Stone, who was appointed as a delegate to represent the growers of Oregon, says that full and adequate data is being prepared for presentation to the Commission when growers are eventually called to appear.

QUESTIONNAIRES ARE BEING MAILED. Up to today Sheriff Johnson has mailed 155 questionnaires to Hood River county draft eligibles. The documents are mailed out to five per cent of the men daily. These questionnaires must be returned, properly signed, in seven days. To avoid mistakes it is urged that eligibles confer with members of the legal advisory board as named in last week's Glacier.

Answers of registrants on the questionnaires relating to health and answers under the head "dependency," with the exception of the names and addresses of persons claimed to be dependent, will not be open to inspection by the public without the consent of the registrants.

New Precincts Formed. Because of a new law requiring that election precincts of a city and county be separate, the county court has redistricted a portion of this county. East Hood River precinct has been added to the Pine Grove district. All of Center, West and Park precincts without the city limits were consolidated. Included with them is a portion of rural territory of the West Side orchard district. The new precinct will be known as Center precinct.

Ready Now at Old Prices. Fresh lots (just received) of Foley's Honey and Tar are selling at before-the-war prices. This puts a well known cough medicine, ready to use, in homes at less than its cost to buy and mix the ingredients yourself, and saves bother and fuss. Mrs. Mary Kieby, 3533 Princeton Ave., Spokane, Wash., writes: "I was sick in bed with lagrippe. I coughed very badly. I took Foley's Honey and Tar. It stopped my cough and I got better. So now I am around the house again." Sold everywhere.

STONE IS CONFIDENT OF SUCCESS. While the hearing of the Interstate Commerce Commission of the arguments of apple shipping concerns and representatives of growers against the petition of railway companies for a 15 per cent increase in fruit freight rates has been postponed from next Monday to some indefinite time in the future, A. W. Stone, who was appointed as a delegate to represent the growers of Oregon, says that full and adequate data is being prepared for presentation to the Commission when growers are eventually called to appear.

But we of northwestern apple districts, where the growing of perfect fruit is our chief occupation, whatever the fruitgrower of other parts of the country may do in neglecting his orchard, we must go right ahead and keep our orchards free from disease, whatever the cost. As a result of the war, the orchards of Europe are being neglected. In the east, where apple growing is merely a side line, growers are not going to give their trees any care, so the orchards of Europe are being neglected. Substitute Foods in Germany. Concentrated straw fodder and ground grape pits are suggested for table use in Germany. In a published list of new foodstuffs, with descriptions of use, the following are mentioned: Rhubarb leaves, seaweed, straw meal, crushed and ground maize ears, heather stalks, ground sugar beet seeds, parley seed, wild radish husks, bran, wine yeast, beechnut cake, fish meal and various seed foods.

Attempts have recently been made in England to establish the use of rhubarb leaves as greens, but it appears that such food is dangerous. English newspapers have reported several cases of illness following the eating of rhubarb leaf blades.
