Read What Dr. Watt Says About

THE FAGEOL

Hood River, Oregon, Feb. 21, 1921.

HIGHWAY AUTO CO., Hood River, Oregon.

Gentlemen: I can truly say that I tried out very thoroughly several different tractors and finally decided that the Fageol was the only one that would do my orchard work satisfactorily. I have used the Fageol now through the season. If I had to buy again a tractor for the same work I would buy a Fageol.

Yours truly, J. F. WATT

Highway Auto Co.

HOOD RIVER LEGISLATIVE RESULTS

Senator Nickelsen, just home from the legislature, says that Hood River county fared well in securing desired legislation, with the exception of the anti-Japanese bill, strongly endorsed here. Hood River citizens asked that the branch experiment station receive \$5,000 state aid annually instead of \$4,000. The increase was provided for in a bill introduced by Senator Nickelsen. The sum of \$1,000 was included in a state fish and game appropriation. The money, asked by the Hood River County Game Protective Association, will be used in cleaning debris away from the mouth of Hood river and from the inlet and outlet of Lost Lake. The re-appointment bill will give Hood River county a representative, whereas the county has formerly had two joint members with Wasco county. The two counties have a joint senator. Senator Nickelsen, however holds over for another term.

Pastor Wiolds Saw and Hammer

Aided by a member of the church, M. D. Hicks, Rev. D. M. Carpenter, pastor of the Christian and Missionary Alliance, has completed the basement Sunday school rooms of the church. "I am a carpenter in fact as well as name," declares the pastor. "With Mr. Hicks' help we now have spacious quarters for our Sunday school students, who last Sunday numbered 110."

The number of Sunday school pupils, although the church is one of the smallest of the city, is among the largest of the valley.

Sustaining Memberships to Raise Fund

The Commercial Club plans the financing of publicity and entertainment work the ensuing year with a fund raised through sustaining memberships. More than a score of the members of the organization have pledged a monthly subscription in addition to their regular dues. President Fredrick states that club members will be called on frequently the coming summer to entertain visitors who may come here over the Highway from Portland.

More Smallpox at Locks

A new case of smallpox was reported at Cascade Locks the first of the week by Health Officer Edgington. Five cases of the disease have developed at the Highway town. Several local cases will be dismissed from quarantine the latter part of the week.

FORDSON IS SPORTING BIG PNEUMATIC TIRES

A unique hybridized motor vehicle, a Fordson tractor equipped with huge pneumatic tires, has been displayed here by the Dickson-Marsh Motor Co. The dealers state that the pneumatic wheels have been ordered for the purpose of delivering tractors to orchardists over valley roads, denied the draft vehicles by recent ruling of authorities. Such wheels will be furnished farmers who wish to operate their tractors over the highways. When the dealers deliver their trucks to ranches they remove the pneumatic tires and equip the machines with the ordinary iron wheels.

Mohr Will Bring Horses

Although most orchardists now own motor trucks and many of them operate tractors, a keen demand for good horses prevails here it is said. P. H. Mohr, associated with brothers in the operation of an East Side orchard, has just left for eastern Oregon to secure a carload of draft animals for growers. Mr. Mohr, whose first carload of horses is due to arrive tomorrow, says he may bring in further shipments.

Another Labor Saver on the Market

With the rapid stride of inventions being put on the market, farming is coming into its own. The new Bean Super Giant Sprayer is sure some change from the old hand pump that was first used in the Valley. Hood River Garage.

First Church of Christ, Scientist

Services will be held in Church Building, 9th and Eugene, Sunday, 11:00 a. m. Subject: Man. Sunday School at 11 a. m. Wednesday service, 8 p. m. The reading room is open daily from 3 to 5 p. m., in the Church.

Immanuel Lutheran Church

Ninth and State streets. Services in German at 10.45. Sunday school at 9.45. Ladies' Aid meets Thursday at the residence of Mrs. M. F. Osterberg, P. Hilgendorf, Pastor.

Excellent Remedy for Constipation

It would be hard to find a better remedy for constipation than Chamberlain's Tablets. They are easy to take and mild and gentle in effect. Give them a trial when you have need.

FINAL WATER CASE HEARD LAST WEEK

The final chapter of circuit court hearings of objections to findings of the State Water Board in an adjudication of claims to water rights on the Hood river waters transpired before Circuit Judge Wilson last Wednesday, when a compromise was reached between J. I. Miller and neighbors of the Oak Grove district and the Hood River Irrigation district. With the compromise, which permits Mr. Miller et al the perpetual use of 50 inches of water from a flume constructed by the Stanley-Smith Lumber Co. for conveying its products from a mill at Green Point a 9-mile distance to Ruthton on the O-W. R. & N., agreed to, the contest was dropped. Mr. Miller and associates will pay \$7,000 for the right. The Water Board had granted the re-monstrating orchardists use of 50 inches of water from 6 p. m. to 7 a. m. daily for a payment of \$6 per inch per annum.

The Green Point mill has been dismantled and the lumber company's water rights are now held under option by their irrigation concern. With the litigation settled, it is expected the purchase will be effected.

TROUT LAKE

February 24, 1921.

Miss Ada Copeland has been visiting friends in Portland for a few days. Dr. A. G. Belsheim was a Portland visitor recently.

At the last meeting of Trout Lake Grange the subject for discussion during the lecture hour was, "The New School and Administration Code." That for the next meeting, Saturday, will be, "The Needs of the Farmer."

Miss Mary A. Scott, of Oregon City, is visiting at the Cutting home. Miss Francella Drum, who accompanied her, spent the week end.

Mrs. Kingman who fell sometime ago and broke her hip, is now able to sit up part of the time, and is doing nicely.

We understand the Presbyterian church here has purchased the E. C. Duncan place next to the store, for a parsonage.

All the ladies in the valley are cordially invited to attend the meetings of the Ladies Aid at the church the first and third Wednesdays of each month.

Wm. Elmer's saddle horse died last week. This is the second horse Mr. Elmer has lost lately.

We understand that Josua Aerni will move on to and run the Burdett ranch this year.

The basketball game Friday evening was won by the boys by a score of 14 to 10. The non-college men by a score of 46 to 14.

WHITE SALMON

(from the Enterprise)

Edward B. Dorsey, wife and daughter, returned last week from Long Beach, Calif., where they enjoyed the past several months.

The White Salmon Rifle club has been reorganized with R. C. Newby as president; D. H. Sorey, vice-president; G. A. Read, treasurer; C. G. Fulton, secretary; H. T. Negaard, executive officer and W. H. Cash, assistant executive officer.

H. A. Rands, Portland engineer, who made the preliminary survey for the White Salmon Irrigation district, a few months ago, was one of the expert speakers at the meeting in Walla Walla recently of the Umatilla Rapids Power association, which has for its purpose the development of power on the Columbia river at Umatilla Rapids. The project will furnish power for the irrigating of an immense territory. W. M. Warner, of Aberdeen, this county, has been named on the executive committee.

Reduced Implement Prices

Announcement of a general reduction in price on all implements made by the Oliver Chilled Plow Works, South Bend, Indiana, is of vital importance to farmers in this community. This is the first effort on the part of any large implement manufacturer to help the farmer in a real way, and brings prices to about the 1918 level.

The general price reduction of the Oliver Chilled Plow Works is a step in the right direction. The farmer does not need advice. It is fully realized that if farmers in this community are to make a profit this year, they must produce a large crop and still reduce the production cost.

Now that Oliver plows and implements are offered at lower prices, in the matter of tillage implements, at least, the farmer is given relief in the way of producing his crops at a lowered cost.

We invite the growers and farmers of Hood River Valley to look over our stock of Oliver Plows and other implements.
