

Hood River Glacier

ARTHUR D. MOE, Publisher. When subscribers desire a change to address this office should be notified promptly...

THE GOATS

Perhaps, it would be more nearly correct to call the publishers of country weeklies lambs; or, seemingly out of innocence or ignorance, indifference or don't-give-a-whoopness, they are victimized year in and year out by the clever publicity seeking sharks...

"This service," says a circular letter accompanying the box of plate, "as you will note by the enclosed proof, consists of articles discussing agricultural and commercial affairs, which are so vital to the welfare of our nation."

In our examination of the matter we believe we can see veiled a clever bit of propaganda for great business interests. Understand, we are not opposed to business interests, just because they are big and because they are so called corporate interests.

Looking at the matter from a more selfish viewpoint, why should the country newspaper run free of charge this publicity matter coming from mysterious sources? The country publisher is not a philanthropist.

It is certainly true that the value of the country press is realized. Indeed, those who make use of it, realize its value far more than do the owners of the medium, else why would they forever be so eagerly seeking it.

The Glacier charges its local advertisers fair rates, and we are told by our patrons that they get their money's worth. So we have written the Agricultural and Commercial Associations, stating that we will accept their articles as advertisements at our regular price.

EX-PRESIDENT TAFT When Ex-President Taft passed through Hood River Sunday morning he was greeted by a crowd of representative citizens from town and valley.

Judge Derby is probably the only Hood River man who ever tried to catch a full grown grouse with his bare hands. W. L. Clark, who spends much time afield in open season, vouches for the story.

It happened Monday of last week, when Mr. Clark accompanied Judge Derby on a hunt on the East Side, the Judge scouring the brushland for birds for the stag dinner given his fellow members of the bar.

"While we were hunting on a steep hillside," says Mr. Clark, "a grouse was flushed. Judge Derby fired two barrels in quick succession, and the bird seemed to fall in the top of a fir that found root at the base of the hill, its top being almost on a level with us. However, we didn't see the bird hit the ground."

More than ever has the nation realized the statesmanship of the man. Williams Howard is big, smiling, generous hearted, and yet a serious, calm, cool thinker. He is not given to outbursts, even though public sentiment may have demanded them.

safety of swimmers, and lessons in methods of resuscitating drowned persons will be given. "Safety First," is a good slogan for a beach. It might be well for a policeman to be placed here. Still, as is said, this life saving apparatus requires the operation of a skilled person.

Mayor Dumble has appointed the custodian of the new swimming pool a special policeman with authority and instructions to arrest any male annoyance who may choose to visit the place of recreation on afternoons set aside for the gentler sex.

C. N. Ravlin, Oregon's chief horticulturist, who had charge of Benson Day festivities at the Panama-Pacific International exposition, certainly achieved distinction, according to Anne Shannon Munroe, special writer for the Oregonian.

Keep your eye on Hood River's band. We predict that Professor Epping and his horn blowers will be in demand at northwestern functions next year.

Has not Hood River enough glory without four-foot cucumbers?—The Oregonian.

PANAMA TRIP CONTEST IS CLOSE

Miss Ethel Jane McDonald is now in the lead in the Panama fair trip contest, which will last two more weeks. The standing of the contestants is as follows:

Table with 2 columns: Name and Points. Ethel Jane McDonald: 65,774; Marjorie Barr: 65,706; Florence Gould: 58,418; Gladys Vogel: 57,494; Magdalene Mitchell: 5,329.

Commercial Club Notes

Secretary Scott, of the Commercial club, who is acting on the Live Stock show committee, says he is getting letters by the dozen from balloon and parachute artists, flying machine men, fireworks people, etc., who wish to draw crowds to the Live Stock show.

A complete digest of the Railroad Commission decision on the Hood River electric rate case is given in the Oregon Voter under date of July 31. Tables of all expenses are given with the cost of producing service to each class of business.

A delegation of the Rivers and Harbors committee of the national congress passed through the city on the 19th inst., on their way to inspect the Cello canal. A local Commercial club committee went to the train and met the members of the party, chatting for a few moments.

FINS, FURS AND FEATHERS

During the course of the season local people and their visitors, while on fishing excursions and when hunting in the mountains, have met many interesting experiences. The Glacier will be very glad to have fishermen and hunters give an account of their experiences to this column of the paper.

The joke is on the Glacier. The point of the joke in the first item in Fins, Furs and Feathers was omitted last week.

The passing over of a paragraph has caused many readers to ask the Glacier the meaning of the joke. The item should have been as follows: Somebody called Clarence Gilbert over the telephone last week and asked him if he wouldn't like to have a mess of trout.

"Certainly," replied Mr. Gilbert. "Just hold the line, then," was the answer.

Mr. Gilbert awaited at the telephone for 10 minutes before he caught on to the joke and in turn called up a friend.

"I just hold the line, then," was the answer. Mr. Gilbert awaited at the telephone for 10 minutes before he caught on to the joke and in turn called up a friend.

"We proceeded to the level ground, and after a thorough search but a vain one, Judge Derby removed his boots and climbing a small fir reached the branches of the larger tree. He had no more than placed his hand on the third branch until I heard him mutter in a hoarse breath: 'Here he is, Louis, sitting there on a limb as dignified as Judge Bradshaw on the bench.' He pointed into the dense foliage, but try as I would, I couldn't see the bird.

"I took a slant at the tree from all angles, and finally the Judge became disgusted and decided to stalk the bird. He crept up the tree, and although I never saw the bird till it flew, in a few moments I heard a whir and a muffled exclamation, full of meaning, from the Judge. He said he reached within two feet of the grouse, and was just preparing to catch it when it became frightened and flew."

W. J. Baker returned Monday from Camp Minnehaha. Harry T. DeWitt

and Rod Imholz spent Sunday on the Lake Branch at the cool forest retreat. Mr. DeWitt is spending several days there.

Dr. and Mrs. J. Smith, of Centralia, Wash., have been encamped at Camp Minnehaha.

Mr. and Mrs. C. U. Dakin and son, Ivan, have been camping near Sandy Flat.

W. R. Sherwood and party have been fishing and hunting in the Greenpoint district.

Mrs. Ida Parker and children have returned from the West Fork.

Walter Wilke and Calvin Bullard killed a bear last week in the huckleberry fields beyond Trout Lake. Mr. Bruin weighed nearly 400 pounds.—White Salmon Enterprise.

Judge Derby, W. L. Holges and Joe G. Vogt bagged five fine grouse in the hills back of Oak Grove last Friday afternoon.

Ten yowlers have made their appearance in the back yard of the Hotel Oregon. The stork for cats arrived last week with five kittens for each of two mother cats, who reside in this favorite feline haunt.

Glenn Cory spent a part of last week visiting Mr. and Mrs. Harry Wood at Honeymoon camp.

P. G. Buttendorf, of Beaverton, where he operates the state bird and pheasant farm, was here Tuesday purchasing young China pheasants from the ranchers.

Mr. and Mrs. C. G. Emery spent the week end at the homes of Mr. and Mrs. D. E. Emery and Mr. and Mrs. H. D. Emery. The three families spent Sunday in vain fishing.

Rand Grills Government Men

Last week while cruising for the county, Hugh Smith and William Rand, according to the latter, discovered a forest fire burning in the dense, virgin timber.

"After an investigation," says Mr. Rand, "we came to the conclusion that it had been set by a couple of the United States geological men. We found their camp and identified them by paper bags left there. 'We found that we could not put out the fire and left. Pretty soon we overtook the men and asked them why they had set the fire. At first they denied it, but finally owned up that it was due to their carelessness, and stated that they had been having an argument as to which had caused the fire.'"

Arens Buys More Land

Prof. F. X. Arens was in the city Monday closing a deal with Walter H. Austin, a Middle Valley neighbor, for the purchase of 14 acres of land. The newly bought place adjoins the Arens tract purchased several years ago from Dr. W. S. Nichol and where the Arens family has since made their home.

Mr. Austin was accompanied by his wife and children, Irma and Byron. W. B. Arens was here with his father.

City Does Not Own River Frontage

After an investigation by City Attorney Wilbur last week, it was discovered that the city does not own what is known as the river frontage. The street property extends to within a few feet of the water's edge, only.

Not a Plunger.

"I've seen better days, mum," said the tramp at the door. "I once did business in Wall street." "You surprise me," said the sympathetic housewife. "Did you deal in stocks and bonds?" "No, mum. Pencils wuz me line."—Birmingham Age-Herald.

Notice

Notice is hereby given that the assessment roll for 1915 of the Hood River Irrigation District has been completed and turned over to the secretary and that the board will set as a board of equalization at the office of the board on Tuesday afternoon, September 7, 1915. By order of the Board of Directors, F. FENWICK, Secretary, Dated August 12, 1915.

\$100 Reward, \$100

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address: F. J. CHENEY & CO., Toledo, O.—Take Hall's Family Pills for constipation.

Oakdale Greenhouses

The first 15 days in December is a good time to plant Roses, Shrubs and all hardy plants. We have them. Have also tulips and daffodils. Pot plants for winter at Franz's, where orders for cut flowers will be taken.
