

They never made a cigarette like this in my day—

The Camel idea wasn't born then. It was the exclusive expert Camel blend that revolutionized cigarette smoking.

That Camel blend of choice Turkish and Domestic tobaccos hits just the right spot. It gives Camels such mellow mildness and fragrance!

The first time I smoked Camels I knew they were made for me. I knew they were the smoothest, finest cigarette in the world, at any price.

Nobody can tell me anything different.

HOUSE NOW SOLE OWNER OF ALLEYS

E. E. House, who with C. J. Kruse, championship bowler of Portland, last winter established the Blue Diamond bowling alleys, has purchased the entire interest in the recreational enterprise.

Mr. House will operate the alleys throughout the summer. Fans here continue a keen interest in the sport. The big alleys, located in the basement of the Highway Auto Co., will be equipped with electric ventilating fans, and ice drinks will be provided for bowlers. Mr. House himself has developed one of the sport's keenest bowlers. During the past week he scored a new record of 277 for a single game and a total of 730 for three games.

Mr. Kruse, who is one of the best known bowlers on the Pacific Coast, has disposed of his interest because his family does not desire to live in Hood River.

"We started with the slogan, 'Clean Game, Clean Place,'" says Mr. House. "I have added to this, 'Friendly Place, Friendly Game.'"

FISS, FURS AND FEATHERS

A. C. Johnson, West Side orchardist, not long ago had some friends from Kansas, his old home, visiting him. The visitor noted the notches in discs of a peculiar type of harrow used in orchard cultivation.

"Yes," replied Mr. Johnson, observing the comment on the big notches cut in the edge of the discs, "I have had a visitation of cinder beetles. They are eating up our farming implements. Just look how they have been working on that harrow."

Mr. Johnson says his explanation stuck. He recalls how 25 years ago Kansas had a sensation over destruction of an alleged steel-eating insect that severed steel rails and caused railroad wrecks. While the sensation was a giant hoax, many Kansans gave the story credence. In fact, Mr. Johnson points out as a result of the explanation of the ease with which he put over his notched discs, still believe the story.

In time past tramps were wont to chalk up symbols on the door of folk whose inhospitality to the fraternity was unquestioned. If Hood River dogs could write they would probably leave some mark of the ferocity of a black cat at the home of R. N. Young on Cascade avenue. The old black has a litter of young kittens. She keeps every stray dog from crossing the Young lawn. Unsuspecting canines the past week have left the yard in blind haste with a furry terror on their backs. Even when dislodged the cat will chase the dogs over a block.

Now, when a dog, unless it be some country stranger ready for an initiation in the prowess of a mother cat as a demon fighter, travels Cascade avenue he discreetly seeks the side of the street opposite the Young home, and city dogs have been cured of that irresistible impulse of chasing innocent looking cats.

A. F. Davenport, and Wayne Poland tied for first place in the Hood River Gun Club's first merchandise shoot on May 20, scoring 20 out of 25 pigeons. In the shoot off for the first award, a cap donated by J. G. Vogt, Mr. Davenport won. The following five men tied for second place: R. V. Foreman, J. W. Haviland, William Marshall, George Alexander and Oscar Scher. They each broke 18 out of 25 targets. The shoot of yesterday was the last until the Columbia recedes. The rising tide of the river has inundated a part of the field, and the trap has been removed.

In the shoot off for second award, winnings were made as follows: Poland, box of cigars donated by R. V. Foreman; Foreman, crown roast given by the Hood River Market and Haviland, fish basket given by the Franz store.

Mid-Columbia commercial fishermen have brought in their nets and have abandoned traps for the season. The run, after the first few days, when only very large chinooks were caught, soon dwindled to practically nothing. Small salmon are usually caught at the beginning of the salmon run, and fishermen believe that the run this spring was about over when the season opened. The fish caught here were sold to canners and local market men for 12 cents per pound.

The red, white and blue lizard discovered here in 1918 by J. H. Fredrick, a saurian given nationwide publicity at the time, has a new rival in a cream colored snake, which Grant Miller, young West Side resident, claims to have found last week. The snake, Mr. Miller declares, is four feet long. The color, he said, was a rich cream. The reptile, he claimed, emitted a venomous hiss and escaped into a rock pile before he could slay it.

While motoring to Glenwood recently Judge Flowers and family saw three small spotted fawns playing beside the highway. The automobile was right on the young deer before they noticed them and leaped away in the forests.

Members of the Hood River Gun Club will confer for a silver cup, presented by the two local banks, the O. W. Telephone Co., W. F. Laraway and L. S. Boyd. The holder of the highest average score of the season's official shooting will be awarded the cup.

Wheat Crop Prospects Good

"I have never seen the winter wheat prospects in Sherman and Wasco counties looking better," says E. O. Blanchard, who returned last week from an automobile trip to Prineville, where he and C. Dethman and sons, Herman and Fred, and C. H. Sprout journeyed to inspect the Ochoco irrigation project.

Mr. Blanchard says the range of the country further east is in finer condition than normally, and that large additional numbers of cattle could be fed there. The men have praise for the irrigation project, which they say is developing about 20,000 acres into a rich grain and alfalfa district.

The Home of the Soul

In older times, it was believed that the seat of the soul was the stomach, most likely for the reason that a man is never so completely used up as when his stomach is out of order. For the cure of ordinary stomach troubles there is nothing quite so prompt and satisfactory as Chamberlain's Tablets. They strengthen the stomach and enable it to perform its function naturally. Give them a trial. They only cost a quarter.

HAYNES CAR PRICES ARE GUARANTEED

Haynes purchasers are guaranteed against a reduction in the present list prices of Haynes cars until January 1, 1922, according to an official announcement by Alton G. Seiberling, vice president and general manager of the Haynes Automobile Company, Kokomo, Indiana. The guarantee was telegraphed May 10, to every Haynes distributor in the country.

"Haynes purchasers and prospective purchasers will be glad to know that they are fully protected against any decrease in the present list prices of Haynes cars for the balance of this year," declared Mr. Seiberling. "Our present margin of profit is so slight that it would be impossible for us to reduce the prices of our cars without lowering our standard of manufacture. This, of course, we will not do. And so, in justice to our many thousands of Haynes owners and to those who might be hesitating in the purchase of their Haynes cars in anticipation of a price decrease, we have announced this guarantee of our prices until January 1, 1922. Under this guarantee, every Haynes purchaser is fully protected against any reduction of Haynes car prices for the balance of this year."

How We Build The Structure of Good Paint

WE make good paints like this—to save you money; and we've put 72 years' experience into them.

We use pure PIONEER WHITE LEAD, pure linseed oil, zinc and color in scientifically exact proportions.

The lead base is made so fine that it will pass through a silk screen with 40,000 meshes to the square inch. That means covering capacity and ease of spread.

A special device super-purifies the lead, making it "Whiter" so Fuller paints are exceptionally clear-toned. All ingredients are thoroughly mixed in specially designed machines, so the paint is always uniform and smooth.

The result on the house is a beautiful, elastic, tough, protective coating that stays, if properly

applied, five or more years, keeping the wood like new.

Some people figure paint economy as "cost per gallon." That is wrong. For "cheap" paint doesn't cover so much surface—you buy more gallons. "Cheap" paint is harder to spread and you have more labor cost. So the "cheap" paint on the house costs just as much as the best of paint.

Don't allow surfaces to rot—it costs less to paint them.

"Cheap" paint on the average starts cracking in twelve months, while the best paint stays intact from five to ten times longer, if properly applied. Figure the cost per year of service and decide which paint you want to use.

We spend more to make paints for your economy. Be sure you get them when you paint.

Fuller's SPECIFICATION House Paints

Phoenix Pure Paint Pure Prepared Paint

Manufactured by W. F. Fuller & Co.
