TWENTY YEARS IN MOSIER, 1893-1913

(By Alex Stewart)

In my former communication I attempted to cover only the occurrences, as I remembered them in about the "boom" of Mosier during the ten years of my residence there, so that I will now have to attempt to cover the surrounding country as I remember it during that same period.

The fruit industry at the beginning of this period was not developed as it is today. The principal fruits grown were prunes, cherries, plums, and a few were growing apples without the use of spray and the results were far from satisfactory, the larger per cent of the product being wormy. At that time those engaged in growing these fruits were Amos Root, Geo. Sellinger, Lee Evans, J. M. Elliott, Jas. L. Brown, Samuel Hubbs and son, Wm., Louis Haverport, M. Dientemuller and L. Lamb.

In the fall of 1894 the writer bought of Wm. Hubbs 400 boxes of unpacked apples at 40 or 50 cents per box grown on the place now owned by your popular manager of the Mosier Fruit Growers Association, R. A. Chaffield. Prominent among the farmers who at that time were not in the fruit industry but engaged in general farming and stock raising, (the country at that time being an open range), I might mention J. H. Mosier, who in addition to owning the Mosier Donation Land Claim, also owned the Marshall Donation Land Claim, now owned by the East Hood River Fruit Co., also the property now owned by E. L. McKenna. Mr. Mosier, being the first settler in the country, had gone into the stock business and at one time the cattle upon a "thousand hills" covered with bunch grass, were his. Others at the period so engaged were Wm. McClure, Sr., and his two sons, Thos. J. and Wm. L. McClure; Robert Dunsmore, Matthew Thiel and his brother, Hubbard; Frank Lapiere; N. P. Sturgess; Geo. Ireland; V. C. Young; W. A. Stark; Mrs. N. Bowman; Reece Prather; Mrs. Huskey; W. E. Huskey; and our old friend, Mr. Mosier, with his two sons, Stephen and Thomas; John Evans and Mr. Godbersen, J. N. Watt and R. F. Hardwick were at that time employees of the O. R. & N. Co. in the B. & B. Dept., but their families were on the farms. These are possibly some that I have overlooked or forgotten, besides quite a number of homesteaders, made up of the principal part of the farming population at the beginning of this period.

About this time or soon after, others now prominent in Mosier affairs began to arrive and buy, or locate on government land. Among such I note my old friend and your worthy concinnian from the "Sicent" ward, C. J. E. Carlson; A. L. Lundberg; J. F. Roll and his two sons, L. R. and Joe, M.; Hill Hunter, father of your efficient postmistress, and his brother, F. M. Hunter; the two brothers of your "old timer" Lee Evans, Dick and Wm. Evans; also the father of these prominent Mosier citizens. Your old time citizen, G. R. Wood, was also on his homestead on "Little Mosier." Old Mr. Wyss with his boys, Gerald and Arnold, were holding down claims on Mosier creek.

It was along toward the close of this period that the growers began to wake up to the possibilities of apple culture. Some of the growers and shippers of Hood River Valley who had been engaged in berry culture, discovered that with modern methods of cultivation, spraying and thorough organization, putting out an honest pack, they could beat the world in the production of certain varieties of apples such as the Spitz and Newtown. So thoroughly did they carry forward the project that by advertising and thorough organization they established a market that netted the grower, if I remember correctly, about \$3.25 for extra fancy stock.

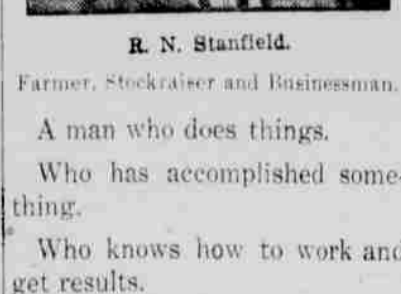

Taking advantage of the opportunity to exploit the only place on earth that could produce such apples at such prices, the wide awake people of Hood River engaged in this business created such a demand for orchard land that it advanced to unheard of prices and everyone from the lady stenographer to the staid lawyer and doctor went crazy on the orchard question, and you could sell land sight unseen in the fruit section for any old price that your conscience would allow you to ask.

And so ended the first ten years of my experience at Mosier.

(To be Continued)

When in Portland stop at the modern Palace Hotel, at Washington and 12th streets, in center of shopping and theatre districts. 11-11

For United States Senator

R. N. Stanfield.
Farmer, Stockraiser and Businessman.

A man who does things.

Who has accomplished something.

Who knows how to work and get results.

Who knows Oregon's needs, requirements and resources.

Who has the experience, knowledge and business understanding.

Who, as a state Legislator for six years, has already done much for Oregon.

Whose republicanism is unquestioned and whose ability has been proven.

(Paid advertisement by Stanfield Committee, Stanfield, Oregon.)

MEDICAL SERVICE CORPS PROPOSED

For the purpose of completing the mobilization of the entire medical and surgical resources of the country, the Council of National Defense has authorized and directed the organization of the "Volunteer Medical Service Corps," which is aimed to enlist in the general war-winning program all reputable physicians and surgeons who are not eligible to membership in the Medical Officers' Reserve Corps.

It has been recognized always that the medical profession is made up of men whose patriotism is unquestioned and who are eager to serve their country in every way. Slight physical infirmities or the fact that one is beyond the age limit, 55 years, or the fact that one is needed for essential public or institutional service, while precluding active work in camp or field or hospital in the war zone, should not prevent these patriotic physicians from close relation with government needs at this time.

It is intended that this new corps shall be an instrument ably directed to meet such civil and military needs as are not already provided for. The General Medical Board holds it as axiomatic that the health of the people at home must be maintained as efficiently as in times of peace. The medical service in hospitals, medical colleges and laboratories must be up to standard; the demands incident to examination of drafted soldiers, including the reclamation of men rejected because of comparatively slight physical defects, the need of conserving the health of the families and dependents of enlisted men and the preservation of sanitary conditions—all these needs must be fully met in time of war as in time of peace. They must be met in spite of the great and unusual depletion of medical talent due to the demands of field and hospital service.

ENGINEER VIEWS NEW BRIDGESITE

A. L. Foster, an engineer for Parker & Blandfield, Portland contractors, recently awarded the contract for constructing a concrete Columbia Highway bridge across Hood River, arrived here Saturday for investigation preliminary to actual work. The new bridge, which will replace the steel span, property of Hood River county, will cost \$41,000, of which the county court will pay \$5,000. The bridge will consist of three arch spans, 95 feet long each, and concrete approach, which will bring the total length to nearly 500 feet.

Construction work, it is stated, will begin as soon as materials can be assembled.

Bum Apples Cause Comment

As an object lesson to growers a display of cull Jonathan apples, which have been selling in Portland for \$1 per box recently, was made Saturday at Laraway's store. The apples were covered with blemishes and were grivelled.

"This fruit has had space in cold storage," stated a card attached to the display. "It was grown on one of our prominent orchards. Does it pay to trade such produce? How long can we afford to follow such a practice?" The display attracted much comment on the part of growers, who declare that the marketing of such apples should be prohibited.

Big Owl is Irish

One of the largest owls ever seen here—of the horned species—was captured by Warren Miller, Frankton orchardist. The owl had been making its home in a crotch of a tree in the big night bird, two feet in height, when standing, has been mounted and placed on display at Pat's place. It was decorated with Irish green ribbons Sunday, and a cigar of the Owl brand was held in its talon.

Bishop O'Reilly Promoted

Bishop Chas. J. O'Reilly, of the eastern Oregon diocese of the Catholic church and well known in Hood River, has just been promoted to a 15-year service in Oregon, to the diocese of Lincoln, Nebr.

Mitchells Point Mill Begins

A. A. Laumann, president of the company, the mill of which is located just west of the Mitchells Point Lumber Co., will start its going camps today. The mill, with a capacity of 90,000 feet daily, the largest in the county except that of the Oregon Lumber Co., at Dee, will begin the season about April 1.

"It Sure Does the Work"

Changeable weather and wet feet make March a dangerous month for coughs, colds, croup and whooping cough. Be prepared to get prompt relief. Don't let a cold run into serious sickness. Mrs. W. H. Thornton, 3523 W. 10th St., Little Rock, Ark., writes: "My little boy had a severe attack of croup and I honestly believe he would have died if it had not been for Foley's Honey and Tar. Two doses relieved him. I would not be without it at any price." Sold everywhere.

German Prisoners Suggested as Workers

"Do not let transports return to America empty," is the suggestion by Peter Mohr, native German and pioneer Hood River valley rancher. "Let them bring German prisoners here to work our farms and replace our boys who have gone to the front."

Mr. Mohr, who has two nephews in the United States army, continues: "It is better to put these prisoners to work than to stop them up and feed them. Bring them over here and make them raise the stuff to feed themselves. And, mind you, I'm willing to wager that you'll find no lazy men among them. Let us put their energy to some use."

ELECTION INTEREST IS VERY SMALL

Little interest has as yet been displayed here in the approaching primary election. Although the field is crowded by gubernatorial candidates, but little expression is heard among local electors. The small sentiment that is expressed favors the nomination of Governor Withycombe, while some mention is made of Olcott and Simpson.

Withycombe and his joint representative to be elected from Hood River and Wasco counties for the legislature of next year, no candidate has as yet appeared.

Friends of Judge Blowers are bringing pressure to bear to seek his candidacy for the county judgeship. Judge Blowers, one of the city's prominent business men and a former mayor, was appointed last year by Governor Withycombe to succeed E. E. Stanton, resigned.

Edward Hawkes has announced his candidacy to succeed himself as county commissioner. No other prospective candidate for this office has been mentioned.

For county offices announcements made as follows: Mrs. Kent Shoemaker, county clerk, and S. W. Heppner, county assessor.

Judge Fred W. Wilson, appointed to succeed Judge W. L. Bradshaw, will be a candidate for the circuit judgeship. It is expected that Judge Wilson's vote will be practically unanimous in Hood River county. Indeed, it is not likely, it is stated, that he will be opposed.

A Bilious Attack

When you have a bilious attack your liver fails to perform its functions. You become constipated. The food you eat ferments in your stomach instead of digesting. This inflames the stomach and causes nausea, vomiting and a terrible headache. Take Chamberlain's Tablets. They will tone up your liver, clean out your stomach and you will soon be as well as ever. They only cost a quarter.

A Correction

In last week's Glacier a paragraph of the report of the primary meeting of the Apple Growers Association, relative to a statement of C. W. McCullagh about the organization's New York manager, Mr. Woodruff, was worded that readers might have drawn the conclusion that Mr. McCullagh referred to himself instead of Mr. Woodruff. The paragraph was: "Mr. McCullagh stated that he was recently offered a 100 per cent increase in his salary by the Spokane Fruit Company."

SUMMING UP EVIDENCE

Many Hood River People Have Been Called as Witnesses

Week after week has been published the testimony of Hood River people who suffer kidney troubles, who are people who have endured many forms of kidney, bladder or urinary disorders. These witnesses have used Doan's Kidney Pills. All have given their enthusiastic approval. It's the same everywhere. 50,000 American men and women are publicly recommending Doan's, always in the home papers. Isn't it a wonderful, convincing mass of proof? If you are a sufferer your verdict must be, "Try Doan's first."

Here's one more Hood River case. E. U. Rodger, miller, brakeman, 1301 Columbia street, says: "I haven't had occasion to take Doan's Kidney Pills for a number of years, but, speaking from past experience, I found them to be just the thing for backache. I took two boxes of Doan's Kidney Pills when my back was hurting and since then, I haven't had to use anything for backache or other signs of kidney trouble."

Mr. Rodger is only one of many Hood River people who have gratefully endorsed Doan's Kidney Pills. If your backaches, if your kidneys bother you, don't simply ask for a kidney remedy, ask distinctly for Doan's Kidney Pills, the same that Mr. Rodger had, the remedy backed by home testimony. 60 cents at all stores. Foster-Milburn Co., Props., Buffalo, N. Y. "When your back is lame, remember the name."
