Bank Advertisement No. 77 Thrift Campaign Have you been reading about the Thrift Campaign that is to be carried on all over the United States during the year 1916?

It has been inaugurated by the American Bankers Association and is being conducted to commemorate the 100th anniversary of the founding of the first Savings Bank in the United States. This anniversary will occur in December, 1916, at which time the results of this campaign will be made public.

The local banks are the natural aid to this movement and it is not too soon for us to begin to show our interest in it. We will make an especial effort to add a large number of accounts to our Savings Department during the year and we call your attention to the movement at this time in order that you may know that our advertisements during the year headed, THRIFT CAMPAIGN, will be a part of a nation-wide plan to further inculcate and encourage those habits of thrift and economy which cannot be other than helpful to anyone who is interested in his own welfare to the point of revising his general plan of living to include a definite and constructive policy of saving.

Rules for Country Correspondents

One of the most valuable assets a country weekly can have is that co-operation from clever and energetic country correspondents. The news of the country should be covered by a good correspondent in every community. The brief, newsy letters from the rural centers are the making of a country weekly.

The Glacier feels like congratulating itself on the list of good, live news givers, who each week send in columns with readable news of local happenings. As far as the real gathering of the news is concerned there could be no great improvement. However, there are some new, simple rules that could be followed hereafter, if country correspondents will observe the following, the page of country items will be more attractive and can be set by The Glacier without innumerable annoyances that sometimes arise when the rules are not observed.

Always give definite dates. If it is Mrs. John Smith or Mrs. A. Smith, designate them by their proper initials or given name.

Always give definite dates. Do not use abbreviations, except in case of given names.

In case of a fire, give cause, total damage and insurance, if any.

Remember The Glacier sets country correspondents on Tuesdays. endeavor to mail your letter, so that it will reach the office by Tuesday morning. Wednesday is reserved for the setting of the news happenings gathered in the local office, and if the country correspondence comes up on Wednesday, the office force is badly hampered. A little co-operation on the part of the country correspondents will in many cases prevent late hours for the office force on Wednesday.

If any important news happening breaks in your community after your letter has been mailed, you may reach the office by telephone, or you may mail another letter, that is, if it will be possible for it to reach the office on Wednesday.

Don't hesitate to ask the office for suggestions. If you are out of stationery, notify the office. In case it is not received immediately, send in a new call. It may be possible that your first letter was misplaced.

Remember that you are in charge of one of the most beneficial mediums in your community. The Glacier appreciates your work as well as you appreciate your work, which weekly comes and goes your chronicler.

The most important rule is that concerning promptness of getting your letter to the office on Tuesday.
