

Just like Galli-Curci, just like Gluck. just like Heifetz, just like McCormack, and just like Lauder-we have learned that there is only ONE REAL PHONOGRAPH -

VICTROLAS--VICTROLA RECORDS

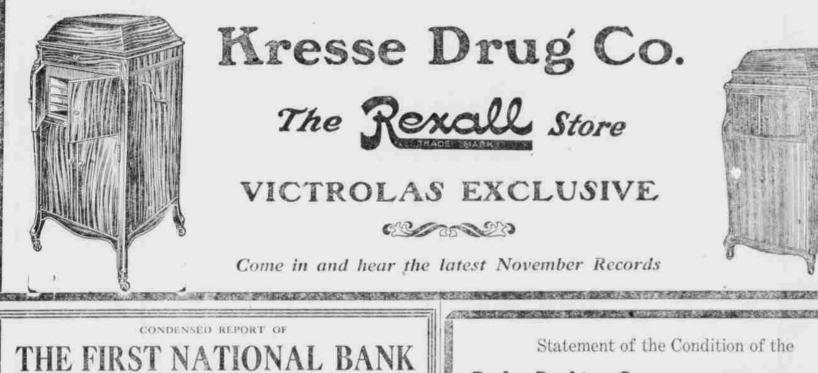

CheVICTROLA

In every class of merchandise there is a well recognized standard by which all competing lines are judged. In talking machines, that one which stands pre-eminent is THE VICTROLA.

Its popularity is well deserved and the demand for it is far greater than the supply."

There is no uncertainty about Victrolas and Victor Records. No possibility of proving unsatisfactory at any time, for their superiority as to tone and durability stands unquestioned.

Victrolas cost no more than any other phonograph and they may be purchased on very easy terms. Our stock of Victrola Records is very large. We at all times try to have in stock every standard number in the wonderful Victrola Catalogue. Come, if only to rest for a few moments. Our demonstrators will gladly play for you. They will gladly play your favorite selections.
