"During the past two years it has been my privilege to have been the honor guest at many social affairs over this state, and it has also been my pleasure during that time to have had a seat at the honor table of many points in the inland empire and women of national and state wide prominence. These courtesies were extended me as the president of the Oregon Federation of Women's Clubs.

"But the courtesy that you have extended me today I take as a personal one, one that you have extended me as a member of your club and as a citizen of Hood River, and I appreciate it more than I can tell you.

"At the time of my election two years ago, the time seemed ripe for the presidency to go out of Portland, and because of the prominence of this club in federation affairs was no doubt the reason I was chosen as president. I have always considered it an honor to be a member of this club, and if I have made good as a club worker it has been due to the cooperation and loyalty of the members of this club and that of my own family.

"In accepting this gift which you have presented me as a token of esteem which you and the citizens of Hood River hold for me, I do so with great pleasure. And because it will give me much pleasure to place it where it will do good to those whom we have with us always, I present it to the philanthropic committee of this club to be used in their work, and again I thank you for the expression of your appreciation."
