The school board held a meeting at the schoolhouse last Monday evening to take some action about the erection of a play shed or recreation rooms, but as there was no petition on file, after transacting some little routine business they adjourned. We have it from good authority that Albert Garrahrant has discarded his bicycle, ditched his motor and has ordered a flying machine of the latest make, at least he is all up in the air. And all over a girl, a little one that came to their home last week, and demanded bed and board. Mother and babe are doing well, but Albert, well—

THE GOOD JUDGE ARRANGES TO GO BIRD SHOOTING

WHEN you're tramping all over creation after game, you don't want a big bunch of ordinary tobacco sweating in your hip pocket. There is tobacco satisfaction for two, and plenty of it, in the sweat-proof sanitary pouch of Real Tobacco Chew.

A little chew of pure, rich, mellow tobacco—seasoned and sweetened just enough—cuts out so much of the grinding and snitting.

ASK YOUR DEALER FOR W-B CUT CHEWING TOBACCO. IT IS THE NEW REAL TOBACCO CHEW—CUT LONG SHRED.

Take less than one-quarter the old size chew. It will be more satisfying than a mouthful of ordinary tobacco. Just take a nibble of it and you find the strength chew that suits you, then see how easily and evenly the real tobacco taste comes, how it satisfies, how much less you have to spit, how few chews you take to tobacco satisfied. That's why it is The Real Tobacco Chew. That's why it costs less in the end.

The taste of pure, rich tobacco does not need to be covered up. An excess of licorice and sweetening makes you spit too much.

One small chew takes the place of two big chews of the old kind.

(Notice how the salt brings out the rich tobacco taste.)
