PARKDALE

Well, we have had another nice snow which was welcomed by the entire community for when the snow comes work stops and pleasure begins. Our amusements are limited this year, for the neighborhood was refused the privilege of using their warehouse for basket ball, but we hope to have it so arranged that we will be able to use it next year.

Mrs. Van Nuys entertained her Sunday school class Friday evening and it was reported that they had a fine time.

Timothy Newell was up to his ranch last week.

Rev. Boddy was a Portland visitor last week.

Frank Newell gave a dance in his apple house and it was sure a grand success. Every lady brought a cake or sandwiches, and there being about 30 ladies present it made a small mountain of cakes and sandwiches. After the crowd got tired dancing they tried to destroy the mountain of eats, but had to give up in despair. Now the neighborhood is wondering when we can have an opportunity to enjoy another dance like that one.

R. J. McIsaac was a Portland visitor last Friday and Saturday.

OFFICIALS DISCUSS THE LOOP HIGHWAY

"With W. H. Boddy, of Parkdale, as our eloquent spokesman, the delegation from Hood River county, asking for the construction camp when the proposed Loop Highway around the east base of Mount Hood is constructed, made a strong impression on the meeting of county and forestry officials held in Portland last week," says Judge Blowers, present from here.

Judge Blowers, who, in addition to Mr. Boddy, was accompanied by Leslie Butler, C. A. Bell, Homer A. Rogers, J. O. Hannum and F. H. Blackman, says Mr. Boddy proposed that the old steel bridge across Hood river at this city be removed to the site of the old toll bridge over the East Fork. He offered the free transportation to the campsites of steam shovels and other equipment.

An immediate appeal to the legislature and State Highway Commission for assistance in the construction of the hard surfaced loop highway is to be made as the result of the Portland meeting, at which the Mount Hood Loop Road Association was organized.

Informal pledges to do their part by constructing the sectors of highway lying within the county boundaries were made by speakers for Multnomah county and Hood River county. Clackamas and Wasco counties may need state aid but Clackamas has a roadway in good condition in the loop and Wasco desires a short spur from the loop, opening up a new commercial route into Central Oregon.

Of the loop 37.5 miles lie through the government forest reserve. T. W. Norcross, a forestry official from Washington, D. C., said that a government appropriation could be obtained with proper guarantees from the state, for 50 per cent of the cost of constructing a 16-foot road through the reserve, with a maximum liability of \$257,000. A state appropriation meeting government appropriations for such work is available. As a road wider than 16 feet will be desired, with 20 feet as a minimum, the extra cost will be asked from the state together with the county aid needed.

Entire federal aid for the road would not be available except in amounts running over four years. As it is desired to begin work on this project as soon as possible and push it to completion, a resolution was adopted by the executive and legislative committees asking the State Highway Commission to advance the money necessary, with the assurance of being recompensed by the government later.

The entire length of the proposed loop road is 108 miles, connecting with the Columbia Highway, which is 66 miles in length, making a total of 172 miles from Portland to Portland via Mount Hood Loop.
