The newspaper correspondent doesn't have smooth sailing all the time. The reporters for the big dailies out on the battle line take their lives in their hands and are dodging bullets and bursting shells, and the little fry are dodging brickbats, frying pans and rolling pins, all because you don't spell the name right or spell it too often, or not often enough; or they say something like this: "I hope to live long enough to get even with you, or if I die first you will be in luck." But it all goes, so we should worry.

We wish those who expect to have fruit to market this coming season would investigate our proposition. We shall not ask anyone to sign contracts with us. It will cost you nothing to join our selling organization and should you not like our style, it will cost you nothing to quit.

We challenge any shipping organization that was ever hung together to match the average of our returns. Ask your banker to advise you regarding our responsibility. When you sell us fruit you don't go home without your money.

If you MUST and WILL consign your fruit, we will make liberal cash advances and handle on consignment, but we do not commend the practice. We operate in forty different towns and cities and have responsible and competent representation in others.
