## I AM CLAD TO ENDORSE · PE-RU-NA

Glad to Try Anything over my body. I began to be worried about my condition and I
was glad to try anything which
would relieve me. Peruna was
recommended to me as a fine
blood remedy and tonic, and I
soon found that it was worthy
of praise, A few bottles changed
my condition materially and in a
short time I was all over my
trouble. I owe my restoration to
health and strength to Peruna.
I am glad to endorse it."

## DES-DES

At last, after years of protracted study and much in experimental work, effective poison for squirrels, rats, gophers, moles, rabbits and mice has been perfected and is being used in California with great success.

This discovery is called DES-DES, and is more economical and safer to the farmer than other so-called Rodent Exterminators.

It is compound so as to attract both in odor and taste, and will produce the desired results, where others fail.

A TRIAL WILL CONVINCE.

## -the Phonograph which amazed all Hood River

ARE you one of those who believe that no phonograph can match the voice of the living human? An astonishing discovery awaits you - like the many Hood Riverites who attended the Marie Morrisey recital.

Thomas A. Edison gave his famous Tone Test Tuesday night, May 11th, in Riverside Church. He had Miss Morrisey sing in direct comparison with the RE-CREA-TION of her voice by the New Edison.\*

Music lovers were completely baffled. Their ears were un- able to distinguish the RE-CREATED voice from the living. You have never heard any phonograph that approaches the New Edison. It RE-CREATES not only the musical notes, but every elusive quality of tone and color which identify the original artist.
