

### A FOOLISH ACT

It would be the height of foolishness for a man to throw away a good pair of shoes because a hole was worn in the sole.

The economy of half-soling automobile tires is just as great, as wise motorists have learned.

Our halfsoles add 5000 miles to the life of a tire.

Vulcanizing of all kinds done by competent and experienced men. Work guaranteed.

### HOOD RIVER CLAIMS BASKET BALL HONOR

Although denied participation in the state tournament at Salem, the Hood River high school basketball team claims intercollegiate honors that section. The claim is made that the local team showed a clean slate of victories in the Oregon Association except for a tie game with The Dalles on the latter floor. This game was lost by one point in an extended period. Heppner, with a record almost identical with that of Hood River, was given the privilege of participating at Salem by Coach Mathews. Members of the Heppner team had but one association defeat against them. Heppner is more than 100 miles to the east and was not on Hood River's schedule. Consequently, it is declared, the schedules did not overlap and no means of comparison of the two teams was afforded. Coach Fleischman, of the local team says:

H. W. BORING, a well to do Kansas farmer, says he has gained twenty pounds and is in better general health than he has been in years, since taking Tanlac.

"Since Tanlac has overcome my troubles I have gained twenty pounds in weight and am in better general health than for years past," was the straight-forward statement made a few days ago by H. W. Boring, a prominent and well-to-do farmer living at Overland Park, Kans. "During the two years I suffered I tried everything I knew of to get relief, but nothing seemed to reach my case until I tried Tanlac. My appetite was poor and my digestion was so bad I could hardly retain my food. Nothing seemed to agree with me; in fact, I was almost a confirmed dyspeptic. My whole system seemed to be out of shape. I would have pains across the small of my back so bad at times I could hardly move around."

"My nerves were all unstrung and I would become upset at the least little thing. I seldom slept well at night and finally, became so weak and run down that I lost weight rapidly. I was also troubled a great deal with catarrh and of mornings had to spend a half hour or more clearing up my head. "This is just the condition I was in when I began taking Tanlac and it certainly has been a blessing to me. It just seemed to be made especially for my case. I improved from the first. My digestion now is perfect and regardless of what I eat I never suffer any bad after-effects. "The pains across my back have entirely disappeared. The catarrh has left me, too, and my head is perfectly clear. I am no longer nervous and rest well at night. I have regained my lost weight and am feeling better and stronger than I have in years. I am going to keep Tanlac in my house so it will be handy at all times. "Tanlac is sold in Hood River by the Kresse Drug Co.—Adv.

"Hood River has an additional claim in the fact that it scored a clean cut victory over Pendleton while that team was on a tour early in the season immediately after a series of four games with Baker, each team winning two of the games. It is generally conceded from Baker's showing in the tournament preliminaries by an overwhelming score. This is no discredit to Heppner but merely shows the injustice done by arbitrarily placing Hood River and Heppner in the same district on the arbitrary basis of the latter team without an opportunity for an adequate comparison. "The Hood River team does not contest the championship, for we are satisfied that both Franklin and Baker played a more consistent game throughout the season than our own team, but we feel that a gross injustice has been done by eliminating us from the tournament on the above grounds. "It seems to me that the tournament is to be continued in the future, as an official competition for the state championship, a redivision of the eastern part of the state is necessary, in order that the team which represents a district in general should have the opportunity to play the leading teams in that district."

**Heavy Frost Kills Sugar Maples**  
 Frost damage of the winter of 1919-20 was by no means confined entirely to northwestern fruit districts, as a letter just received by A. J. Grow, Pine Grove orchardist, from northern Vermont relatives will attest. Mr. Grow has an uncle who operates a sugar orchard in the northern Vermont region. He has just written that the harvest for this season, due to frost ravages, sustained during cold waves of 1919-20, will be unprofitable. Many sugar maples three feet in diameter, the letter states, have been killed. The temperature reached a record low point. On one night, it is stated, the thermometers registered 60 degrees below zero, and for two weeks the maximum temperature was 40 degrees below zero.

**Found a Cure for Indigestion**  
 "I use Chamberlain's Stomach and Liver Tablets for indigestion and find they suit my case better than any dyspepsia remedy I have ever tried and I have used many different ones. I am nearly fifty one years of age and I have suffered a great deal from indigestion. I can eat almost anything I want to, now," writes George W. Emery, Rock Mills, Ala. These tablets contain no poison, but strengthen the stomach and enable it to digest the food naturally.

**Upper Valley Winners Announced**  
 Successful students of the Upper Valley schools participating in a declamatory contest, the trials being preliminary to a general contest to be held here later, were announced as follows: H. Jameson, Mount Hood High; Bernice Ficus, Dec, second; and Iva Curtis, Parkdale, third. Oscar Magnusson, Marion Wyatt and Harold McInaue won respective first, second and third places in an oratorical contest. Frances Douggett and Helen Aubert were contestants in the oratorical test. Judge of the contest were: Anthony H. Ewver, A. M. Cannon and E. N. Fleischman. The Upper Valley orchestra rendered a concert.

**Notice of Change in Corporate Name**  
 Notice is hereby given that Slocum & Canfield Company has filed supplemental articles of incorporation with the Corporation Commission of the State of Oregon, pursuant to vote of the Stockholders of said company, changing the name of said company to Slocum & Donnerberg Co., by which the company will hereafter be known. ### LEGION FESTIVAL DELAYED TO APRIL

A social meeting of the Hood River American Legion Post, scheduled for last Monday evening, has been postponed. The ex-servicemen and their friends had planned to journey to the Upper Valley by automobiles. Recent rains have rendered road conditions extremely bad, and the party will be held at some time during April, provided the weather becomes better. A Legion bulletin announces: Department headquarters have extended the time limit for renewals and for new members to April 1. There is still one half of the month left for the Hood River Post to bring its membership up to the top notch. Every member is requested to get behind this movement and bring in a new member. We need all we can get. With the bonus bill coming up to the people at a special election very soon, we are going to need all the support we can get to put that bonus over. And unless we have the full support of all ex-servicemen in Hood River valley, we will not be able to do it. So get behind the National Commander and the Department of Oregon and will put our end over as the Hood River Post should. At this time our local Post is considered as one of the strongest in the state, but unless we get out and hustle we will not be able to hold that place. It is going to take work, and all kind of work, by everyone, and this membership part must be put over big.

**Apple-Packing Taught**  
 The Canadian government, which has expended large sums in the teaching of livestock breeding, grain raising and fruit growing, has added another feature to its campaign of agricultural education by establishing an apple-packing school at Grand Forks, B. C. Government instructors have been assigned to the unique institution, which is expected to effect a saving of thousands of dollars annually by eliminating waste due to improper packing. Experts have pointed out that while some of the famous types of apples grown in the province are hardy enough to withstand carefree packing, others are frequently damaged while being exported to England and other countries.

**Pioneer Printer Visits Here**  
 J. M. Baldwin, of the Walla Walla, Wash., Bulletin force at present, paid a visit at the Glacier office last week. Mr. Baldwin is a pioneer northwestern printer. Thirty two years ago, when J. H. Cradbaugh published the paper, Mr. Baldwin visited the shop and assisted in getting out some of the first editions of the fruit section's earliest newspaper. "Hood River was scarcely a village in those days," says Mr. Baldwin. "Not a one of the oldtime landmarks remains."

**Legion Party is Pleasant**  
 The American Legion Post and members of the Women's Auxiliary participated in a box supper and dancing party at the Lotus Grille, chartered for the occasion, last Thursday night. The big cakewalk was dissipated in symbols of St. Patrick's day. About 40 couples were present, and the event was characterized as one of the pleasantest the Legion has recently held here.

**YOUR CAR is no stronger than its weakest Tire**

A cold night, an important engagement—and a flat tire. The worst possible condition! You fumble with cold tools, your fingers grow numb, and—well, you're mad clear thru.

Why not let us go over your tires and put them in first-class shape? We can add several hundred miles to the life of old casings if taken in time. Have this done before you are caught out on the road, several miles from a vulcanizing shop.

If your tires are too far gone to be repaired buy a Kelly-Springfield Tire—the best precaution you can take against tire trouble.
