

# The Hood River Glacier.

VOL. XXX

HOOD RIVER, OREGON, THURSDAY, NOVEMBER 7, 1918

No. 23

## THE FIRST NATIONAL BANK

HOOD RIVER, OREGON

TO HOLDERS OF 4% BONDS OF THE FIRST LIBERTY LOAN CONVERTED AND 4% BONDS OF THE SECOND LIBERTY LOAN.

The privilege of conversion which arose in consequence of the issue of 4% per cent bonds of the Third Liberty Loan will expire on **November 9th** and under existing law cannot be extended or renewed. Holders of these 4 per cent bonds lose nothing by exercising the privilege of conversion and gain 1/2 per cent interest per annum. Holders of 4 per cent bonds should not wait until the last moment to exercise the privilege of conversion, but proceed promptly. Delay will result in overburdening the banking institutions of the country and the Treasury Department by making it necessary to handle all conversions at the last moment, and may result in the loss of the privilege of conversion altogether.

W. G. McADAMS, Secretary of the Treasury.

### Fourth Liberty Loan Bonds

are now ready for delivery to subscribers who have paid in full.

## SHAMROCK

Most people know of the Shamrock—the Irishman's Shamrock so green, the emblem of fun and fight. Not many however, are aware that it represents a brand of "Flour."

People who use Shamrock Flour have the same effect of feeling—fun and fight if necessary, they have a satisfied feeling, instead of that hungry feeling you possess after eating a yard of bread made from over-milled and bleached flours.

But it is NOT as white as other flour! No, it is not intended to be.

The wheat is ground down, reducing the grain of the wheat and the starchy particles to a uniform mass, giving the flour a darker appearance, or an orange caste, producing that nutty or wheaten flavor, strong of protein or gluten content, which made the big sweet loaves of BREAD our Grandmothers used to bake.

All the products of the HIGHLAND MILLING CO. put out under this brand, are made from selected and blended grains, every package of which is a uniform standard, whatever is represented on the package.

These products are all fresh ground, of superior quality, and every sack guaranteed. If it does not satisfy you, your money back, no questions.

Ask your grocer for these products; insist. If he will not furnish you, call 1751. We will see that you get it without extra cost to you, and perhaps will tell you the reason why. Like grape nuts, "there is a reason."

We would like to have you call at our Mill. We solicit a share of your patronage for our products. If you do not, you WILL BE SOBRY SOME DAY. Our motto: "Above board; live and let live."

## Attention Car Owners!

Having purchased the Cascade Garage, we are fully prepared to care for all your wants.

Our machine shop and repair department are completely equipped.

The manager, Geo. C. Dye, with ten years of electrical and shop experience with the Packard Company in Portland, is ready to serve local car owners.

Electrical and Ford Repair Work a specialty.

# EXELSO

## KEEP THE HUT FIRES BURNING

### HELP THE UNITED WAR WORK DRIVE

Hood River Campaign Will Be Waged Tomorrow—Quota to Be Raised in a Single Day

Your boy comes stumbling out of the battle line— He wants a place to rest, a place to get warm, a place to smoke and get a hot drink and hear somebody talk United States.

He sees a light ahead. It's a hut! Do you think he cares whether that hut is run by the Knights of Columbus or the Y. M. C. A., Jewish Welfare Board or the Salvation Army? Not much! He knows what he wants and he knows that he'll get it whatever uniform the folks inside happen to be wearing.

Your boy knows what real democracy means. He's fighting to make it something bigger and better and finer than it ever was before. He's the world's greatest authority on democracy today. Take his word for it.

Keep his hut fires burning! A hut is your fighter's home over there. It is his store, his theatre, his church, his school and his club. It is the place where he writes your letters. It is the place where he reads his books and magazines, where he and his friends get around a piano and sing or listen to a phonograph.

It is the place where all the movies are given, and the concerts and the minstrel shows and vaudeville. Often it is the only place within reach that is dry and light and warm and clean.

A hut may be a shed or tent or a fine old chalet or a hotel. Sometimes, at the front, it's just a lathered little shack, the only building left standing in a town.

On the fighting line it's just a board laid across two boxes with a sign nailed to a tree. The sign doesn't matter, it's what the hut gives your fighter.

Back up these seven organizations without thought of race or creed because your boy knows that he is always welcome everywhere, and he needs them all.

The organizations in the drive are: Y. M. C. A., Y. W. C. A., National Catholic War Council, K. of C., Jewish Welfare Board, War Camp Community Service, American Library Association, Salvation Army.

Therefore, when members of the Hood River county committee visit you tomorrow, dig deep into your funds for the comfort of the soldiers. You will be helping every soldier, and at the same time you will be helping Hood River county to gain new honors. The formal United War Work campaign for the nation opens next Sunday to last for a week. It is the aim of the Hood River county committee to complete work tomorrow.

Therefore, do your part.

## UNITED WAR WORK QUOTA IS INCREASED

Acting on advice received from headquarters Tuesday the local committee will raise a quota of \$9,200 in Hood River county instead of \$6,500.

It has been learned that the early estimate of \$170,500,000 for the nation must be increased by 50 per cent, and every state and county of the nation will be asked to increase quotas. The local committee considers that the new quota will be met by Hood River people with just as liberal a spirit as the former, and the campaign will proceed tomorrow without a change in plans.

### Victory Students to Help

Victory Girls and Victory Boys will participate in the coming drive and endeavor to raise a quota of \$375 in the county. This organization includes students of the 7th and 8th grades and of the high schools of the county. Miss Helen Hawkes has been appointed captain of girls and Myron Hoyt for boys of the county. W. H. McClain has been made county chairman of the students' drive.

The campaign, as planned, was to have been conducted through students' assemblies. With schools closed by influenza, it is necessary for the boys and girls to perfect their organization by letters sent to all schools of the county.

## MELTING POT IDEA CONTINUES TO GROW

The melting pot idea, for which Mrs. W. P. Laraway is organizer and sponsor, continues to grow, a guarantee of further dollars for the Red Cross. Mrs. Laraway, who has secured the cooperation of representative women in all parts of the valley, has had handsome cards printed for distribution throughout the valley.

"Uncle Sam is Calling for Precious Metals," the cards, printed in colors, read.

It is further pointed out that all gold and silver from old and discarded pieces of jewelry and plate will be reclaimed and turned over to the great humanitarian organization.

Mrs. Laraway says that Mrs. L. W. Cannon has begun her work with great eagerness, and cooperators in other parts of the valley will soon be moving as soon as the apple harvest is over.

"All are enthusiastic over the melting pot," says Mrs. Laraway.

## ASS'N CLOCK AT LOS ANGELES DEDICATED

(From Los Angeles Times)  
The largest pedestal clock in the world erected at the Los Angeles Terminal market, was dedicated last week by C. W. Hooker, resident manager of the Hood River Apple Growers Association, under the auspices of which concern the big clock has been built.

Flags of all the allied nations, representing the various markets at the great market center formed a gay bit of decoration for the ceremony.

The clock was installed by the

Standard Electric Time Co., of Springfield, Mass. It is decorated by jars of apples and pears that are remarkable for their likeness to real fruit.

This clock is one of the most remarkable timepieces in the world. It automatically operates its own lighting system at sundown and shuts it off at daylight; winds itself and otherwise conducts the direction of its own mechanism.

It stands 55 feet from the center of the market on a solid, reinforced concrete pedestal. This pedestal, which is 12 feet by 6 at the base, takes root in solid concrete five feet below surface and engineers declare that a 90-mile gale could beat about it without affecting it.

The clock has an interior illuminating system that will use 500 watts of electricity in addition to four big decorative lights which circle the pedestal just under the dials that can be seen and read from any part of the 20 acres covered by the market place.

The Apple Growers Association, of Hood River, Oregon had the clock built. Its dedication today marked the opening of the apple season here, Manager Hooker having received the first cartloads of fruit from the north.

## APPLE MOUNTAINS AT VINEGAR FACTORY

Mountains of apples, literally speaking, may now be seen at the premises of the Hood River Apple Vinegar Co., where acres of tons of low grade fruit are being crushed and pressed each week. With their receiving bins all full the vinegar and cider concerns has been filling open bins around the base of the big plant. It has even been found necessary to requisition a part of the concrete street dividing units of the plant and pile mountains of the fruit there.

The M. Hood R. R. Co. is hauling trainloads of cull product from valley stations in open cars. The fruit is also being moved in open cars to the Hood River Valley Products Co. in Portland.

## WATER CORE FRUIT MAKES VINEGAR

Vinegar concerns and farmers toward the beginning of the harvesting season were fearing a shortage of lower grade apples. The quality of Hood River fruit never seemed quite so high. Scab affliction was negligible this year and constant spraying eliminated codling moth damage.

The cider supply, however, has been greatly increased, as packing progressed, by the discovery in many districts the so-called water core fruit characterized by a watery pulp, transparency and off-weight. Some owners of large orchards will find it necessary to sell thousands of boxes of apples to the vinegar factory because of water core.

The defective fruit is attributed to several exceedingly hot days last summer, days when no wind prevailed.

## MRS. H. K. ARNOLD'S FUNERAL TODAY

The body of Mrs. Hosmer K. Arnold will be taken to Portland for funeral services and interment today. Mrs. Arnold died Monday evening from pneumonia, following Spanish influenza. She is survived by her husband and four children, all of whom are victims of the epidemic.

Mr. and Mrs. Arnold, former well known Portland residents, came here to a Barrett orchard district several years ago to make their home. The sudden death of Mrs. Arnold and the illness of her family has caused a widespread grief. She and her husband have always taken great interest in community welfare.

Accompanied by a nurse, Mrs. E. N. Blythe, of Portland, arrived Tuesday to care for the members of the Arnold family, sufferers from influenza.

Mr. Arnold, who was critically ill for a time, is reported improving. Three of the children were so ill that Dr. Kanaga, the family physician, in order that he might give them close care and nursing so necessary in such cases, took them to his own home on Columbia street.

## INFLUENZA SAID TO BE ON THE DECREASE

After a toll of 14 deaths and more than 275 cases, physicians report the Spanish influenza in the wane here. The epidemic has resulted in great hardships on the part of families, all members of which have been stricken. With the nursing staff of the Cottage Hospital ill and no one to care for the full quota of patients, Mrs. Chas. Castner, aiding the Red Cross, Influenza committee, secured volunteers to relieve the distressful situation.

Thomas Wickens, who has had experience as a practical nurse and as camp cook, was secured temporarily to take charge of the hospital kitchen. Other volunteers for hospital work and to aid stricken families have been: Mrs. W. W. Rodwell, Mrs. H. G. Barklage, Mrs. Leecil Allen, Mrs. E. A. Franz, Mrs. C. K. Marshall, Mrs. Frank Howard, Miss Edith Wells, and Mrs. J. Wentzner. Numerous housewives are cooking meals at their homes to be distributed to influenza patients.

## OPEN AIR SERVICE PLANNED FOR SUNDAY

With all public gatherings called off by health authorities as a precaution against influenza, no church services have been held here for the past two weeks. Apple harvest hands of the Upper Valley, however, plan for a service Sunday, providing the weather is propitious, in the orchard of A. H. Eilers, a Portland man. E. H. Jennison, a Kansas evangelist, here picking apples, will deliver the sermon. Mr. Jennison is said to have an originality similar to that of Billy Sunday, and the proposed open air services are attracting a widespread attention. The open air choir will be accompanied by phonograph music, said Mr. Eilers, who was here Tuesday night.

## M'NARY, WITHY-COMBE ELECTED

### REPUBLICANS CONTROL CONGRESS

In County Vote Blackman and Hazlett Win, Johnson Returned. Tribute to Mrs. Shoemaker

Oregon's Republicans have been returned by Congress and high state officers have also been returned to office, and it is apparent that both houses of the next Congress will be Republican. Probably as a rebuke for his hindrance to the draft legislation, Missouri, according to returns, has defeated Champ Clark. His Republican opponent is R. H. Byer. The Democratic house whip, James Ham Lewis, is defeated by Medill McCormick, Republican.

Both McNary and Withycombe are leading by handsome majorities. Simcox, Hawley and McArthur, Oregon congressional representatives, were re-elected. Mr. Simcox's vote in this county was 932. Mulkey won for short term U. S. Senator by 750 votes.

County results as follows: Post, 656; McNary, 754; Pierce, 521; Withycombe, 570; Hoff, 570; Mason, 422; Evans, 191; Johns, 992.

To succeed Justice Moore, A. S. Bennett, 193; Cook, 29; Olson, 95; Attorney General Brown, 1142; Cannon, 132.

Superintendent of Schools Churehill, 119; Lusk, 119.

Labor Commissioner—Gram, 1152; Nikula, 46.

Public Service Commission—Williams, 1109; Johnson, 131.

Water Superintendent—Cochran, 1132; MacFarland, 118.

The county vote was as follows: Judge Wilson, 1251; Hazlett, 723; Nickelsen, 544; Bolton, 522; Egbert, 441; Mrs. Thompson, 826; Judge Blowers, 1225; Hawkes, 542; Blackman, 722; Johnson, 800; Arneson, 513; Mrs. Shoemaker, 1248; Mrs. Bishop, 1227; Wickham, 599; Hepler, 349; Wing, 441; Craikshank, Anderson, Olinger and Outhack carried almost a solid vote.

Results on measures here were as follows: Normal School Bill, yes 498; no, 594. Delinquent Children Bill, yes, 611; no, 447.

Regue River Fish Bill, yes, 471; no, 37.

Willamette River Fish Bill, yes, 564; no, 291.

Delinquent Tax Bill, yes, 627; no, 491.

Compensation for public notices, yes, 495; no, 329.

Tax Levy Bill, yes, 497; no, 432.

As in the case of officials, Hood River county's vote is a fair criterion for the entire state.

The bill to prevent stock from running at large in Hood River county was carried by a heavy vote.

## CITY ELECTION WITHOUT CONTEST

The city election was without contest Tuesday. Officers elected were: Mayor, E. L. Seebec; councilmen, two year term, Frank Davenport, Jr., K. W. Sinclair, Walter Walters; councilmen, one year term, Mark Cameron, J. H. Carson, Claude C. Coughlin; recorder, H. L. Howe; treasurer, J. W. Critch.

## NICKELSEN LEADS HAZLETT IN WASCO

While Hazlett has beaten Nickelsen for state senator in Hood River county by 179 votes the lead of the later in Wasco will gain the victory for him. With Nickelsen gaining on each repeat Wasco county has resorted a sufficient lead for him to gain the senatorship by approximately 50 votes.

## JURY MEETING HAS BEEN POSTPONED

Circuit Judge Wilson, who will be here today for a session of court, has instructed the grand jury not to meet because of Spanish influenza. The regular meeting of the trial jury has also been postponed from next Monday until the first Monday in December.

Judge Wilson will however, meet with attorneys next Monday for the consideration of any matters not requiring a jury.

## Judge Blowers Makes Statement

Nov. 6, 1918.  
Editor Glacier: I notice in this morning's News a statement purporting to have been made by Commissioner Hawkes and Hannum that "it was Judge Blowers himself" who proposed the name of Mr. Hannum for county roadmaster. This is misleading, for the reason that I did propose his name for a short time in 1917 to take charge of the road supervisors, but not for the year 1918. Mr. Hawkes nominated Mr. Hannum this spring and without previous consultation with me. I have been convinced for some time past that it is not good business policy to have any member of the court act in the dual capacity of commissioner and roadmaster, and shall oppose the appointment of any member of the county court to the position of road master for the year 1919. Respectfully,  
L. N. Blowers,  
County Judge.

## British Embargo Still Tight

While a number of orchardists are offering odds on letting the war will end before Christmas and that, with the lifting of the British embargo Newtowns will be shipped to England, members of sales agencies have received no hope for such conditions from authorities.

"The embargo is still on as tight as ever," says C. W. McQuilagh, and none of us know when it will be lifted. But we are ready to handle any orders we may have in case we are able to ship apples to Europe."

Calvin Evinger, of the O. W. R. & N. Co., is ill with influenza.
