

**THE NEW
United States Cream Separator
WITH DISC BOWL**

"Let's your wife enjoy life."

Is of superior construction and has labor-saving conveniences not found in other separators.

The crank will go on either side permitting separator to be placed wherever most convenient.

A speed indicator bell assists in keeping separator at proper speed without waste of energy.

Slow crank speed of 42 turns per minute means less power required.

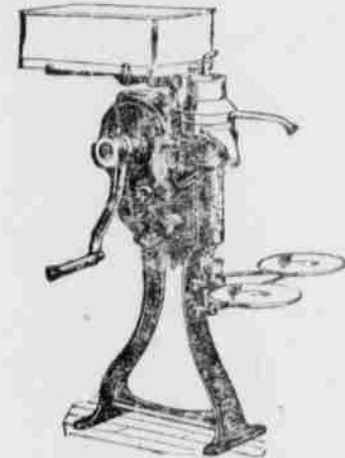

The perfected bowl, self-adjusting with interchangeable and fewer discs, is easier to clean and is a record skimmer.

The one-piece frame with sanitary base has enclosed gears, automatically oiled, making it a strong and durable, yet easy running separator.

These and other features make the New United States Disc Separator a favorite with the farmer's wife.

**ALIEN PROTECTION
EMBODIED IN BILL**

A proposal to confer on the federal government power to determine and enforce, even as against states, treaty rights which aliens in the United States may be given, was introduced last week by Senator Kellogg of Minnesota, in the form of a bill framed by the judiciary committee of the American Bar Association.

Senator Kellogg said that the measure was put forward to raise the issue and not to apply necessarily to any specific situation.

Under the bill the president would be authorized, where in judgment any statute of any state or territory contravened treaty rights of alien, to instruct the attorney-general to take up the defense of civil or criminal prosecution brought by state officials before state courts and to secure their removal to federal courts for trial. The federal courts would take jurisdiction when any acts had been committed against aliens which would constitute crimes under state laws and penalties similar to those provided in the state statutes would be imposed in cases of acts against American citizens. United States marshals and, if necessary, army or navy forces would be available to enforce decisions.

California, under its anti-alien land laws, does not violate any rights guaranteed to the Japanese or any other aliens by treaty and never has attempted to do so, it was declared in a statement issued by State Senator Inman, president of the Japanese Exclusion League of California.

The statement follows: "If Senator Kellogg of Minnesota and those favoring his bill just introduced, assume that its provisions could be invoked against operation for instance of the California alien land law, they are evidently not familiar with the provisions of that law.

"It specifically declares that aliens ineligible to citizenship shall be accorded all rights as to purchase, enjoyment, transfer and use of real property, as may be granted them under treaty, but not otherwise."

**BOY SCOUTS' TRIP
TO EAGLE CREEK**

(By Jack Cram)

"Gee, but it was hard work rolling out."

This was the sentence heard by more than one person Friday morning about six o'clock. Four who heard these words were Mr. Butler, Mr. Acheson, Mr. Sinclair and Mr. Keir, who took the Boy Scouts from Riverside church to Eagle Creek that morning.

We were wide awake and on the trail by 8:20 and the first 24 miles were easily accomplished. This brought us to the Eagle Creek punch bowl. Two miles more and we came to the high bridge. Then one mile farther and we arrived at a suitable camping place.

Each group of boys had their own camp and did their own cooking. When dinner and roll call were over we were free to do what we liked until six o'clock. Some one of the Scouts went to Eagle Creek tunnel others craved the water and took a swim, while still others with the aid of a rope climbed the mountain. Everyone took special precaution and avoided any unnecessary danger. After supper we held a Kangaroo court in which we found we had some budding orators. But after a hard fight the defendant was found to be innocent, much to his relief, on the charge of pecking over a bluff. Taps were sounded at 8:30.

Nearly everyone slept well and were up at 6:30 with their eyes on the frying pan and an empty feeling in their stomachs. After breakfast and inspection, the morning was spent in hiking and building a swimming pool. We had dinner at noon and at 3:30 started for the highway. We hated to break camp for we had had a lively time but we were glad when we arrived at the road to find Mr. Allen, Mr. Anderson and Mr. Porter waiting to take us home. We ate supper before starting. Everyone had a good time and we are looking forward to more trips like this one.

Oak Street Work Completed

Hood River now has two thoroughfares to accommodate highway traffic across the city. The city has just completed the grading of a section of Oak street between Tenth street and its intersection with Cascade avenue, the latter street formerly having carried the full stream of motor traffic. The improvement of Oak street was anticipated by business concerns, and garages and service stations have arisen along it in the business district. The opening of the new street will enable the city to handle the heavy motor car traffic without congestion.

The Transfer & Livery Co. did the grading.

Flood Water Stops Irrigation

The ranchers of the Underwood fruit district, according to Mrs. H. A. Hussey, wife of an orchardist on the flat there, will welcome a fall of the Columbia. The backwater of the larger stream has flooded on the White Salmon river a pump used by the Underwood Irrigation District in watering their berry tracts and orchards.

While the interruption of the irrigation system will cause no injury to apples, it comes at a time when the water is badly needed for strawberries, and as a result of the failure of the water, the Underwood crop affected by the high water may be cut somewhat short.

Riverside Choir Enjoys Picnic

Members of Riverside Community Church Choir recently enjoyed a pleasant Sunday afternoon picnic on the Dee Flat ranch of Al J. Graff. A sumptuous luncheon was spread. Those attending were: Mrs. E. L. House, Mr. and Mrs. E. E. House, Mr. and Mrs. W. H. Metcalf and children, Lawrence and Priscilla, Janice Clarke, Mr. and Mrs. C. H. Sletton, Mrs. Jessie V. Gleason, Mr. and Mrs. Geo. A. Wuest, Sarah House, A. J. Graff, Mr. and Mrs. Chas. N. Clark, Thomas and Charlotte Clarke and Mrs. A. Staats.

Recommends Chamberlain's Tablets

"Chamberlain's Tablets have been used by my husband and myself off and on for the past five years. When my husband goes away from home he always takes a bottle of them along with him. Whenever I have that heavy feeling after eating, or feel dull and played out, I take one or two of Chamberlain's Tablets and they fix me up fine," writes Mrs. Newton Greenland, Minn., N. Y. Take these tablets when troubled with constipation or indigestion and they will do you good.

Why have a Coal Bin or a Wood Box?

YOU can get clean economical Pearl Oil from dealers everywhere.

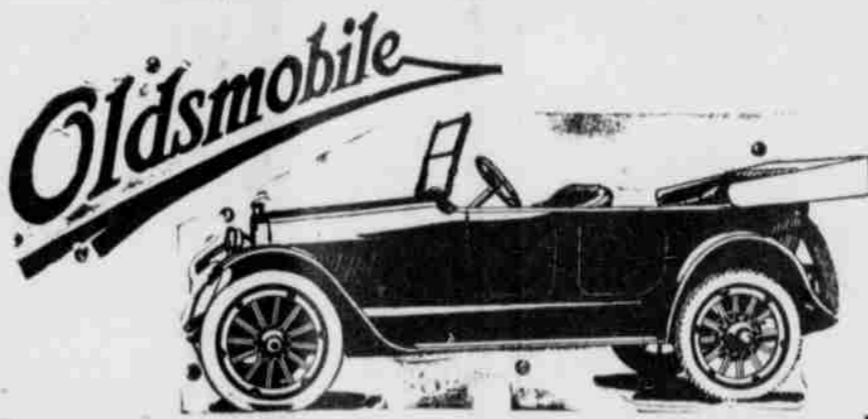

You save yourself a lot of trouble and work when you cook with a good oil cookstove. No ashes to carry—no fires to require your frequent attention.

With a good oil cookstove and Pearl Oil the heat is applied directly to the cooking utensil. The heat is steady and dependable. Pearl Oil gives high fuel values.

Pearl Oil is the clean burning, uniform, economical kerosene—refined and re-refined by a special process. Dealers everywhere. Order by name—Pearl Oil.

STANDARD OIL COMPANY (California)

**PEARL OIL
HEAT AND LIGHT**

The six cylinder Oldsmobile touring model is chiefly a business man's car. It is a compact, handy car—delightful to handle either on the open road or in heavy traffic—economical of both fuel and tires. Yet it offers roomy, comfortable touring accommodations for five passengers.

This Model 37-A Oldsmobile sets the pace in six cylinder values. At \$1750 (here) we believe it to be unrivalled among cars of its general type. The convertible roadster, built on the same standard chassis, is also priced at \$1750.
