One of the most delightful social functions in Odell this season was a Lesp Year Masquerade given at the Moe apple house last Friday night. About 25 young people were garbed in everything from clowns and little children to dudes and old women. So complete were the costumes that very few could be identified before they unmasked. Grace Lovell acted well her part as hostess for the occasion and good time was enjoyed by all. part as hostess for the occasion and Mrs. Dutro was the chaperone. The music was composed of "canned" se-lections from the world's greatest orchestras. The party was concluded by refreshments and story telling in the

### Rules for Country Correspondents

One of the most valuable assets a country weekly can have is that co-operation from cl-ver and energetic county correspondents. The news of the county should be covered by a good correspondent in the country should be covered by a good correspondent.

The Glacier feel like congratulating itself on the list of good, live news gatherers, who each week fill many columns with readable news of local happenings At far as the real gathering of the news is concerned there could be no great im-provement. However, there are some few, simple rules that could be followed beneficially. If country correspondents will observe the following, the page of country items will be more attractive and can be set by The Glacier without innumerable annoyances that sometimes arise when the rules are not observed. Always secure, where possible, initials of persors. Don't say Mrs Smith and daughters visited Mrs. Brown and family. If it is Mrs John Smith or Mrs. A. A. Smith, designate them by their proper initials or given name.

Always give definite dates.

Do not use abbreviations, except in case of viven names.

In case of a fire. give cause, total dam-

age and insurance. if any.

Remember The Glacier sets country correspondents on Tuesdays. Endeavor to mail your letter, so that it will reach the office by Tuesday morning. Wednesday is reserved for the setting of the news happenings gathered in the local office, and if the country correspondence piles up on Wednesday, the office force is badly hampered. A little co-opera-tion on the part of the country correspondents will in many cases prevent late hours for the office force on Wed-

If any important news happening breaks in your community after your letter has been mailed, you may reach the office by telephone, or you may mail another letter, that is, if it will be possi-ble for it to reach the office on Wednes-

That the grange was a good place for disputes was proved Saturday. Better luck next time. Don't hesitate to ask the office for It you are out of stationery, notify the office. In case it is not received imnediately, send in another call. It may be possible that your first letter was

misplaced. Remember that your are in charge of one of the most beneficial mediums in your community. The Glacier appreciates your work as well as your fellow residents, whose weekly comings and coings you chronicle.

The most important rule is that con-

cerning promptness of getting your let-ter to the office on Tuesday.

is a new institution in the community organized about a year ago for the purpose of assuring the farmers ice at the lowest cost possible. During this time they have leased state land which is part of the lake and have spent quite a sum of money grading, buying tools, etc. There has been something over 200 tons of ice cut this year. It is thought possible that later they will have a company ice house and keep ice for commercial purposes. Husum and White Salmon districts could perhaps get their ice as cheap here as anywhere. Many teams going down empty in the fall would make transportation cheap.
