MR. WOLVERTON'S ANSWER

Mr. Woverton, a communication from whom appears in another column of the Glacier of this issue, states that since he is conversant with the situation he feels called upon to answer statements made in an editorial in the Glacier last week, when we pointed out that friends of Geo. L. Cleaver, Prohibition candidate for congress from this

date, who is seeking reelection. ing that Mr. Sinnott is admittedly aligned with the liquor interests. Why! for a moment to study the charge. Mr. Wolverton says that he remains silent, and yet he, Mr. Wolverton himself, points out that in his platform Mr. Sinnott announces that he shall vote as his constituents signify their desires by their own votes. And Mr. Sinnott says that he will vote on the national prohibition bill as his constituents vote in November. What fairer stand could any man ask?

Mr. Wolverton says that a member of a national legislature should be a leader in thought, instead of a follower. Let us suppose that Mr. Cleaver were elected to congress by the voters-we do not think he will be-of the second congressional district. Being a leader in thought, as Mr. Wolverton argues, he would be perfectly justified in changing his mind. Now just suppose Mr. Cleaver were elected and changed other friends who have been so zealous in their journeys up and down the district in his behalf, would have seven teen different kinds of conniption fits.

Shoemaker Makes no Promise

To the voters of Hood River county: My Democratic opponent, Mr. J. H. Hazlett, has seen fit to take the public into his confidence by announcing through the public press that, if elected, he will appoint and retain Mr. W.
E. Hanson deputy county clerk in that
office "as long as he is willing to remain." I am very much surprised that The vicious attack of Governor West my Democratic opponent should make same time announce to the voters my choice as deputy clerk in view of the following provision of the Corrupt Practice Act, Sec. 3504 Lord's Oregon Laws, which reads as follows: "No person shall, in order to aid or promote his nomination or election, directly or indirectly, himself or through any other person, promise to appoint another person, or promise to secure or aid in securing the appointment, nomination, or election of another person to any publie position or employment, or to any position of honor, trust, or emolument, except that he may publicly announce or define what is his choice or purpose directed by the Democratic machine to in relation to any election in which he return Mr. Chamberlain by fair means or foul. But they have overshot the mark. We predict the election of R. the people's choice for United States senator, or state what his action will be on such vote."

I wish to assure the voters of Hood River county that I have not selected a deputy, neither have I promised the appointment to any person because of the law just above quoted and I assure you all that if elected to that office shall appoint a deputy who is thoroughly competent to discharge the duties of

the same. I am somewhat surprised at my Democratic opponent appealing to the vot-ers on the popularity of Mr. Hanson, Mr. Hanson was before the voters at the primary election and honorably dedistrcit, were grossly misrepresenting feated in an open and fair fight, and it "Nick" Sinnott, the Republican candi- seems that my opponent, and Mr. Hanson have entered into a private com-pact to defeat me for the office by pub-Mr. Wolverton is one of Mr. Cleav-er's friends, who are going about stat-ing that Mr. Sinnott is admittedly though he publicly declared before the new salary law went into effect that he could not afford to be county clerk at The friends of Mr. Cleaver do not point the old salary of \$100 per month, but it out a single reason that will have in-fluence with the elector who will stop at \$75 per month, playing second fiddle to the chief in this office for the purpose of defeating me and thereby satisfying his desire of monopolizing the clerk's office.

Again assuring the voters of this county that I have made no promises as to the appointment of my deputy and assuring you one and all that I shall highly appreciate your support at the polls on November 3, and if elected pledge my word and honor that you will not regret the support given me. Very truly,

(paid adv) Kent Shoemaker.

Who is to be Deputy County Clerk?

I believe that a candidate for public office should be perfectly frank with the voters and tell them before elec-tion, as near as possible, what to ex-pect from him in case they see fit to elect him. I believe that a public office is a public trust and that the public business as any other business, be conducted on business principles. I am in a position to carry out this polhis mind? Mr. Wolverton and those icy since my nomination for county other friends who have been so realous clerk was unsolicited, and I have no political debts to pay. Accordingly, if elected, I shall retain W. E. Hanson, the present efficient county clerk, in the office as my deputy as long as he is willing to remain. When he leaves the office, I shall select a deputy solely on the basis of ability, regardless of party or faction.

they are the sort of statistics which reflect the spirit as well as the letter, is proved by some words uttered by one of the ablest Democrats in the house, Congressman John J. Before that, while the Republicans were in power, he was the leading Democratic member of the committee. Outside the dungeon cells were whipping posts, over which poor creatures had to kneel, their arms and legs being bound to iron rings, while ply drowned the orchestra, and all lashes were administered with a chicotte, a strip of hippo hide. Palmatoria was another torture used. Although illegal to Portuguese law, it is nevertheless still widely used, causing excruciating pain. The implement employed is a flat, spoon shaped heavy piece of hard wood about an inch and a half thick, with a handle eighteen inches long, the spoon head being perforated with five holes. The person to be punished extends the paims of his hands, and sharp, regular blows are administered, which at each stroke suck up the flesh. The bravest can rarely stand more than thirty blows, for the tortured hands swell to double their natural size. The sentence is often several hundred blows, the punishment continuing on succeeding days until "justice" is satisfled.-Sibyl Belcher in Wide World Magazine.
