## The War Is Over

There will be no further struggle for supremacy among phonograph inventors. Thomas A. Edison has produced the perfect sound reproducing machine-THE NEW EDISON DIAMOND DISC.

The fight has been on for thirty years, but nearly two years ago it was ended once for all.

## The Victory Is Complete

The Edison reproduces overtones that no other machine can reproduce. It is because of the Diamond Point automatically moved and balanced. It is wonderful. Don't you get tired changing the needles on the old style machine? Come in and see the Diamond point work.
