

IT'S NOT YOUR HEART IT'S YOUR KIDNEYS

Kidney disease is no respecter of persons. A majority of the ill-afflicted people today can be traced back to kidney trouble.

The kidneys are the most important organs of the body. They are the filters, the purifiers, of your blood. Kidney disease is usually indicated by weakness, sleeplessness, nervousness, dizziness, backache, stomach trouble, pain in loins and lower abdomen, gait stumbles, gravel, rheumatism, sciatica and limbache.

All these derangements are nature's signals to warn you that the kidneys need help. You should use GOLD MEDAL Haasrem Oil Capsules immediately.

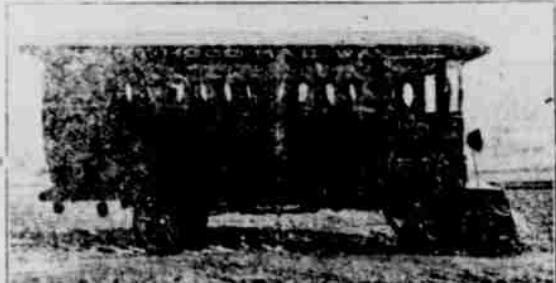

It is the soothing, healing oil stimulates the kidneys, relieves inflammation and destroys the germs which have caused it. Do not wait until tomorrow. Use to your advantage today and insist on GOLD MEDAL Haasrem Oil Capsules. In twenty-four hours you should feel health and vigor returning and will bless the day you first heard of GOLD MEDAL Haasrem Oil.

After you feel that you have cured yourself, continue to take one or two capsules each day, so as to keep in first-class condition and ward off the danger of other attacks.

Ask for the original imported GOLD MEDAL brand. Three sizes. Money refunded if they do not help you.

"Don't Cheat Yourself" says the Good Judge

There's nothing saved by chewing ordinary tobacco. A little chew of that good rich-tasting tobacco goes a lot farther, and its good taste lasts all the way through.

Little chew—lasting—satisfying. That's why it's a real saving to buy this class of tobacco.

QUALITY CLOTHES

In these times of high prices, poor cloth and inferior workmanship, it is a great satisfaction to a man to know that he is getting something that is absolutely right.

That is why we are selling more clothes now than ever before. Men know that the clothes we make are right and that we don't sell shoddy or cotton mixed cloth. You can buy cheaper clothes than we sell, but you can't buy good clothes at more reasonable prices than ours.

NO POISON DANGER FROM APPLE SPRAY

R. H. Robinson, associate chemist of the Oregon Agricultural College school of agriculture and experiment station, who has completed examination of apples from Oregon orchards, which bear heavy deposits of spray material, declares that it would be impossible to eat a sufficient number to cause fatal arsenic poisoning. Mr. Robinson's laboratory tests of the fruit followed a recent alarm raised by Boston health authorities who ordered the condemnation of California Bartlett pears and Yakima Jonathan apples, declaring the fruit dangerous for food purposes. The action of the authorities resulted from the illness of a woman in a Boston suburb. She had eaten California pears, and analysis of her stomach contents, it is said, showed traces of arsenic poisoning.

"I endeavored to obtain samples with exceptionally large quantities of spray sediment left on the apple and consequently picked apples from trees that had received five applications during the season," writes Mr. Robinson. "Also the strength of these applications was double that ordinarily used by horticulturists generally."

"Chemical analysis of these apples showed that the average amount was only .0007 grams of arsenic. Compared with an average fatal dose, it would be necessary for a person to eat 300 apples."

FROST WILL NOT AFFECT PROSPERITY

The frost damage to the apple crop will have no perceptible influence on the community's general prosperity. While the freeze, coming when many individual growers had apples unpicked, will result in serious losses to individuals, the community, even after damage is accounted for, will in the final analysis have more apples than were expected generally at the outset of the harvest. Numerous growers, who may experience loss of apples from freeze, had already harvested and stored more apples than indicated by their pre-harvest estimates.

It has developed that freezes have caused practically no damage to apples already picked and stacked in boxes. Fruit that remained on the trees will be badly damaged. The total percentage, however, will not run over five per cent. The frost damage was heaviest in the Upper Valley and on the higher ranches, where picking was least advanced.

DR. THOMPSON LOCATES HERE

Dr. W. H. Thompson, who for the past three years has been located in practice at Newport and The Dalles, having been associated at the latter place with his brother, Dr. Fred Thompson, a prominent physician, has opened an office here. Dr. Thompson, a graduate of the University of Oregon medical school, was for 18 months an interne at the Multnomah hospital.

Dr. Thompson is a son of Dr. E. W. Thompson, physician of Gresham. The latter was here last week visiting his son.

Dr. Thompson's office is in the suite in the Elliot building formerly occupied by Dr. Waugh. He and Dr. H. D. W. Fineo will have joint reception rooms.

Mr. and Mrs. Acheson Celebrate

Mr. and Mrs. I. R. Acheson celebrated their 10th wedding anniversary at their Cascade avenue home last Thursday night. They were married in Portland, coming at once to Hood River, where Mr. Acheson has since been employed with the Butler Banking Co. Mr. Acheson is now assistant cashier.

Friends present for the dinner party given by Mr. and Mrs. Acheson in celebration of the event were: Capt. and Mrs. Geo. R. Wilbur, Mr. and Mrs. W. H. McClain, Mr. and Mrs. F. E. Price, Mr. and Mrs. W. J. Boddy, Mr. and Mrs. C. D. Hoyt and Mr. and Mrs. C. C. Arrick, the latter couple from Logansport, Ind.

Aggers Grapes Popular Here

The best grapes, according to growers, obtainable in the mid-Columbia today are locally grown. The fruit, of the Tokay variety, is produced by Geo. L. Aggers, whose ranch is on the promontory formed at the confluence of the White Salmon and Columbia rivers, just opposite Hood River. On terraced south slopes that get full benefit of the sunshine, the grapes mature fully, the sugar content comparing favorably with fruit from California. The Aggers grapes retail here for 15 cents per pound.

Earlier in the season Concord and Niagara grapes, grown on the ranch of the late C. W. J. Reckers, the place adjoining the Aggers ranch, were sold in large quantities here.

Many Sheep Moved Out

The Mount Hood R. Co. has removed from Dec. where the animals were assembled from logged off tracts and national forests, 42 carloads of sheep during the past few weeks. Most of the sheep were loaded for routing direct to market.

While pasturage has been good this year, lack of herders familiar with the topography of the country has resulted in many stray sheep, and operators whose tracts have been injured by marauding bands, are protesting the custom of local pasturage.

Tax Delinquency is Less

Deputy Sheriff Hughes reports that Hood River county's delinquent taxes are approximately \$25,000, by about \$4,000 less than last year. The total tax for the current year was \$287,000. That for last year was \$276,000.

Husum Damage Nil

Frank J. Fox, Husum orchardist, here last week on business, reported that the damage from the freeze would be nominal in his section. Not only had the apples practically all been picked, but they were under shelter.

Only a Cold

Are you ill? Is often answered: "Oh! it's only a cold," as if a cold was a matter of little consequence, but people are beginning to learn that a common cold is a matter not to be trifled with, that some of the most serious diseases start with a cold. As soon as the first indication of a cold appears take Chamberlain's Cough Remedy. Remember that the sooner you get rid of your cold the less the danger, and this remedy will help you to throw it off.

Perfect Rainbow Saturday

Local folk who arose early Saturday morning were rewarded by one of the most gorgeous rainbows ever seen in the mid-Columbia. The shower of mist over the Columbia gorge was touched by the first shaft of light as the sun emerged from a cloudless eastern horizon. Of even density over the whole ethereal expanse, the mist produced equal refraction, and the arch, high toward the sky's dome because of the early hour, produced a perfect arch spanning the Columbia.
