English as She is Wrote

The following is a clipping taken by Louis A. Henderson, formerly a government engineer in the Philippine Islands, from a Mindanao paper from the home of the Moros in the Islands, and is supposed to be an application for a government position by one of the coming generation of natives:

Dear Sir: In consequence I do offer myself in a position as an Asst. Clerk in any office in your Bureau. As there is no sufficient money to spend for my knowledge to obtain more education, so I shall make an application to the office as an Asst. Clerk. I am only 17 years old, and my knowledge was nearly graduated of the Primary and Intermediate Grades in my town, and so I am new, how to find work in any office in your Bureau.

Awaiting for the request,

Respectfully Yours,

DAMAGES DEMANDED AFTER AUTO ACCIDENT

When G. W. Brown and his family, who were removing by wagon to Lower Bridge in Crook county, were negotiating the steep Robinson hill between here and Mosier Wednesday afternoon of last week, the team and wagon were struck by an automobile driven by W. Judd, of Asakis, Minn. In the mix-up that followed, although no passengers of either vehicle were hurt, the horses sustained injuries, wagon pole and wheels were smashed and the front of the car badly damaged. Brown demanded remuneration for the damage suffered, declaring that the motorists should have stopped at a turnout about 50 feet up the hill. He allowed Judd, who was accompanied by his twin brothers, Lester and Lawrence, to proceed only after the former had promised to stop at the home of William Foss and make a settlement of the damages.

The young man, who was en route to Eugene to visit his parents, Mr. and Mrs. Fred Judd, failed to find the road to the Foss place and hurried to this city to get his car repaired. Brown was here early Thursday morning, threatening legal action in case the young men refused settlement. Judd brothers as soon as their car was repaired at a local garage took the claimant aboard and started back to the scene, agreeing to pay Brown a reasonable amount on the damages he had sustained.

It is considered miraculous that one or other of the vehicles was not pushed over the side of the steep canyon, where the collision occurred, the road at the point being very narrow.

RHEUMATISM ARRESTED

Many people suffer the tortures of lame muscles and stiffened joints because of impurities in the blood, and each succeeding attack seems more acute until rheumatism has invaded the whole system. To arrest rheumatism it is quite as important to improve your general health as to purify your blood, and the cod liver oil in Scott's Emulsion is nature's great blood-maker, while its medicinal nourishment strengthens the organs to expel the impurities and rebuild your strength. Scott's Emulsion is helping thousands every day who could not find other relief. Refuse the alcoholic substitutes.
