

We are thoroughly convinced, [after going over the situation carefully,] that the best and quickest way to bring about the return of normal conditions, is to act along normal lines in all our affairs, prices in all lines are still going up, and it required a great deal of consideration before we could see our way clear to plan on having our annual clearance sale. We know some will think we are foolish to do this, as it will cost us more to replace our present stock, (we have placed our orders for Spring and Summer goods at higher prices in all lines,) however we feel that general conditions and local conditions, will be better served by our acting along normal lines, and any sacrifice we make, will be justified by the beneficial results to our community, we therefore take pleasure in announcing

FRENCH WISH TO WRITE LETTERS

The following has been received from Alfred Power, director department of Junior Red Cross:

We now have on our list 76 French schools who are eager for an exchange of correspondence with the schools of the Northwest, Alaska, Idaho, Oregon and Washington, comprising the North-western Division of the American Red Cross. The list includes: Lycees, colleges, secondary schools, primary schools, girls' schools and boys' schools. In some instances the letters may be written in English but very generally they should be written in French. We are accordingly limiting, for the present, the opportunity to carry on correspondence with French schools, to schools having French classes, or someone willing to put the letters into French and translate the replies. The correspondence on any extensive scale will be satisfactory only where there are French classes, to whom this arrangement, worked out by the Junior Red Cross, will be a genuine opportunity.

The procedure is this: Make requests through the Director of Junior Red Cross in your chapter at your local Red Cross headquarters, indicating your preference as to kind of school. A French school will then be assigned to your French class or to your school. At the beginning the students will have to address their letters generally as "To a boy in the Lycee de Laval, France" or "To a girl in the College Universitaire de Chateau, Gontier, France." After the first letters each American boy and girl will have an appointed correspondent. The Junior Red Cross will transmit the letters, outgoing and incoming letters clearing through the Director of the Junior Red Cross for your chapter.
