Likewise patience and temper.

Highway Paving Progresses

Paving of the stretch of the Highway between the intersection of the road with the old East Side county grade and the concrete bridge, will be completed today, when crews of A. D. Kern Co. will start on a stretch of the road including the section east of town. The completion of the initial stretch will permit free traffic of East Side orchardists, but beginning of paving on the main highway will block passage of vehicles except during hours when crews are not busy. Automobiles will be permitted to pass before 8 a. m., between 12.30 and 1.30 p. m. and after 6 p. m.

Motorists may detour over the old Mosier hill grade, but this is advised against because of the dangerous grades and sharp curves.

Bert Emerson and Frank Woolley, of The Dalles, and Fred Evans, of Mosier, were apprehended for improperly parking their cars.

Keir's Milk Shakes Please

The city and valley all seemed headed for Keir's drug store Saturday afternoon, where pure milk shakes, mixed just right with electric shapernalin, a whole battery of them, were served with the compliments of the store. Clipped Here and There

A man came into a printing office one time and asked a very decided favor of the editor. The favor was granted willingly for the editor was a good natured man who wished above everything else to please. It is a newspaper writer's duty to write, yet he could not afford it. Yet he did not hesitate to ask a distinct favor of the paper which he was not willing in any way to do.

No city can afford to be without a newspaper to chronicle its life; tell of its comings and goings, record its births, deaths, marriages, etc., and announce its meetings and various functions. And yet a newspaper can not exist and do these things for the community, unless the community supports the newspaper.

Time was, when a newspaper could live on promises and the editor could live on promises and goods in exchange for subscriptions and advertising. But those days are past and gone and today the "ghost must walk faithfully every Saturday night or the help will quit and go where it does; and the editor has to pay good cash for his living.

These remarks are not by way of a criticism but merely that a better understanding may be had of present day newspaper conditions. There is, we believe, no institution or business which gives so much of its stock in trade free of charge to the public as does the newspaper, and yet, there are those who when asked to pay for a copy of the paper, give the impression that they are being held up. We trust that we shall not find these conditions true here in Newberg. We are willing to give of our space and our time to the advancement of the community and its institutions but there comes a point when we must make a charge in order that we may meet our obligations, and we are sure that the public will cooperate with us fully in this respect. — Newberg Graphic.
