**LEGION TO CONSIDER RESOLUTION**

Next Monday night at 8 o'clock at the court house is the regular monthly meeting of the local Post of the American Legion. Last reports from the secretary gave our membership over 75 and the membership committee will have more by meeting night, so a good attendance is hoped for.

Questions that the ex-service man should be interested in will come before the meeting for discussion. The Anti-Asiatic organization has asked our Post to adopt a resolution favoring the action being taken by them against Japanese ownership of land in this county. At our last meeting this was made a matter of special business for our next meeting and it is desired that you think this matter over and be prepared to take an active part in the discussions.

There are several bills now before congress designed to give advantages to the ex-service man in the way of securing a farm. One bill provides for the government to secure a tract of land, improve it, and for a small cash payment sell it to the ex-service man and providing a long term payment for the remainder of the principal at a low rate of interest. Another bill provides that the government will loan to any ex-service man at a low rate of interest, with payments running over a number of years, 100 per cent of the valuation on any city home or farm, up to an amount not exceeding \$4,000 for the purpose of buying a home. Another man advocates as the most equitable way of helping the soldier, giving the ex-soldier \$150 and 75 cents for each day he was in the service, which he says would in a measure offset the difference in the amount the soldier received and that received by the man who worked in the shipyard or at job that paid as well.

The writer has, and has read, a copy of all bills before congress designed to help the ex-service man, together with a record of the hearing before the Public Land Committee of congress, and will be glad, as far as he can, to answer any questions along that line. The American Legion asks this Post to endorse one of the bills now before congress, or recommend their choice of assistance, if any, desired from the government.

The committee appointed for November 11 has decided, owing to the fact that the eleventh has not been declared a holiday, that no patriotic program could be had during the busy apple season, and have therefore decided to give a dance that night. The committee is going to let the Post decide whether or not Legion members will appear at the dance in uniform, and it appears to me that it will help the members in making their decision if the ladies will voice their wishes to the ex-service men. The publicity committee will tell you all about the dance. Watch for their notices.

Space prohibits my going into detail on all matters for consideration at our next meeting but your time will be well spent if you come.  
Kent Shoemaker, President.

**FINS, FURS AND FEATHERS**

Mrs. L. O. Meacham killed a deer in the Canadian Rockies. With her husband Mrs. Meacham has arrived by motor from Vancouver, B. C. Mr. Meacham bagged a couple of deer and also killed two bear. The pelts will make nice rugs for the living room in their home.

What is a salmon trout? Is it a salmon, or is it a trout? These are questions that are puzzling local anglers. New laws governing fishing indicate that the species of fish will be classed as a trout. If such is the case, all fishing will cease here until next April 1. The new laws provide that no trout shall be taken in the closed season, which begins next Saturday. Last season anglers were permitted to take all salmon trout over 15 inches in length. The big gamey fish are more available at this season than any other time of the year and anglers hope they will be permitted to take them this season.

The 10-day open season on China pheasant roosters was ushered in at daybreak Monday by an estimated 200 nimrods. In copes where the handsome Mongolians were wont to stroll of an early morning the sunrise bombardment sounded like a young battle. As a large percentage of the hunters have spent the past several weeks locating male pheasants and observing their haunts many of the beautiful birds were bagged Monday.

Last Saturday one hardware store sold 50 hunting licenses. Before Saturday nightfall shotgun shells loaded with small shot were sold, and rush orders were dispatched by telegraph for a reserve.

"Altogether," declares Commodore Dean, who is just back from an annual goose and duck hunting expedition in the Harney Lake country, "it was the most satisfactory hunting trip I have ever made. My wife and I were accompanied by Mr. and Mrs. L. E. Foust and H. O. Kresse. We visited at the ranch of an old friend, Ephraim Sizemore, of the Narrows, near Burns. No sooner had we camped than he brought down a quarter of a calf that had suckled its mother since last April. Such steaks as we had!

"The hunting, too, was good. We shot all the ducks we could eat, most of them big, fat mallards. We shot a few honkers and some of the snow white summer geese."

C. C. Anderson, accompanied by his wife, had a thrilling time Wednesday night of last week at about 11 o'clock when he almost ran his automobile into a huge black bear on the Neal creek road. Traveling at the rate of 30 miles an hour, Mr. Anderson saw the bear dart out of the underbrush into the middle of the road. Confused by the headlights the bear made no move to leave the right of way, and to avoid hitting him Mr. Anderson had to apply his brakes. With the front of the car almost touching him, Mr. Anderson thought of his electric siren. He gave the button a push, and at the first wail of the power horn the bear tore off into the darkness.

"He had run about 100 feet," says Mr. Anderson, "when he must have hit something. I never heard such a commotion and mixed lot of grunts and cries. I have learned since that a barbed wire fence stretches across the ravine there."

Consignment of coats, suits and dresses direct from wholesale house. Will be displayed for a month and to be sold at a very special price. Monday.

**Letters From and About Soldiers**

F. A. Frazier, father of Donald Frazier, young college man who was killed in 1917 by aeroplane accident while he was in service in England, was here last week resuming his affiliations with growers as representative for a spray manufacturing concern and visiting relatives. Mr. Frazier, who with his family formerly resided in Portland, has just returned from France, where he was located for several months as a Y. M. C. A. worker. Mr. Frazier, who had another son in the navy, did not enter service until after his boy's tragic death.

Jas. Fenimore, Canadian veteran of the great war, arrived last week from Milton, Ont., for a visit with his aunts, Mrs. A. S. Keir and Mrs. A. C. Lofte. The young man, who went overseas with one of the first Canadian regiments, was for nearly two years engaged in almost continuous fighting. He is a veteran of Vimy Ridge and Ypres. Mr. Fenimore was wounded twice. On one occasion a high explosive shell, striking near a trench, buried him and comrades beneath a mass of earth and timbers.

Arthur Lofte, who has been overseas in naval service for two years, has written his parents of orders to sail for America. Mr. Lofte went out with a fleet of subchasers. He has at least one German U boat to his personal credit, he and a comrade having dropped the depth bomb that ended the pirate.

Mr. Lofte will return home with a fleet of the subchasers. He was due to leave Plymouth, Eng., September 21. The subchasing crews have been busy in the North Seas and around Scapa Flow for the past year sweeping up mines.

**Bragg Reports Portland Markets**

Apple market same as last week. Ordinary cookers are not wanted, nor is small stuff. The general opinion is that good cookers and fancy apples will be good in another month or two. I have storage room in a well ventilated brick room for about 2000 boxes. If anyone needs storage they can write for space.

For information, inquire of Mrs. B. Kenaga, 4212, or write Miss Gregory, 818 Hancock St., Portland, Oregon.

Many years of successful operation have proved the superiority of the

# Hardie Sprayers

Mr. Rancher: If you are contemplating the purchase of a Sprayer, we would respectfully ask your consideration of the following facts:

Continuous, uninterrupted and prompt service has gone with the sale of every Hardie spray equipment in the Hood River Valley. A complete line of repair parts has been stocked here at all times, ready for immediate delivery at the moment needed. Skilled mechanics have been employed to give immediate service in case of breakdown. In addition, an unequalled opportunity for prompt, personal service at all times is afforded by the fact that the Hardie Company maintains a branch factory and supply depot in Portland. The Hardie machine has earned its place in the fruit raising world by merit—by making good.

Incidentally, the conditions attending the steel strike and general labor troubles are such that we are recommending the purchase of sprayers this Fall. By making early purchase, the rancher will not only insure having the machine on hand when he needs it in the Spring, but he can also anticipate an increase in the cost of spray machines to become effective December 1st. If interested, let us figure with you.
