STANDARD MAY BE SET FOR SCHOOLS

Rules for the standardization of the tate's high schools, which will probably be adopted by the State Borad of tendent of Public Instruction Church-

The rules were prepared by a committee consisting of W. R. Rutherford, superintendent of the McMinnville schools; J. O. McLaughlin, superintendent of the schools of Hood River, and George W. Hub, principal of the Eugene high school, appointed at a meeting of the city superintendents in Portland in December. The rules pro-vide that high schools shall be classified as standard four-year schools, or accredited three-year, two-year on oneyear schools, as they shall be approved

Education. At least three teachers shall be required to devote their entire time to cut wheat was stripped of the standing high school work under the rules, and heads wherever the storm's fury was salesmen could be placed in the field, any teacher employed in a standard felt, to provide for the rapidly increasing tonnage of the northwest, — merely transferring the agent of a standard college or uni-JOY OF LIVING IN HOOD RIVER

The beauties of Hood River, its green lawns, its rose blossoms, the surrounding fir clad hills, fail to impress the loss of the northwest, — merely transferring the same number of offices and the same number of men to a set of the damage done there is not available. The hail storm that swept from Kent teachers shall be holders of life state certificates or state diplomas obtained by examination before the state developed to the damage done there is not available. The hail storm that swept from Kent to Rutledge broke about two miles from Buck Hollow and rushed, with awful damage to all crops in its paths, partment. Life certificates now in in a easterly direction. effect will be atisfactory.

The rules, in part, are as follows: 40 minutes for each recitation. Two ardists. periods of laboratory or vocational work shall be considered of equal instructional value with one period of recitation. A unit is the completion of a subject of five recitations or their equivalent laboratory or vocational periods per week, pursued throughout a school year of not less than 36 school

weeks. 'There shall be at least \$300 wisely invested in apparatus for teaching sci ence, apportioned as follows: Physical geography, \$75; biology, \$5; physics, \$150. For teaching the subject of physical geography the following ap paratus is recommended: Set of John ston maps, globes, mercurial barometer and aneroid barometer; for biology, microscope, demonstration magnifiers, dissecting sets, slides and covers, glassware and chemicals; for physics, \$125, wisely expended, providing such a laboratory as will permit performing the majority of the experiments given in the Millikan and Gale Manual.

"The library must contain a minimum of 250 books, which are, or have been, included in the State School Li brary List, Part II.

'Requirements for three-year course "Two teachers shall give full time i high school work, where more than four subjects each year are offered; or one teacher shall give full time and another at least half time when but four subjects are offered each year, no choice of electives being given.
"All teachers of three-year accred-

ited high schools shall be graduates of a standard college, university or nor-mal school, or be the holder of a five year state certificate in Oregon, or an Oregon life certicfiate, or a special cer-ticate for special subjects issued in accordance with sections 16 and 20. 1912 edition of the Oregon school laws. 'The course of study shall be as precirbed by the State Board of Educa-

nvested in apparatus for teaching scicompetitive concerns, if geography, \$75; biology, \$75; physics,

'The library must contain a miniim of 150 books which are, or have

"A teacher doing two years of high chool work cannot teach in the grades. "A teacher doing one year of high school work would be permitted to teach all of the work in the seventh and eighth grades also.

'The length of the recitations in a one and two-year high school shall not be less than 30 minutes, and in all

ing of the Columbia highway also in creased his desire to secure a local home.
