

Boiling Points Determine Quality of Gasoline

"Then I might just as well throw my gravity hydrometer away?"
"You said it, Mr. Motorist."

"Listen, the boiling points of gasoline absolutely control its starting qualities, accelerating qualities, power-giving qualities. Gravity has nothing to do with it."

"To get the most out of your motor, your gasoline must have the correct series of boiling points in a gradually rising, unbroken chain—low boiling points for easy starting, medium boiling points for quick and smooth acceleration, high boiling points for power and mileage."

"And only straight-distillation can give this. No mixture can embody all the hundreds of intervening fractions necessary for a perfect motor fuel."

"To be certain of straight-distilled, un-mixed gas, buy

ACES

Shadows have come falling on the ages for the soldier of fortune who would have sold his prospective chances in Heaven for four aces. The stock of accessories, apparatus and supplies kept on hand by the Apple City Electrical Supply Co. have a value to the Hood River buying public relatively as high as those four cards would have had to a participant in a poker game. The goods we carry are time-tested, are nationally advertised and bear the guarantee of known labels. They are Ace high.

Let us supply your needs and do your electrical wiring.

E. S. COLBY.

BEANS

Get ready to plant beans. Plant enough acreage to make it pay. We will have a BEAN THRESHER and growers can arrange with us to thresh their crop cheaper and quicker than flailing it out by hand. Beans are a staple article of food. Prices are high and will remain up and it is the best opportunity the farmer has had for years to make a profit. Get your seed at once. We have a limited amount of Lady Washington seed beans and are taking orders.

WEDEMEYER PRAISED FOR HIS SONGS

Otto Wedemeyer received unstinted praise from all Portland musical critics on the work he did last week at the Apollo club concert. The following is taken from the Evening Telegram:

"Otto T. Wedemeyer, baritone, the soloist of the evening, sang Schumann's 'Belshazzar' and Tchaikovsky's 'The Ball', and in response to the encore gave a free song of the ancient Greeks. Mr. Wedemeyer is one of Portland's most popular soloists, and his reception last evening was a triumph."

Commenting on Mr. Wedemeyer's work the Oregonian says:

"The soloist was Otto Wedemeyer, baritone, an Apollo club member, and he was quite a success."

"Mr. Wedemeyer was formerly engaged professionally in opera in the east and last night he was easy, natural and vocally satisfying. His diction is splendid. He is a great vocal acquisition. He showed dramatic fire in the 'Belshazzar' solo. His extra-ordinary grace and finesse, 'Mopsa,' a love song sung by the Greeks, before the Christian era, and arranged by Villiers Stanford."

University of Washington News

Jack Sutthoff received the highest honor that the University of Washington can give to a son of hers, when he was elected to membership in the Junior-Senior honor society, Oval Club, last Friday. He was one of four men elected out of the sophomore class. The announcement of the Oval club pledges comes as the climax to campus day at the University. Jack is president of the sophomore class, was a strong contender for a place on the base ball team till war times caused the dropping of athletics, and has assisted General Manager J. Arthur Younger in managing plays and theatricals for the past two years. His election was unanimous on the first ballot and was strongly endorsed by the crowd gathered to witness the pledging, as was shown by their demonstration when his name was read off.

Estelle Mae Rich, former grade teacher in the Hood River schools, who is now teaching in Seattle and attending the University of Washington in leisure hours, was a member of the local sorority Alpha Delta Pi, which was installed as a chapter of Alpha Delta Pi last Saturday.

"Scoop" Phillips, Jack Sutthoff and John Allen enlisted in the coast artillery when war was declared and are waiting to be called into action. The company to which they belong, 3rd Co. Washington Coast Artillery, was recruited from the University students and has University men as officers. When called out it will be sent to Fort Worden near Port Townsend, Wn.

Ninety-five juniors and seniors from the University are to go to the Presidio to take the officers' reserve work. Their education in military information started the next day after war was declared when they were allowed to drop all school work, getting full credit for the same and register in military work. The course will be continued until they leave for San Francisco.

An ambulance corps of 80 men is being trained and equipped at U. of W. to leave for France the middle of June. This is the twelfth college in the United States to supply an ambulance division for Red Cross work with the Allied armies. The University of California corps leaves May 5 and about one month later it is expected the one from here will be called out. Beneficial dances are being given to raise \$10,000 to uniform the men and buy two ambulances and necessary equipment. The men are being taught first aid and instructed in carrying wounded men.

Dorothy Baker, Jessie Howes, Ruth Phillips and Helen Sutthoff are at present and accounted for on the campus here. There may be other Hood River people here in college, but if so they are hibernating in out of the way places.

This University has shown a marked growth under the regime of President Henry Suzzallo. Since he took the helm here two years ago money for three new buildings has been appropriated. One, the home economics and journalism hall, is now in use, a second is nearing completion and work will commence on the third next fall if it is deemed advisable to incur the added expense at that time. President Suzzallo is a graduate of Stanford and later was on the faculty of Columbia University, coming to Washington from there.

Over 300 students of the University have enlisted in the different departments of the army and navy. The men were granted withdrawals from school with full credit for this semester. Most of the recruits are from two underclasses and are men who were not eligible for commissions, on account of age, under the officers' reserve work.

Conrad Jacobson, ex-'18, who has been teaching school at Gib Harbor, is mentioned in the records as having returned to the Presidio training camp from Tacoma.

J. W. A.

Spence Helped Says Stevens

En route to eastern Oregon points, J. D. Stevens, of Portland, spent Monday canvassing Hood River county to determine the sentiment of local voters on the \$5,000,000 road bonding act.

"I find that the recent visit of C. E. Spence, master of the Oregon State Grange," says Mr. Stevens, "had no apparent effect on the sentiment of local voters. Instead of turning votes against the proposed good road movement, it seems, from expressions of numerous citizens whom I have interviewed, that Mr. Spence helped the bonding act."

Perronet Buys in Lower Valley

J. S. L. Perronet, who recently sold his orchard place in the Upper Valley to Charles Steinhauser, has purchased from W. J. Baker an eight-acre tract located on the West Side. The place was formerly owned by James Rimmer, an Englishman, who returned to his native land last year.

A Symbol of Health

The Pythagoreans of Ancient Greece ate simple food, practiced temperance and purity. As a badge they used the five pointed star which they regard as a symbol of health. A red five pointed star appears on each package of Chamberlain's Tablets, and still fulfills its ancient mission as a symbol of health. If you are troubled with indigestion, biliousness or constipation, get a package of these tablets from your druggist. You will be surprised at the quick relief which they afford. Obtainable everywhere.

Commercial Printing at Glacier office.

VETERINARY PRACTITIONERS NEED LICENSE

It has come to the authorities that several men are practicing veterinary surgery in Hood River county without license. The law is strict on this point. The following is quoted from the Veterinary Medical Laws of Oregon:

Section 4811—Licenses to be Recorded.
All licenses, as aforesaid, shall be recorded in the office of the county clerk in the county where the holder of such license may reside. (L. 1903, p. 154, Sec. 9.)

Section 4812—Practice Contrary to Provisions, Misdemeanor—Vacancies in Board.
Any person practicing veterinary medicine and surgery, or dentistry, in the state contrary to the provisions of this act shall be guilty of a misdemeanor, and upon conviction thereof shall be fined not less than \$50 nor more than \$250, or by imprisonment in the county jail not exceeding six months, or both. The fine collected under this act shall be paid over to the president of said board and become a part of its fund. All vacancies in the board shall be filled by the governor by appointment for such unexpired term. (L. 1903, p. 154, Sec. 10.)

District Sealers Warned

District sealers of the state were recently warned as follows by the main office, of Salem:

Shipments of strawberries are being made in the state and I would call your attention to the law governing the sale of same.

First, that the berries must be sold in standard boxes, in quantities up to 6,000 copies of the Weight and Measure laws, visiting growing sections in the state, calling the attention of the merchants and growers to the law, and insisting on the boxes being level full when sold to the consumer.

Second, that the boxes be well packed. The purchaser is entitled to a box of berries well packed and level full.

Last year this office spent considerable time and money distributing about 6,000 copies of the Weight and Measure laws, visiting growing sections in the state, calling the attention of the merchants and growers to the law, and insisting on the boxes being level full when sold to the consumer.

Feeling that the department has exhausted every effort to acquaint the merchants and growers with the law, I am determined that the consumer, when buying berries, shall get berries in a standard box, well packed and level full.

I would request you to prosecute vigorously any violators of the law, which is as follows:

"Standard boxes or baskets used in the sale of strawberries, blackberries, loganberries, raspberries or similar berries, shall be of the interior capacity of 67.2 cubic inches (dry quart) or 33.6 cubic inches (dry pint) or 16.8 cubic inches (dry one-half pint). And it shall be unlawful for offer or exposure for sale or sell strawberries, blackberries, loganberries, raspberries or similar berries, in boxes or baskets of other than the standard size; provided, that nothing within this section shall be construed in any way preventing the sale of strawberries, blackberries, loganberries, raspberries or similar berries by the weight or in boxes or baskets of greater capacity than 67.2 cubic inches."

Another List of "Howlers"

The latest list of queer and consequently humorous answers written on examination papers comes from the University of the State of New York, at Albany, which grants Regents' certificates. Among those who wrote the replies were candidates for teachers' positions, for qualification as law or medical students and for admission to college. Here are some of the answers:

There was no Christians among the early Gauls. They were mostly lawyers.

Climate is caused by the emotion of the earth around the sun.

The skeleton is what is left after the insides have been taken out and the outsides have been taken off.

A blizzard is the inside of a hen.

George Washington married Martha Custis and in due time became the father of his country.

The stomach is just south of the ribs.

The alimentary canal is located in the northern part of Indiana.

The rosetta stone was a missionary to Turkey.

A vacuum is a large empty space where the Pope lives.

The government of England is a limited mockery.

Georgia was founded by people who have been executed.

The qualifications of a voter at a school meeting are that he must be the father of a child for eight weeks.

Achilles was dipped in the river Styx to make him immortal. (This is a variant on the classical story that "the mother of Achilles dipped him in the Styx and he became intolerable.")

Men Give Carson Problem

City Marshal Carson is at a loss to know just what was the game of three men, who after he began his investigations slipped quietly from town last week. The men registered at a local hotel, the following: John Levinsky, Portland, and W. E. Miller and Chas. West, Berkeley, Calif. Levinsky visited the marshal, posing as a private detective and soliciting work. The man stated that he was alone. The hotel records show that he and the other two men occupied a common suite of rooms. West and Miller, according to the city marshal, were working some kind of a photograph game. They solicited photographs, offering to enlarge them, bringing out detail, but refused to accept pay for the work, declaring that it was done simply to show what the process they represented could bring about.

Marshal Carson warned Sheriff Christian, of Wasco county, to be on the look out, as the men were headed towards The Dalles.

Shepard Has Early Corn

E. H. Shepard will probably establish a mid-Columbia record this season for early sweet corn, despite the backwardness of the season. Mr. Shepard has several rows of corn across the garden at his West Side place six inches high. The corn was started in the house in cans.

Trouble Entirely Disappeared

Fathers and mothers worry over a child with a chronic cough. Knudt Lee, Wannaska, Minn., writes: "For several years my daughter had a bad chronic cough. Every time she caught a little cold, it aggravated the trouble. We tried many medicines, but not until we tried Foley's Honey and Tar did anything produce any great relief. In a few days the trouble entirely disappeared and she has never returned." Foley's Honey and Tar for coughs, colds, croup, whooping cough. Sold everywhere.

HURLBURT CALLED TO TRAINING SCHOOL

Carroll M. Hurlburt, county engineer, who was awarded a commission of first lieutenant in the Engineers Reserve Corps, U. S. A., last week received a telegram ordering him to report Tuesday at the officers' training school at the Presidio, San Francisco. Mr. Hurlburt is a graduate of the University of California, where he received his military training.

The county court will hold open Mr. Hurlburt's position. During his absence his duties will be performed by his deputy, A. G. Cruikshank.

Allen Issues Water Bulletin

"Suggestions on Irrigating Practices for the Hood River Valley" is the title of new bulletin just issued by the Oregon Experiment Station. The bulletin was compiled by R. W. Allen, of the Hermiston branch station, who has spent a considerable time at Hood River the past three years making a study of orchard irrigation.

In his bulletin Mr. Allen says that conditions are very backward, and that a more economical use can be made of the water available. Instead of a continuous service to all patrons of a certain amount of water, Mr. Allen suggests that patrons on different laterals rotate their use of the water, securing large volumes on certain days of the week.

Aged Man Dies from Injuries

Joshua Sluts, of Winston, Mont., uncle of E. J. Sluts of this city and brother of C. A. Sluts, passed away recently at Helena while sitting in a chair at a restaurant eating his supper. Death is thought to have been caused from slight injuries and the shock of an automobile accident. Mr. Sluts, who was 83 years of age, was in Helena to attend the funeral of a friend, John Broad.

Mr. Sluts was a veteran of the Civil War and a member of the Grand Army of the Republic.

Enoch Brayford Now Policeman

Enoch Brayford, formerly a local minister and merchant, who several years ago left for his native land, England, writes to local friends that, despite his three score and 10 years he is now engaged in night police duty at Walsall, Eng.

"My work is not the easiest in the world," writes Mr. Brayford, "as no lights of any kind are permitted at night because of fears of air raids. All of the younger policemen are away in the trenches."

Roy Dean Off to Train

Roy F. Dean, formerly in the local office of the Pacific Power & Light Co., but who was promoted to the management of the Pomeroy, Wash., office during February, arrived here last week for a visit with Mrs. Dean before leaving for San Francisco to attend the officers' training school. Mr. Dean received a commission in the Engineers' Reserve Corps about the time of his departure for Pomeroy.

Mrs. Dean is one of the leaders of the local chapter of Honor Guard Girls.

"Chamberlain's Tablets Have Done Wonders for Me."

"I have been a sufferer from stomach trouble for a number of years, and although I have used a great number of remedies recommended for this complaint, Chamberlain's Tablets is the first medicine that has given me positive and lasting relief," writes Mrs. Anna Knapp, Spencerport, N. Y. "Chamberlain's Tablets have done wonders for me and I value them very highly." Obtainable everywhere.

What's the Reason?

Many Hood River People are in Poor Health without Knowing Cause

There are scores of people who drag out a miserable existence without realizing the cause of their suffering. Day after day they are racked with backache and headache; suffer from nervousness, dizziness, weakness, languor and depression. Perhaps the kidneys have fallen behind in their work of filtering the blood and that may be the root of the trouble. Look to your kidneys, assist them in their work—give them the help they need. You can use no more highly recommended remedy than Doan's Kidney Pills—endorsed by people all over the country and by your neighbors in Hood River.

Mrs. J. T. Holman, Twelfth and B street, Hood River, says: "I don't hesitate to speak a word in praise of Doan's Kidney Pills, for I have always found them to be all that's claimed of them. We aim to keep them on hand all the time and whenever it is necessary to take a kidney medicine, they never fail to give satisfaction. For backache and kidney disorders, Doan's Kidney Pills can't be equalled."

Price 50c, at all dealers. Don't simply ask for kidney remedy—get Doan's Kidney Pills—the same that Mrs. Holman had. Foster-Milburn Co., Props., Buffalo, N. Y.
