PAVING WILL COST SUM OF \$423,670

A contract for paving the Highway between here and Cascade Locks was awarded last week by the State Highway Commission to G. E. Kibbe for \$423,670. The distance is 22.3 miles. Mr. Kibbe also received the contract to grade from Patton hill to this city, the contract price for the work being \$21,168.

Contracts for 88.15 miles of road work, aggregating \$1,557,848, were awarded by the State Highway Commission last week's action. Fifty-four miles are to be hard surfaced. The end is not in sight, for at the June 10 and the July meetings the Commission will open bids on further work. The desire is to clean up the Columbia River and Pacific Highways next year, so that attention can be turned next to the development of secondary roads of Oregon.

The Commission is planning to organize without delay a maintenance department and has directed State Engineer Nunn to make preparations. With the single exception of Columbia county, every county where the State Highway Commission has construction, has signed a maintenance agreement. Dozens of the motor trucks turned over to the highway department by the federal government will be used for patrolling the roads and all the state roads, paved, macadam or dirt, will soon receive constant attention.

CLARK AND QUAYLE TO TALK SATURDAY

A. G. Clark, of the Associated Industries of Oregon, and John Quayle, secretary of the Portland Chamber of Commerce, will deliver addresses to local citizens under the auspices of the Fine Grove Grange at the organization's hall Saturday night. Not only members of the grange, but business men and orchardists of the other valley communities are interested in home industries, and a large attendance is expected at the Saturday night meeting.

Mr. Clark and Mr. Quayle are both very interesting speakers," says Commissioner Blackman, who is urging a large attendance for Saturday night. "They will have a message that is well worth hearing, and we hope for a large turnout from all valley points."

THE WHEEL THAT SQUEAKS THE LOUDEST GETS THE GREASE

It is worthy of note that 90 per cent of all purchasers of lumber from mail order or so-called ready-cut "Hammer and Common Sense" houses do not care to repeat the experiment. Compare these prices below:

Bring us your rough plans from any plan book and we will prepare complete working plans with instructions where every stick of material is to be used—or we will be glad to loan you our plan books—and by the way, ever notice the house plans the ordinary mail order house that advertise house plans to save you money? Notice the large size rooms, averaging (taking from a number of Northwest mail order house plan books): Bed Rooms 9x10, Bath rooms 5x6, Kitchens 10x9, etc. Notice the fact that the rear porch generally constitutes an uncovered platform with a few steps—really a "stoop" mis-called a porch. Notice the lack of the modern conveniences in most designs—no kitchen cupboards shown in plan, no medicine cabinet in bath room, no handy built-in features, such as ironing boards, book cases, linen closets, or clothes closets. Or did you imagine the price quoted included the freight, and more afterwards surprised to learn you have to dig down in your pocket and pungle up some more good shekels for Uncle Sam's railroad; or have you thought that all the material necessary would be furnished, and like nine out of ten, extra material amounting approximately to \$100.00 had to be purchased to complete the job.

Our Architectural Department, comprising a number of skilled architects, supply us with pictures of houses and all farm buildings.

IOWA FAMILIES ARRIVE HERE BY CAR

W. L. Menzel and family, who accompanied by Mr. and Mrs. Lloyd Kester, have just completed a 3,100 mile motor trip from Independence, Ia., declare that their trip was wonderful, in that the journey the entire distance, until they arrived at Drain, was without rain. Spending a month en route, the party took the Lincoln Highway into Nevada and traveled thence to California. Mr. Menzel owns a young orchard in the Snowden district of Klickitat county, Washington. He expects to reside here, however, for the next year, in order that his children may attend school.

"Our trip was wonderful in another respect," says Mr. Menzel. "Not once were we refused camping privileges by ranchers or farmers on our way. We were welcomed with a hospitality that was cheering. The automobile park, we find, has become an established institution in western towns. We will hold in pleasant remembrance some of the conveniences of these municipal parks. The first of any pretension that we arrived at was at Tonopah, Nev., but none at any point was more commodious and inviting than that of Ashland."

Clark Praises Hood Growers
 P. F. Clark, sales manager of the Yakima Fruit Growers Association, who has just returned from a tour of the Idaho fruit sections, was here Monday visiting C. W. McCullagh, his predecessor who is now sales manager of the Association. Mr. Clark, taken on a tour of the orchard district, complimented Hood River growers on the care of the orchards. He declared that he never saw fruit trees in better health conditions than those here.

FREE EMPLOYMENT OFFICE IS NOW OPEN

C. B. Green, who has been here the past several years in charge of the government's free employment office, has opened headquarters for this year in the sample room at the Mt. Hood hotel. His telephone number is 251.

Mr. Green urges all growers in need of berry pickers to list the number of harvesters with him at once. The Portland office of the United States Bureau of Immigration is working in conjunction with the local office, and it is expected that sufficient help will be furnished for the season.
