with personal urging of the growers."

RUBBER STAMP MAN KEPT VERY BUSY

The visitor to the packing shed of an orchardist, who is unacquainted with the methods used by the growers in packing their fruit, is astonished at the great array of rubber stamps the packer must have. On each box must be stamped the number of apples it contains, the number of the packer, the variety and the name and address of the grower. The grade is also stamped on the box and the top of the box is marked.

Because of the great demand for these stamps the stamp man at the Glacier, where the hundreds of numbers, varieties and growers' stamps have been made this year, has been kept very busy this fall. To a certain extent the erroneous impression had existed that the stamps were made here. However, they are manufactured in the Glacier office. Many of the orders come in over the telephone, hurry up orders, and are made up immediately, often being sent out the same day by parcel post. Sometimes a mistake is made in the spelling of a name, it being difficult to take the copy of proper names over the telephone. However, and this is the greatest beauty of having the stamps made at home—on receiving the notification of the error, the mistake can quickly be remedied.

The Glacier office also turns out butter stamps, linen stamps, in fact any kind or style of a stamp that one may desire.

At the Gem

The program at the Gem theatre today is as follows:

"Trooper Billy." A special two reel Kalem. Adopted from Frederick Paulding's great drama. How the heroism of a twin sister saved an army post from destruction.

"Mr. Treater's Treat." An Essanay comedy.

"For the Son of the House." A Biograph drama.

Friday's and Saturday's bill includes: "Jewelled Slippers." A Selig two reel special.

"A Proposal from the Duke," being the first of the Mary series, "Who Will Marry Mary."

"The Widow's Kids," and "Cupid and the Cook." Two Biograph comedies.

Sunday's bill will be as follows: "Caste." An Edison two reel feature from the famous comedy by Thomas Robertson. This comedy has been extremely popular for years and is without question one of the cleverest that has ever been written. The masterly strokes of character delineation alone are something marvelous so cleverly has the author drawn each individual. The story, as the title indicates, is founded upon the sharp lines of social rank which are drawn in England.

"Influence of the Unknown." Biograph drama, proving that a baby's a baby the world over.

"Bingle's Nightmare," and "Joys of a Jealous Wife." Two Vitagraph comedies.

Mrs. Hoyt Honored by Mother's Congress

Mrs. C. D. Hoyt, of the Frankton district, was honored last week at the Mother's Congress, which met in Portland, by being re-elected as one of the vice presidents of the organization. Mrs. Aristine Felts was elected president of the organization.

PORTLAND SCHOOL DEFEATS HOOD RIVER

The Hill Military Academy football team decisively defeated the high school team last Friday by a score of 27-0. The game was one-sided in the first half, the H. M. A. team getting three of their touchdowns at that time, but were held down to one touchdown in the last half.

McGuire, Loraway and Dethman were the stars on the high school team. Suthoff, the star Hood River player, was not allowed to play, because he had not yet entered school.

The H. M. A. team is a fast aggregation, due to the work of their coach. They showed good sportsmanship and played a clean game throughout. Seventy-one men from the academy made the trip. The lineup:

DEPARTMENT SUGGESTS "PIG CLUBS"

A suggestion that might be profitably adopted throughout Oregon is that contained in an exchange to the effect that the United States department of Agriculture is to encourage and assist in the organization of "pig clubs" among the young people in every agricultural community throughout the country. It is pointed out that pigs are everywhere a profitable crop, that even the smallest growers can make a little money out of hogs and that every family can at least lower the cost of living by raising its own pork. The "pig club" plan is a good one and worthy of general adoption.

Referendum Uncalled For, Says Writer

Hood River, Oct. 27.
Editor Glacier:—There is only one week before election, and it is to be hoped every woman will take advantage of her privilege and vote her honest convictions—which can be done by studying the measures. It is the opinion of the writer at this time that invoking the referendum on these questions was uncalled for and a severe rebuke should be administered through the agency of the ballot. In her judgment every measure should be supported at the polls Nov. 4.

While your correspondent is distinctly a believer in the referendum, she believes it should be an instrument of protection as no doubt it was designed to be—and not for the purpose of creating unnecessary dissension.

Dear University appropriations should be upheld. The other measures are reasonable and should receive our special attention.

Every school district in Hood River county should hold a political meeting prior to election. In order to cast an intelligent vote we must inform ourselves and if we desire to live under a good government we should help make the government good.

Communicated.

Frankton School Notes

The students of the Frankton school have pledged themselves to raise the cash sum of \$125 and donate the use of a wagon and team for 10 days, the value of the work being estimated at \$50, toward the building of the proposed community gymnasium on the Heights, provided the district school board will donate the sum of \$125. The resolution drawn by the students has not yet been presented to the board.

The Frankton basket ball team defeated the Barrett team at Frankton Friday evening by a score of 11 to 10. The game was interesting throughout.

Recorder's Office Open Evenings

Tonight, tomorrow and Saturday, the city recorder's office will be open from 7 to 9 o'clock, in order that those who do not have the opportunity in the daytime, may register for the general municipal elections in December.
