The Red Cross

Hood River Campaign, Week of December 1st to 6th

For the babies of America who need care.
 For the mothers who do not know how to care for themselves or their babies.
 For the soldier boys in hospitals who are legless, armless, or sightless—
 for the boys who are slowly coming back from shell shock, and those
 who are fighting Death away hour by hour.

From Gratitude because your boy came back.
 For Remembrance of one who would have you give.
 From Love of Mankind which the Red Cross serves.
 Out of Pride in the work done by this American institution.

For every dollar contributed in this campaign, fifty per cent will go to the Hood River Chapter to be used in assisting the County Public Health Crusade to which the local Chapter is committed. Remember this when the Campaign Solicitors call upon you.

CAMPAIGN EXECUTIVE COMMITTEE.

Thanksgiving

Will be appreciated to the fullest extent if you will only buy her or him that Brunswick Phonograph you were talking about, or perhaps that Piano that you heard her mention, several times. Don't put it off any longer. Buy a musical instrument that will be a Present as well as a Great Pleasure to the whole Family for life.

We can save you money on a few models of talking machines as well as pianos bought this month, or as long as the present stock lasts. You see I had ordered these instruments and received some of them before the Fall advance, but they went last long. Come in and see them anyway. No trouble to show you the difference between these and the ordinary kind.

CHAMBERLAIN CITES JAPANESE TREATY

Complaint from R. E. Scott that Senator Chamberlain, in acknowledging a protest from the anti-Japanese society against Japanese immigration had not been sufficiently specific, has caused the Oregon senator to write another letter making his position clear. Several weeks ago V. S. McClatchy, publisher of the Sacramento Bee, appeared before the house and senate immigration committees to urge absolute restriction of Japanese immigration, asserting that California's experience with the Japanese should be abundant reason for tightening exclusion measures to the irreducible minimum.

The anti-Japanese society of Hood River, through Secretary Scott, telegraphed Senator Chamberlain the following day, endorsing everything that Mr. McClatchy had said and declaring that the Japanese invasion of the Hood River fruit district was becoming an actual menace.

Senator Chamberlain, under the strain of a very heavy mail, acknowledged the telegram too briefly to satisfy his Hood River constituents. Amplifying his position he has written:

"I thought my views on this subject were pretty well known in Oregon, for I have at no time hesitated to express myself in opposition to oriental immigration, whether Japanese or Chinese. During the administration of President Roosevelt I publicly stated myself as in sympathy with the views of the people of California against the views of the then administration on the school question.

"Later, under the Taft administration, when the Japanese treaty was under consideration by the senate, Senator Newlands and I were the only two senators who bitterly opposed ratification of the treaty because it did not contain a straightforward statement against Japanese immigration and transferred a part of American sovereignty to Japan under a gentleman's agreement that the latter country would not permit any of the imperiling class of Japanese to immigrate to America. It was my opinion then—and I have not changed my mind—that the United States ought to deal firmly with Japan, but we failed to do it then and have failed to do it since.

"Later, and at the time the legislature was enacting alien land laws, which would have the effect to prevent the Japanese from owning lands in California, I did not hesitate to express my sympathy with California on this subject. At another time in the senate of the United States I denounced the British-Japanese offensive and defensive treaty, and I assumed when I wrote you that my views were fairly well understood by my friends in Oregon.

"Now, as to the question of relief for the situation which confronts fruit growers of Hood River, it is a situation which has to be delicately handled because the Japanese who are in this country are here pursuant to the terms of a treaty, and these people have to be dealt with in such a way as not to violate the terms of the treaty and so possibly precipitate the United States in a war with Japan.

"I have conferred with Senator Phelan and some of our western senators, who with me would like to cure the situation if it is possible to do so under the treaty stipulations which at present exist. I am frank to say to you that I do not know how to relieve the situation by congressional action. It must be done either through negotiation of a new treaty or else by state legislation, and this latter course, you know, has been objected to in high quarters because it is claimed that such course produces an irritating situation likely to be provocative of war.

"I have not seen the McClatchy statements which you say Hood River approved, but I will be glad to have you suggest to me, in view of what I have said herein, a course to pursue which will not be violative of our treaty with Japan and will not precipitate the United States in another war. If you can suggest a remedy—and I am frank to say we have not yet been able to work out one—I assure you I will be glad to work along the lines you and those working with you suggest.

WOMAN'S CLUB NEWS

At the last regular meeting of the Woman's club Mrs. Blumer of Portland spoke on the health of public school children. She detailed the working of the modern health crusade in the schools and enlisted much interest in the movement.

Mrs. H. E. Blagg accompanied by Mrs. E. D. Kanaga, entertained with two charming solos and the afternoon closed with two numbers by the high school chorus.

The next meeting is in charge of the home economics committee and Miss Sessie Sane, of O. A. C., will be the speaker.

Several weeks ago the Woman's club started agitation to secure a county nurse here. After careful consideration a county health association was formed to take up the matter and the members of the Club are requested to attend the first budget meeting of the county court and lend their support to the committee which will ask for an appropriation to make it possible to secure the services of a nurse. This budget meeting is scheduled for the afternoon of December 2.

School Kiddies Are Fast

Within 29 seconds after the fire gong has sounded one day last week the 225 pupils of the Park street school had left the two story structure. A time of 30 seconds was required by the students of Coe primary school. The junior high school students required 32 seconds and in 72 seconds all of the high school students had left the big building.

The Park street school children are kept well drilled for fire emergency.

Gordon Boyington a Citizen

The first local soldier to take advantage of the ruling that permits the free naturalization of a soldier, was Gordon Boyington. Young Boyington, a native of Ontario, Canada, was granted citizenship papers by Judge Wilson Monday.

Mr. Boyington was called to the colors with old 12th Co. He was overseas with the 65th Regiment, C. A. C.

HIGH SCHOOL NOTES

(By Laura M. Felts)

The freshmen were kept busy all day Friday preparing for the big bonfire to be held that evening. They are to be prided on their work, for by supper time the bonfire was as tall as the auto shed standing next to it, and when five gallons of kerosene were poured on it the result was some big bonfire. A big serpentine was formed and after yelling and serpentine around the bonfire while each of the foot ball boys was hoisted on some of the other fellows' shoulders and gave short talks on the spirit and fight of the team and H. R. H. S. Several of the faculty spoke, and Mr. Baker told the boys that the business men were behind and wished them well. The Freshmen president came onto the field, followed by several pall bearers who were carrying a wooden casket with the dummy of Capt. Ziegenhagen, of The Dalles team, in it. The rest of the class were in attendance as mourners. The funeral services were carried out and after taking one last look at "our friend" he was thrown into the fire and cremated. While he was burning we sang songs and ended the big rally by going to a charivari. Everybody was in high spirits for the morrow.

Lloyd Blowers gives the following account of Saturday's game:

Saturday Hood River Hi and The Dalles Hi collided on our home field for the championship of the mid-Columbia league. The Dalles outweighed and outclassed us and had a large score on Hood River at the end of the first half. The Hood River team was high in spirits until we had some raw decisions pulled over our eyes by the referee, George Bragg. Finally, after The Dalles was given five downs to make their last touchdown the Hood River boys left the field and refused to play against such odds.

Hood River's team could not beat The Dalles team, because they were playing against the referee and head linesman, as well as The Dalles foot ball players. Some of the Hood River people thought our boys were quitters, but if they understood the finer parts of the game they would look at it in a different light. After the game some of The Dalles boys stole our championship basket ball pennant out of the school and this caused several fights. Principal Bailey had some job preventing mob fights, but finally broke up the mob and sent them down town, where they went after it all the more.

The high school has decided to play its firemen Turkey Day, and we hope the people turn out in order that we may show them we are not "yellow."

Monday there was assembly from 1 to 3 o'clock p. m., at which the game of Saturday was discussed by both students and faculty. There were many heated arguments and it was the opinion of most of the faculty that although they got a dirty deal from The Dalles team, the referee and head linesman, they were not justified in leaving the field, but the students backed the boys in all they said and did.

Everybody is looking forward to the whole week's vacation we are promised Thanksgiving. We get out of school Wednesday night and do not have to go back till Wednesday of the next week.

We are now prepared to saw your wood. Sutherland & Shaw, Tel. 3372. [101]
