

Hood River Glacier

ARTHUR D. MOE, Publisher

Subscription, \$1.50 Per Year.

Except it pertain to live news matter, communications, or articles of a general nature, should be in the office by Monday to insure their appearing in the issue of the current week.

WE WILL ABIDE BY FINAL RULING

Let the Columbia River Highway east of here go directly up the Columbia gorge. The road is a transcontinental one. It serves the nation and state as well as Hood River, and we mustn't be selfish by asking that the route be detoured through our orchards, of which we are naturally proud.

We are sorry that the above, appearing in the Glacier of Thursday, July 26, was twisted into a misinterpretation and thus resulted in needless worry on the part of a few of our citizens. The hot season is no time for worries, and even the ghost of a cause for extra brain duty deserves to be "gassed" during the months of July and August.

Still the Glacier has no apology to offer for the editorial remarks of July 26. A general impression was prevailing here at the time the brief comment was made, to the effect that the State Highway Commission had in effect chosen the river route to the east of here for the Columbia River Highway.

It is an admitted fact by all Hood River men, and the Glacier is of the same mind, that it will be greatly to our advantage to so locate the scenic highway that the motor tourist will have an opportunity, without any extra exertion, of beholding the outspread sea of apple trees, the fruit of which has brought the state much fame.

The people of the Hood River valley, however, must not forget themselves. It must be remembered that the Columbia River Highway is to be constructed to serve the state and nation as well as Hood River and it will be located accordingly. The meeting held at the Commercial club last Thursday evening, when a committee was appointed to confer with the members of the Highway Commission and truly represent the Hood River viewpoint, may result in the realization of the innermost hopes of all of us and it may not.

Roy D. Smith's suggestion about the letters to our boys is one that we should all endorse and practice. Let the boys from home know that you are proud of them and thinking of them.

KIMBALL BROS. BUY NEW BEAN TRACTOR

Kimball Bros. have purchased from D. McDonald, local agent for the Bean Spray Pump Co., one of their new tractors, and after a thorough demonstration of the new orchard implement they are advertising for the sale of their horses. The ranchers, whose place is between Summit and Odell, declare that the tractor, where the orchardist has 40 acres or more to cultivate, is a boon.

HILL AND PARTY SEE TROUBLES OF I. W. W.

M. M. Hill, who has just returned from a motor trip to Crater Lake, tells of an interesting experience at Klamath Falls. "We happened to be in Klamath Falls just at the time the I. W. W. troubles were at their climax," says Mr. Hill. "Not knowing of the stringent measures that were being put into effect by authorities to quell the agitators, we were bowling along in our car, preparatory to leaving town, when an armed guard halted us. We were not allowed to leave Klamath Falls until we had seen the sheriff and secured a pass."

Rubber Stamp Ink at this office.

ODELL U. H. S. WILL OPEN ON AUGUST 27

Odell high school will begin its first term in the new high school building August 27. The directors have spared no labor or expense in preparing for the coming year's work. In addition to the courses offered last year, they have added a commercial course, including shorthand, typewriting and other commercial subjects; also a domestic science course.

Teachers of exceptional ability have been secured. Prof. V. M. Vose, principal of the school, needs no special mention, as his work in the district for the past three years speaks for itself. Miss Jane Thickens, of Seattle, a graduate of the University of Washington, who has specialized in home economics and commercial work, will teach the subjects for which her special training has made her most efficient. Miss Thickens has had five years of experience and her work is highly recommended. Miss Anna H. Johnson, also a graduate of the University of Washington, will teach German, English, botany and history. Miss Johnson has lived one year in a German speaking family and has tutored in German at the U. of W.

APPLE NOTES

The fancy apple and pear trade of the United States will profit immensely after the war by the new markets that are being developed in South America, according to the report of an investigation conducted by the Bureau of Foreign and Domestic Commerce. Since the harvest of 1914 the American apple has been established as supreme in both Brazil and Argentina, and its sale is limited at present only by the number of persons able to pay the high price asked for it. This price is largely influenced by excessive charges for transportation, which will be reduced in normal times, and thus greatly increase consumption of our fruit. Our only competition from Europe will be in the cheaper grades. New Zealand and Tasmania, however, are likely to claim a share of the general business because their harvest comes in our off season.—The Oregonian.

Association Makes Berry Returns

The Apple Growers Association of Hood River has completed the most successful strawberry season, in dollars and cents, that it has ever had. Following is the list of the various pools showing the dates and the average price realized, this price being absolutely net to the Association, after paying all brokerage and selling costs and does not include any railroad claims, but is the actual net money received and which is being distributed to the growers.

Table with columns: Pool No., Period, and Amount. Lists various berry pools from June 1st to July 27th with corresponding amounts.

Sewage Odor Brings Apology

"It's the odor from a clogged outfall sewer," was the rejoinder of local people Saturday to the investigating party of visitors to the city. The outlet of the sewer has been stopped by debris washed down by the freshet of the Columbia river, the waters of which have now receded and left exposed great quantities of sewage. While the smell for several days aroused complaints from residents of the northwestern part of town, the foul odors did not invade the business district until Saturday, when the wind shifted.

Rev. Kennedy's Son Wins Honors

Dr. W. S. Kennedy, a local dentist, will leave in a few days for Portland, where he will continue his work as instructor in the Pacific Dental College. Dr. Kennedy has made his home in the Dalles for several years and has become popular here in social and fraternal circles. He is a past exalted ruler of the local lodge of Elks and has been active in the work of this lodge.

Smith Suggests Frequent Letters

Roy D. Smith has launched a campaign to raise funds with which to purchase a small leather bound pocket diary for each of the enlisted men from Hood River county. Mr. Smith is also urging all local people to write frequent letters to boys of the service whom they know. "I know from experience," says Mr. Smith, "that nothing is more cheering to a boy in the service than letters from home. And I know that hit diaries, well bound and leather covered, such as will just fit the pocket of an olive drab coat, will be mightily appreciated by our soldier boys."

Gem Will Close Four Days Weekly

Beginning next Monday, the Gem theatre, now managed by Arthur Kolstad, will remain closed four days each week. The theatre will be opened as usual for matinee and evening performances each Friday, Saturday and Sunday.

We do not feel that there is any call for two shows the first four days of the week during the hot season, when so many people are away on vacations," says Mr. Kolstad. "The Gem will therefore be closed part of the time. When it is operated, we assure the public that we will, try to have the best shows procurable."

Hannum Road Praised

Numerous local men who have recently visited the completed section of a new road that will connect the Mount Hood snowline with roads of the Upper Valley, declare that the route far surpasses their expectations. "The new road, so far as built, is well constructed," says D. G. Cruikshank, who motored over the new highway. "The grade at no point exceeds 10 per cent."

SOCIETIES

- IDEWILDE LODGE NO. 10, I. O. O. F.—Meets in Fraternal hall every Thursday night. C. B. Morton, N. G. Geo. W. Thomson, Secy. Geo. Ertie, V. G. HOOD RIVER CHAPTER NO. 25, O. E.
