GOOD PUBLICITY

Facts about Hood River valley that will produce good results are set forth in an article, written by Fred Lockley...

The following are some of the paragraphs picked from Mr. Lockley's views of the valley after a visit of a few days:

Hood River is raising apples, not prices, nowadays.

Hood River is in selling strawberries, not scenery. There was a day when Hood River was proud of selling Winter Banana apples at 15 cents each.

There was a day when Hood River proudly announced that Hood River orchard land was selling at anywhere from \$1000 to \$2000 an acre.

That day is past. Today Hood River is selling land for its real value as orchard land and you will go far before you find better orchard land than that of the Hood River valley.

The readjustment of values hurt, but happily Hood River's courage never failed and today Hood River is on the upgrade.

The parasites fell by the wayside but the producers plugged along patiently and are now reaping the reward of stick-to-itiveness.

Multnomah county, the smallest county in the state, has an area of but 451 square miles. Hood River is the next smallest county in the state, having an area of 643 square miles.

Harney county with its 9933 square miles could be cut up into 18 counties the size of Hood River, yet Hood River county has twice the population of Harney county and is 36 times as densely populated.

Hood River county contains but one 17th of the total area of the state, yet, small as it is, it has an assessed valuation of \$10,673,522.

Some day Hood River will be celebrated for its celery and cauliflower as it now is for its fruit. A visit to Odell will soon convince the skeptical that clover and alfalfa do well in Hood River valley.

Engineers say that at least 100,000 horse power can be developed in Hood River. Only about 2000 horse power is now developed, so, with her cheap and abundant power, Hood River can become a manufacturing district.

One of the best indications of the Hood River valley's prosperity is evidenced by the fact that during the past 10 years about 150 power sprayers have been brought into the valley. During the past year more than 50 more power sprayers have been purchased.

As these power sprayers cost from \$300 to \$400 each it will be seen that this one item indicates a pretty prosperous condition among the fruit growers.

Originally the Hood River Apple Growers Association purchased about 500 barrels of lime and sulphur for the manufacture of spray. This year they have purchased 1500 barrels.

GET OVER THE GROUCH

A prominent Portland man was here last week end, having come up to look at some property, which he may purchase. While he was here he engaged as many citizens as possible in conversation, endeavoring to sound out public sentiment.

On his way back to Portland this prospective settler told a local citizen that he was surprised at the knocks he had come in contact with.

"I found some mighty good, quiet conservative Hood River boosters. Not the hot air kind," he said, "but men who talk and state facts. Others I found whose conversation was composed of nothing other than knocks. Really, you have too many of that kind."

Of course, if we have a single knocker, who knocks just for the sake of knocking, we have too many, and our visitor was right. It is regrettable that he fell in with such bad company.

Hood River is in good condition. We don't need to say this. The conditions are evidenced in the daily business transactions between merchants and ranchers. We have not the feverish boom of several years back. We should be glad we haven't. Our condition may be called a healthy one. It is gratifying to know that we have settled to this stable basis.

Recent visitors here in connection with the school bond purchase declare that the financial conditions of Hood River are in excellent shape.

John Barleycorn is dying hard in Seattle.

Now for vacation days.

Growers' Agency Turned Down

"The Apple Growers Association has decided that for purely local reasons, they will not be able to affiliate with the Fruit Growers Agency at the present time, says A. W. Stone. 'The Association, however, is in full sympathy and accord with the movement and regrets that local conditions prevent them from taking out an active membership.'"

Blow Leads to Fine

Max Moore, a lineman for the Hood River Gas & Electric Co., who alleged that the old man called him a liar, was assessed a fine of \$10 and costs by Judge Buck yesterday morning for hitting upon the nose Geo. S. Johnson, a 65 year old man of the Frankton district.

The altercation between the men arose over an alleged cutting of an oak tree on Mr. Johnson's place by the power lineman.

Snyder Picks First Berries

So far as has been reported, F. B. Snyder, who resides on the west border of the city, has picked the first ripe strawberries this year. Mr. Snyder has been picking ripe berries since Sunday.

Be prepared for your strawberry harvest. Let the Glacier office make your strawberry tickets and rubber stamp.

SMALL INTEREST SHOWN IN ELECTION

Although the eve of the primary election is at hand, Hood River electors are showing but little interest in the coming party contests. Despite the visit here Monday by Senator Cummins, aspirant to the Republican nomination for presidency, talk of local electors centers for the most part on Hughes and Roosevelt.

The opportunity will afford a splendid occasion in addition to the valuable military training," says Mr. Wilbur who has a large lot of literature on the camp that he will be glad to furnish other prospective visitors to the camp.

A FURRED TONGUE

It May Mean Wrecked Nerves and Not a Disordered Stomach.

"I suppose that there is no more intractable idea in the mind of the doctor than that the furred tongue is essentially an indication of a deranged stomach," writes Sir James Goodhart, consulting physician to Guy's hospital, London, in the London Lancet.

According to Sir James, it is by no means always so. And he goes on to prove it by cases in his own extensive practice.

One of these was of a man in a very responsible position, a leader of men, to whom he had to give orders that had to be obeyed and from whom he had to hear much grumbling; a very hard worker and "the fastest talker I have ever struck," full of energy and giving every ounce of it. He was in splendid health, but suffered from a furred tongue and a bad taste in the mouth.

In his case these were not due to the stomach at all, but to a disordered state of nerve control.

"Nervous fears and nervous tastes are common enough, and they deserve a special thought," says Sir James. He believes that man is kept sweet and wholesome largely by nervous control, and when he loses this control "the parts become fevered, the mucous membrane dries, the nerves irritated, and taste is perverted." The man so affected are those who are nervous, anxious, hard workers, taking their work home with them to think about and dream about in bed.

Kresse Makes Improvements

The Kresse Drug Co. is making a number of improvements on the interior of its store in the Brossius building.

Hatch Bros. are busy this week engaged in hanging paper of a handsome design on the walls of the store.

SOCIETIES.

\$100 Reward, \$100

The readers of this paper will be interested to know that a most dreaded disease that science has been able to cure in all its stages, and that is Catarrh of the Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

W. J. CHESNEY & CO., Toledo, O. Sole and exclusive agents for Hood River and vicinity. Send for Family Pills for constipation.

FOR SALE

For Sale—Choice of three young cows—fresh. Two Jerseys and one Holstein-Jersey. Also two yearling calves. C. E. Glaze, Phone 5833, Brookside drive.

For Sale—True-to-Name Nursery offers for spring planting, leading varieties of apple, pear, cherry, etc. Phone 1796, H. S. Gallegan, mist.

WILBUR WILL GO TO AMERICAN LAKE

Hood River has at least one citizen who will attend the business and professional men's training camp to be maintained from August 14 to September 9 under the supervision of the United States War Department at American Lake, Wash. Geo. R. Wilbur, city attorney, who saw active service during the Spanish-American war in the 2nd Nebraska Regiment, declares that he will attend the camp, and that he will endeavor to take at least a half dozen other young men with him from the city.

The opportunity will afford a splendid occasion in addition to the valuable military training," says Mr. Wilbur who has a large lot of literature on the camp that he will be glad to furnish other prospective visitors to the camp.

A FURRED TONGUE

It May Mean Wrecked Nerves and Not a Disordered Stomach.

The PARIS FAIR

Why Pay for Experience It Is All Around You

When we look back at the wrecks scattered along the path way for the past few years.

When we see our friends who are driving these "orphan" cars, and ask cost of repairs, besides great delay of getting them.

When we see how corporations have placed their trade mark on an inferior article manufactured for them, and not by them, as they would have us believe.

How "Receivers" of bankrupts have placed a cheaper, inferior machine on a selling basis with standard goods, with mere price as the salient feature, and how dearly these people pay for their experience.

When we see all these things why not investigate more thoroughly before taking the plunge.

REO has always stood for everything that was best, mechanically, scientifically and financially.

REO never experimented at owner's risk, never adopted any "over-night" sensational features. All REO experimentation is finished before any one model goes out on the market, which accounts for such unequalled service.

Why not investigate this REO Record of wonderful service which any REO owner is always glad to tell you of, and see our cars on display.

D. McDonald, Agent
