A MATTER OF IMPORTANCE TO ALL APPLE GROWERS

The recent destruction of our plant makes it impossible for us to rebuild at Odell this Fall. But we have leased a temporary building with trackage in Portland and are now installing new machinery to handle your this season's cider apple crop.
But, Be it Remembered, when the first sign of Spring comes we will be back with you 100 per cent strong to start construction on our new and modern plant, without evaporator.
This message is for the up-to-date apple grower, who looks for the future. We stood with you until the fire destroyed our plant and expect you to be with us now. Understand, we mean a big loss to the apple grower. We ask Nothing for Nothing. We desire to allow his call apples to go to waste or expect to pay to waste or sell them at a loss.
So a word to the wise is sufficient. All we ask is your support in selling us your cider apples this Fall.

RED CROSS GARMENT DRIVE NEAR

September 23 the local Chapter of the Red Cross will begin a drive for old garments to be sent to suffering Belgian people. Since the clothes will be subjected to the hardest kind of wear, only garments made of strong and durable materials should be sent. It is useless to offer any affected population garments of flimsy material or gaudy coloring. Make the gifts practical.
Garments need not be in perfect condition. A hundred thousand destitute women in the occupied regions are eager to earn a small livelihood by repairing gift clothing and making new garments adapted to needs with which they are familiar.
Woolen goods of any kind whatsoever are acceptable; soft hats and caps for all ages and sweaters of any kind and size.
Men's shirts and pajamas, so worn or shrunken as no longer to be serviceable are particularly welcome since the latter can be utilized to make children's garments.
Do not send garments of flimsy material or gaudy coloring, ball dresses, high heeled slippers, etc.
Stiff hats, either men's or women's straw, dress or derby.
Raincoats, rubber boots or anything containing rubber.
Note: Rubber heels can easily be removed from shoes.
Books, toys, soap, toilet articles.
Notes or communications of any sort or description must positively not be sent.

PARKDALE FIRE INCENDIARY WORK

It is the belief of the community that the fire Saturday morning, destroying a saw mill south of Parkdale, owned by M. L. and Nelson Emry and A. M. Kelly, was the work of incendiaries. Water in an irrigation ditch, used to keep the fire from lumber stacks ceased to run as the fighters worked. An investigation showed the headgates of the ditch tightly closed. While the countryside turned out to help fight the fire, two men were seen hurrying away from the scene. Men were recently discharged for I. W. utterances.
The loss was \$12,000, without insurance. Fortunately, 70,000 apple boxes had just been removed from the plant.
