extent this money has been wasted. The county court proposes to build an experimental mile or half mile of con-crete road. Such construction, we be-lieve, will give the East Side orchard-ist the service he desires. It will be economical in the end, in that he will be able to haul two or three times as much as on former years, when mud made the drawing of an empty wagon a difficult task for a team. Wear and tear on his farm vehicles will be re-duced to a minimum. The East Side orchardist, too, will, in all probability, be in a better general state of health

be in a better general state of health and mind. He will be relieved of an unending winter worry and the new highway will eliminate that oft recurring tendency of the past to cuss the road, and then to cuss some more.

Odell is not a village. It is a closely settled community. Many trunk line valley roads converge here. It is a kind of a hub of the Apple Valley. And here in the past five years has been evidenced much of the progress and development that has made the Hood River Valley known to every continent. New homes have arisen. New improvement has been noted annually. Odell citizens have kept to the front in discussions that lead to civic betterment, and steadily the district has advanced. A search of the entire country might

ADVERTISE APPLES

We are glad to see the concerted trend of opinion favoring the construc-tion of a short sirteth of hard-sur-faced road on the East Side. The East Side district is certainly in need of bet-ter highways. It has already been demonstrated that no ordinary surface is going to stand up under the heavy traffic of apple wagons during the late atumn. The foundation problems/of the East Side, because of soil condi-tions there, are different from thoses of of norsh has been wasted. Deafness Cannot Be Cured

Desiness Cannot Be Cured by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure desines, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mu-ous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condi-tion, hearing will be destroyed forever; nine case out of tes are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces. We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that sentot be cured by Hall's Catarrh Cure. Send for circulars, free. T. J. CHENET & CO., Toledo, Ohlo.
