

**Boiling Points Determine Quality of Gasoline**

"Then I might just as well throw my gravity hydrometer away?"

"You said it, Mr. Motorist."

"Listen, the boiling points of gasoline absolutely control its starting qualities, accelerating qualities, power-giving qualities. Gravity has nothing to do with it."

"To get the most out of your motor, your gasoline must have the correct series of boiling points in a gradually rising, unbroken chain—low boiling points for easy starting, medium boiling points for quick and smooth acceleration, high boiling points for power and mileage."

"And only straight distillation can give this. No mixture can embody all the hundreds of intervening fractions necessary for a perfect motor fuel."

**PROF. ELIOT SUGGESTS PARK IMPROVEMENT**

The following letter was received last week by the Commercial club from T. D. Eliot, assistant professor of political and social science at the Washington State College, relative to the proposed improvement of Eliot park:

The Hood River papers bring word that "Eliot Park," donated by my father, is to be "improved" in the inevitable onward march of "civilization." I have no right to grudge this event, in spite of the pangs that this remark caused among my childhood and later memories of this most precious spot of the old place. I believe there were no conditions attached to the deed—an act showing it seems to me, remarkable confidence on my father's part that the natural beauty of the place would be appreciated and preserved by posterity for posterity. So far as his will is concerned, Hood River could have shorn it of trees for fuel and ruined it with a tawdry amusement park, ice cream shops, dance halls or post card concessions.

I write without my father's knowledge or suggestion, simply to beg of you to be far-sighted. In a sense, the spot could not be "improved." The Almighty created there one of the noblest outlooks in the valley. A cheap exploitation of the place might make quick profit for concessionaires, and a revenue to the city. A conservative treatment of it by an expert firm of landscape architects would, however, ultimately be worth the money. Maintaining the quiet dignity of the place, and (so far as humanly possible) its clean, wild condition, has been the secret of success in the Yosemite park; it is their capital and they know it. It is to be hoped that the intelligence of Hood River already sees it the same way.

Too many such views have been cheapened by building an automobile loop on the apex of the point, for blase and lazy tourists to drive around and return. The only concrete suggestion with which I would burden your attention would be that the road stop short of the final view, allowing people to approach it on foot, and find it as of old, unspoiled by woodwork, shops, or unnecessary artificial development.

**RED CROSS WILL HELP RUSSIANS**

It is interesting to note that the Russian Rums has decided to prosecute to the finish its part of the great war with Germany.

"The help that will be carried to Russia by the American Red Cross," says Dr. J. M. Waugh, "will do much toward heartening the great Muscovite army." Dr. Waugh says:

"A tremendous Russian problem confronts the Red Cross. We have a debt to pay Russia as well as to France. The situation as regards amelioration of suffering on the long Russian battle line is deplorable. On the whole 1,000 miles of front there are only 600 ambulances. Succor must be rushed to Russia. There are problems of encouragement and of material aid confronting us there as great in their way as we await us in France. We must be up and doing—all of us, every single American. Our thought is to go to Russia with as much relief as we can assemble. The heartening problem is very pressing there, as the whole country must understand by this time. It is especially necessary now that Russia is in the throes of revolutionary aftermath. I am firmly convinced that the Russian democracy can be relied on to keep its head, to maintain what it has snatched from the autocrats, but it must be helped, and helped quickly."

**GRANT MOTOR CO. OFFERS OPPORTUNITY**

The next three months present an opportunity to car buyers that may not occur again, says Geo. S. Waite, general sales manager of the Grant Motor Car Corporation of Cleveland. Motor cars are cheaper now than they will be for years, in all probability.

"In spite of the general increases in motor car prices during the past year and a half," says Mr. Waite, "some people have not taken warning. There is nothing unusual in this. Every rising market shows that there are always more people who think the top has been reached than who size up the situation correctly."

"When manufacturers bring out their fall models the public is going to be awakened. So far manufacturers have advanced prices only under pressure. But in the meantime they have been studying the world situation and next year's cars will be priced and built to anticipate world conditions. In plain English, prices will be high enough to play safe for if prices are not advanced cars will have to be cheapened to offset increased costs."

"This simply means that the car buyer now has a chance to get more for his money than he can possibly have a few months hence."

**Never Neglect a Cold.**

A chill after bathing, cooling off suddenly after exercise and drafts, give the cold germs a foot-hold that may lead to something worse. Safety requires early treatment. Keep Dr. King's New Discovery on hand. This pleasant balsam remedy allays inflammation, soothes the cough and repairs the tissues. Better be safe than sorry. Break up the cold with Dr. King's New Discovery before it is too late. At your druggist, 50c., \$1.00.

**War Bread Proposed**

A mill to manufacture "war bread," made from no other ingredients except whole wheat and water, is to be installed by A. G. Stall, of Spokane.

"What is the formula? Well, that's a secret. But I make delicious bread out of whole wheat and water—nothing else. I have used it for 20 years, and wouldn't use anything else," said Mr. Stall. "One of this bread is worth three loaves of ordinary white bread. There is more nutrition in it and it is far more palatable. This bread has been submitted to Dr. Harvey Wiley, government food expert, who pronounced it pure and wholesome in every way. It's easier to make than biscuits and far more delicious."

**MORTON OBJECTS TO ROAD ON A FLUKE**

J. W. Morton, who recently brought suit against Hood River county for \$10,000, alleging that he would be injured by a road to be built across his property, has filed a second suit which calls for an annulment of a right of way for the highway across his property on a technicality.

Mr. Morton alleges that the formal notice placed by the county, and required by law to be placed at the actual point of beginning of the road, was set about 100 feet from the boundary of his farm.

In his suit for damages Mr. Morton cites as one of his injuries that he will have to walk several feet further to his rural delivery mail box when the new stretch of the Highway is opened.

**Court Inspects Roads**

After a 60 mile tour of inspection over the valley system of highways, members of the county court report that Hood River's roads were never in better shape than at the present time. Despite the fact that the road building fund was less by more than \$5,000 than in former seasons, the county will this season complete the grading and surfacing of 30 miles of road. Several miles of new road, on easy grade, have been constructed in the Deed district.

"I was gratified," says Judge Blowers, "not only to find the roads in such good shape, but to note the improvement of orchard and farming tracts in the Upper Valley. Those communities had grown beyond my comprehension." The members of the court made their inspection without expense to the county.

**This Safely Removes Worms.**

Worms are a common disease of children and every mother should know their symptoms. Sallow complexion with dark circles under the eyes, irregular bowel movement with stomach hard or swollen, grinding teeth or itching may mean that Kickapoo Worm Killer is needed at once. It is a mildly laxative remedy in candy tablet form that children like. Kill the troublesome worms and let the child grow strong and healthy. At druggists, 25c.

**Many Motor to Festival**

While the novelty of many motorists passing through town has worn off for local people, and the constant stream of motor vehicles headed westward over the Highway has been but little noticed the past week, it is likely that travel over the scenic route Wednesday and Thursday was record breaking. Thursday within 15 minutes 46 cars all loaded with eastern Oregon and Washington folk journeying to the festival, passed along Cascade avenue.

By five o'clock Friday morning the road was lined with automobiles, many local families joining in the procession to the patriotic rose festival.

**Bowel Complaints in India.**

In a lecture at one of the Des Moines, Iowa, churches, a missionar from India told of going into the interior of India, where he was taken sick, that he had a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy with him and believed that it saved his life. This remedy is used successfully in India both as a preventive and cure for cholera. You may know from this that it can be depended upon for the milder forms of bowel complaint that occur in this country. Obtainable everywhere.

**REHEMATISM ARRESTED**

Many people suffer the tortures of lame muscles and stiffened joints because of impurities in the blood, and each succeeding attack seems more acute until rheumatism has invaded the whole system.

To arrest rheumatism it is quite as important to improve your general health as to purify your blood, and the cod liver oil in Scott's Emulsion is nature's great blood-maker, while its medicinal nourishment strengthens the organs to expel the impurities and rebuild your strength.

Scott's Emulsion is helping thousands every day who could not find other relief. Refuse the alcoholic substitutes.
