

# Big Value in Tires for The Smaller Cars

30x 3 1/2 Goodyear Double-Cure Fabric, All-Weather Tread..... \$23.50  
30x 3 1/2 Goodyear Single-Cure Fabric, Anti-Skid Tread..... \$21.50

Goodyear Heavy Tourist Tubes are thick, strong tubes that reinforce casings properly. Why risk a good casing with a cheap tube? Goodyear Heavy Tourist Tubes cost little more than tubes of less merit. 30x 3 1/2 size in water-proof bag..... \$4.50

Back of the manufacture of Goodyear Tires for the smaller cars is the same purpose to supply high value in the product that is behind the manufacture of the Goodyear Tires that equip the most expensive automobiles built.

This purpose is expressed by the enormous resources, extraordinary skill and scrupulous care applied to the manufacture of Goodyear Tires in the largest tire factory in the world devoted solely to the 30x3, 30x3 1/2, and 31x4-inch sizes.

The effect of this endeavor is noted in the fact that last year more cars using these sizes were factory-equipped with Goodyear Tires than with any other kind.

It is also noted in the fact that if you own a Ford, Chevrolet, Dort, Maxwell, or other car requiring one of the sizes mentioned, you can secure Goodyear Tires and Goodyear Heavy Tourist Tubes at the nearest Goodyear Service Station.

## DR. MACRUM GIVES FORMULA FOR SPRAY

This article was published in the Glacier in January. At the request of numerous growers, who wish to place the recommendations on their files, it is reprinted.

Dr. C. A. Macrum, former commissioner of horticulture for the Fourth Oregon district, in his report to the State Board of Horticulture last year gives a formula for a spray that he has tested on his Mosier ranch and has found effective in eliminating numerous sprays and resisting action of spring rains.

Mr. Macrum in his report says: I have been much interested in the problem of reducing the number of sprays necessary for scab control and also developing a spray which would resist the action of spring rains. It occurred to me that a combined Bordeaux oil emulsion spray, applied as the buds are opening, before the blossoms appear, would control scab, San Jose scale, the aphid, leaf roller, red spider, curl leaf of the peach and the copper would be present to prevent the ravages of the anthracnose spores when the rains come in the fall of the year.

I was unable to find that the combination had been made or used. I wrote to Prof. Foster, of the General Chemical Company, and requested that he make the combination if he did not already have a formula at hand. Prof. Foster replied that he did not recall having seen a formula, but he would endeavor to make the combination. A year following Prof. Foster sent me the formula together with a report on the results he had had. In this report he mentioned the successful results he had in control of the disease in prunes due to cylinosporium. The method of preparation is as follows:

Prepare the copper sulphate solution in the usual proportions of one pound to the gallon of water, dissolve 1/2 pounds of common glue in 1 1/2 gallons of water, slack 12 pounds of lime, stir 12 pounds of hydrated lime in water at time of using. Fill a 200 gallon spray tank three fourths full of water. Pour 24 gallons of bluestone solution into the tank, stir the agitator and add the lime milk slowly until a neutral solution is had. Test with litmus paper to tell when the solution is neutral. Add 1 1/2 gallons of glue solution. Measure out 12 gallons of the General Chemical Company's No. 1 oil emulsion or a corresponding oil emulsion, add a little water and stir until emulsion is started as shown by the mixture turning milky. Pour into the spray tank and add water to make 200 gallons. The agitator must be kept running during the whole procedure. The spray should be applied as soon as prepared.

The above are the proportions for a 200 gallon tank. In making stock solutions for a day's spraying the quantities given can be multiplied by the number of tanks required. The strength of the Bordeaux can be varied as deemed necessary. The amount of copper sulphate in the above formula is the same as in the ordinary 6-6-50. It is necessary that the Bordeaux solution be neutral and not alkaline. Bordeaux is ordinarily made. This is determined by adding the lime milk slowly allowing the lime milk and copper solution to be well mixed and testing with blue or red litmus paper to determine when the neutral point is reached. If no rain follows the application of Bordeaux oil emulsion spray for 24 hours the spray dries thoroughly and stays on the bark of the trees throughout the season and is effective against anthracnose development after the fall rains begin.

## Goodyear Clincher Tires for Smaller Cars

We have a full supply in stock.

We carry Goodyears because they make more satisfied customers.

We offer you a real honest, dependable Service in connection with the sale of tires which enables you to realize their full mileage value.

## DIPPING POTATOES INCREASES YIELD

It has been thoroughly demonstrated that the treating of seed potatoes before planting will increase the crop by killing some of the diseases which are on the potatoes which reduce the yield and have a tendency to make the crop more rough and scabby.

It is preferable to treat the potatoes 10 days or more before planting them, then spread them out where they can dry off. Do not expose to the hot sun as it is liable to cause black heart. The dip solution should not be used in a metal container or allowed to come in contact with metal of any kind as it attacks the metal and weakens the solution. One of the most convenient methods is to use two or more wooden barrels, with a small hole bored near the bottom. They can be filled with potatoes and the solution poured over them. The solution can then be drawn off into a wooden bucket and poured into the next barrel.

Take four ounces of corrosive sublimate crystals, or powder, to every 30 gallons of water. Dissolve in one gallon of hot water in a glass jar, stone crock or wooden bucket before diluting with the 30 gallons of water. It decreases in strength with use. To correct this three quarters of a pint of the stock hot water solution, as described above, can be applied after treating four bushels of potatoes for one and a half hours. This can be repeated until the solution has been used seven or eight times, after which it should be thrown away and a new solution used. Wetting the potatoes for 12 to 24 hours before treating helps to remove dirt, softens the black scurf (Rhizoctonia) and makes the disinfection more effective.

Great care should be used as this solution is a deadly poison and will kill any kind of animal life. The potatoes should be left in the dip one and a half hours, but not longer, as it will weaken the seed if over-dipped.

If the seed is sprouted it should not be left in the dip so long, only from 30 to 60 minutes.

### Housewives, Attention!!!

The fish season for Royal Chinook Salmon opens May 1. These fish are absolutely the best canning fish of the season. We have made arrangements with local fishermen to secure plenty of fresh fish daily to supply the needs of those wishing to can their own salmon. Hood River Market, Phone 4311.

### Notice of Hearing of Final Settlement

In the County Court of the State of Oregon, for Hood River County.

In the matter of the Estate of Mary Ann Cram, Deceased.

Notice is hereby given that the undersigned executor of the last will and testament of Mary Ann Cram, Deceased, has filed his final report in the above entitled Court, and that the Judge thereof has set Saturday, the 5th day of June, 1920, at the hour of 10.30 o'clock a. m. of said day, at the County Court room, in the City of Hood River, Oregon, as the time and place for hearing the same. All persons are notified to file any objections they may have in the settling of said account, and the discharge of said executor with the clerk of said court on or before said date. Frank Abbott Cram, Executor. m3j

### Summons for Publication in Foreclosure of Tax Lien

In the Circuit Court of the State of Oregon, for Hood River County.

Vera Inez Woodward, plaintiff, vs. William C. Harper, also all other persons or parties unknown claiming any right, title, estate, lien or interest in the real estate described in Plaintiff's Application and Complaint.

To William C. Harper; also to all other persons or parties unknown claiming any right, title, estate, lien or interest in the real estate described in this summons:

I, the name of the State of Oregon: You are hereby notified that Vera Inez Woodward, the holder of Certificate of Delinquency numbered 288, issued on the 10th day of April, 1917, by the Tax Collector of the County of Hood River, State of Oregon, for the amount of six and 45-100 dollars, the same being the amount then due and delinquent for taxes for the year 1915, together with penalty, interest and costs thereon upon the real property assessed to you, of which you are the owner as appears of record, situated in said County and State, and particularly bounded and described as follows, to-wit: The southeast quarter (SE 1/4) of the southeast quarter (SE 1/4) of section thirty-three (33), township three (3) North, Range eight (8), East of the Willamette Meridian, in Hood River County, Oregon.

You are further notified that said Vera Inez Woodward has paid taxes on said premises for prior or subsequent years, with the rate of interest on said amounts as follows:

Year's Date	Tax Rec. No.	Am't	Rate of Interest
1911 April 10, 1917	5653	\$2.91	15 per cent
1912 April 10, 1917	5652	2.78	15 per cent
1913 April 10, 1917	5651	4.12	15 per cent
1914 April 10, 1917	5650	3.96	15 per cent
1915 June 11, 1917	3324	2.59	15 per cent
1916 Sep. 24, 1917	2843	2.50	15 per cent
1917 Feb. 15, 19 8	189	6.51	15 per cent
19 8 Feb. 15, 1918	819	2.36	15 per cent
1918 Sep. 17, 1919	2872	2.36	15 per cent

Said William C. Harper, as the owner of the legal title of the above described property as the same appears of record, and each of the other persons above named are hereby further notified that Vera Inez Woodward will apply to the Circuit Court of the County and State aforesaid for a decree foreclosing the lien against the property above described and mentioned in said certificate. And you are hereby summoned to appear within sixty days after the first publication of this summons, exclusive of the day of said first publication, and defend this action or pay the amount due as above shown, together with costs and accrued interest, and in case of your failure to do so, a decree will be rendered foreclosing the lien of said taxes and costs against the land and premises above named.

This summons is published by the order of the Honorable L. N. Blowers, Judge of the County Court of the State of Oregon for the County of Hood River, and said order was made and dated this 28th day of April, 1920, and the date of the first publication of this summons is the 5th day of May, 1920. All process and papers in this proceeding may be served upon the undersigned residing within the State of Oregon at the address hereafter mentioned.

George R. Wilbur, Attorney for Plaintiff. Address Eliot Bldg., Hood River Oregon. m3j17

### Notice to Creditors

In the County Court of the State of Oregon for Hood River County.

Notice is hereby given that the undersigned has been appointed administrator of the estate of James Chitty, deceased, by the County Court of Hood River County, Oregon. All persons having claims against said estate are required to present the same, duly verified according to law, to the undersigned at the office of John Barker, Brosius Building, Hood River, Oregon, within six months from the date of the first publication of this notice.

T. D. Tweedy, Administrator.

### Summons

In the Circuit Court of the State of Oregon, for Hood River County.

W. J. Filz and Katherine Filz, Plaintiffs, vs. Esther Helmer and the unknown heirs of W. J. Helmer, Deceased, Defendants.

To Esther Helmer and the unknown heirs of W. J. Helmer, deceased:

You and each of you are hereby required to appear and answer the complaint filed against you in the above entitled Court on or before the 19th day of June, 1920; and if you fail so to appear and answer said complaint, the plaintiffs will apply to the Court for the relief prayed for therein, to-wit: For a decree forever quieting the title of the plaintiffs in and to the Northeast Quarter of the Northeast Quarter of Section 28, Township 1 North, Range 10 East of the Willamette Meridian, and forever barring you and each of you from setting up any claim, right, title or interest in and to said real property adverse to the plaintiffs herein.

This summons is served on you by publication thereof in the Hood River Glacier, a weekly newspaper printed and published at Hood River, Hood River County, Oregon, for six successive weeks, the date of the first publication being May 28th, 1920, pursuant to an order of the Hon. L. N. Blowers, Judge of the County Court of the State of Oregon, for Hood River County, duly made and entered on the 4th day of May, 1920, wherein you are required to appear and answer said complaint on or before the 19th day of June, 1920.

A. J. Dorby, Attorney for the Plaintiffs. m3j17

### Notice for Publication

Department of the Interior, U. S. Land Office at The Dalles, Oregon - March 15th, 1920.

Notice is hereby given that Henry C. Brown, whose postoffice address is Hood River, Oregon, filed on the 10th day of June, 1918, the following sworn statement and Application, to-wit: To purchase the Lot 1-N-2, SW 1/4, NW 1/4, Section 15, Township 1 North, Range 11 East, Willamette Meridian, and the Timber thereon, under the provisions of the act of June 3rd, 1894, and also amendatory known as the "Timber and Stone Law," at such value as might be fixed by appropriate and that pursuant to such application, the land and timber thereon have been surveyed, measured, and the timber estimated 70,000 board feet at \$20.00 per M, and the land 150000 that said application and sworn statement are hereby published for the purpose of giving notice to all persons interested in said application and sworn statement and to all persons who may have any facts which would defeat the entry.

H. FRANK WOODCOCK, Register. m3j17
