

THE NUMBER OF HARDIE POWER SPRAYERS

sold in the past week to our Hood River patrons is very gratifying evidence to us that the Hardie is considered the leader in its line.

Mr. F. E. Carl, factory representative for the Hardie Co., is with us this week, and would like to talk to every grower in the Valley who is interested in a Power Sprayer.

We are advised by the Factory, that we should tell them definitely very shortly how many machines we will want for this season's business.

We are anxious to go into details of construction of the Hardie Power Sprayers with you, and show you why they are far superior to other makes.

(h) To develop foreign, Canadian and new domestic markets, contributions of fruit shall be made in proportion to the amount handled by each of the agents participating; returns therefrom shared on the same basis. (i) To secure the standardization of agents' accounting records, to the extent that all account sales issued by the said shipping agencies shall be figured on the same basis and in such a manner that they shall be uniform, allowing true comparison to be made by the grower, between the services rendered and prices secured by the different agencies. In presenting this plan it has been stated that the formation of an exchange in no way presages any radical changes in the status of the selling agencies. On the other hand, the representatives of the Department of Agriculture made it very clear that the proposed exchange would provide facilities whereby the selling agencies may carry out the provisions of the uniform contract.
