WAR RESULTS

What will be the effect of the European war on the fruit industry—especially the apple industry of the northwest? This question has been asked, perhaps, by every grower and market man in the country.

THE CARNIVALS

The Cornet Band and the Commercial club have asked the city council for the privilege of using the streets for proposed carnivals.

It is an ill wind that blows nobody good. The war has caused an awakening in America. It has jarred loose action on the part of a hesitating congress.

That business is adjusting itself to the war situation is the declaration of Dan's Review. We quote this publication as follows:

"Business is day by day adjusting itself to a war basis of values, risks and demands. The process of readjustment to extraordinary conditions, however, is necessarily slow and merchants are obliged to exercise patience in dealing with the new and difficult problems that arise.

The application of practical ideas and hard work to a fruitful soil produce results that are gratifying. Hood River has forged to the front ranks of the world's fruit districts, and on account of the predominant apple industry, it rarely sees an example of the general farm.

Before many months have waxed and waned city councils and county courts will be called on to make out their budgets for the coming year's tax levies.

The county court, road supervisor in charge, or that person or set of persons under whose jurisdiction the task will come, have an opportunity to become popular by the making of a "turn out" just west of the Tucker bridge.

A FACTORY

Hood River has at least the semblance of a factory at the present time. Indeed, temporarily, the work at the Couter grinding machines affords a payroll that is a source of gratification.

HOOD RIVER AND THE WEATHER

The drought has been broken and welcome rains have fallen over the state. The dry weather has had a serious

effect in many localities of the state. In the Willamette valley and in southern Oregon crops have suffered. It has been a dry summer in Hood River valley, but no one has been heard to complain.

Portland was dry for a period of 74 days, the longest period of drought recorded for 43 years. The rain has been of immense benefit in checking the forest fires of the state.

His Dream Materialized

Curious incident in the career of novelist S. R. Crockett. One morning the postman brought to S. R. Crockett, the novelist, a letter from the editor of the St. James' Gazette containing a small check as payment for a contribution.

White Salmon

Fine strawberries were picked by J. S. Derman in his strawberry patch near the town of White Salmon, Wash. The berries were grown on the runners of new and old plants of the Clark Seedling variety and were as nice as any grown during the strawberry season.

East Africa's Big Game

Big game of British East Africa, outside of the three preserves of the colony, is rapidly vanishing and, according to W. T. Hornaday, "is absolutely certain to disappear in about one-fourth the time that it took South Africa to accomplish the same result."

Just an Oversight

It was 9 o'clock in the morning in an English town, and the roads were blocked with snow. The maid, who had been given a week's notice, was facing the last day of her sojourn in the house. She handed the usual cup of tea to her mistress in bed and then said sweetly, "Oh, ma'am, when ye asked me yesterday if I had any thing in for tonight's party I forgot to tell ye we are out of coal and the furnace is going out."

This Earthly Stage

"The sun," remarked the kindly citizen, "shines for all."

Temperamental

"How is the star across today?" "I don't know. The doctor's in her room now taking her temperature."—Baltimore American.

Too much is worse than want—German proverb.
