

**THE NEW
United States Cream Separator
WITH DISC BOWL**

"Lets you crank by pressing down,
Instead of yanking 'round and 'round'."

The only separator that starts the easy way,—by "pumping." This manner of speeding up is made possible by the quick catching and releasing clutch.

The New United States Separator requires but 42 turns of the crank per minute for the larger sizes, which makes easy running and saves your strength to the extent of several hundred turns per day.

**COMMUNITY CHURCH
WORK SUCCESSFUL**

The continued growth of the Riverside Community Church, after a trial of 18 months indicates that it is permanently established. The interest of the congregation, uniting members representing five former denominations, and the expression of general community pride in the church are prophetic of its continued growth.

The new church draws not only from the city, but residents from various parts of the valley have been attracted to the services. It has become the general impression gained perhaps from complaints of pastors themselves, that as the result of the call of the open road and the allurements of motoring church pews are often emptied during the summer months. Such is not the case in Hood River. Sunday services of summer months draw just as large crowds as those of other seasons. Lines of automobiles parked up and down State street for blocks on either side, however, indicate that most of the worshippers travel by motor car.

That the local experiment is viewed with keen interest in other parts of the Northwest is plainly evidenced by the urgent weekly appeals to the pastor, Rev. W. H. Boddy, to reveal his plans of organization. He is unable to fill dates for addresses on the community church idea.

Mr. Boddy, formerly a member of the faculty of Reed College in Portland, where he was a student also, before coming to Hood River was pastor of a community church at Parkdale. He is an ordained Presbyterian minister and moderator of the Eastern Oregon Presbytery. He has long been an exponent of the community church for rural communities. His personality and his earnest efforts in his cause played a substantial part in the success of the local church.

The Riverside Community church occupies a stone structure erected by the Congregational church. Two years ago, a discussion by various laymen resulted in the reorganization of the church body and the formation of the independent church. It was revealed at the time that there were many folk of Christian faith who were eager to be united in church service but who were not willing to subscribe to the creed or traditions of any particular denomination.

An outstanding feature of the independent organization is that the pastor may be chosen without regard for denominational affiliation. The benevolences of the church are applied where the greatest need is found, unless the gifts are made for some particular work. Members are received as confessing: "The spiritual leadership of Jesus Christ and of being in fellowship with his purpose in the world."

From its inception the new idea in churchmanship has been popular in Hood River. The actual membership has about doubled in the year and a half. The Sunday school has outgrown the church and the trustees contemplate an enlargement of their quarters.

The new church emphasizes community service. Under the auspices of the Riverside Recreational committee a director of recreation for boys has been secured for the summer. A program of directed play for all boys of the county has been instituted. The committee is representative of the life of the city and is not confined to members of the community church itself.

The Sunday Evening Club, made a feature of Sunday night meetings during the winter months, has made a community wide appeal. The activity of the club is directed by the laymen of the church. It brings to Hood River speakers of prominence who speak on subjects of general social interest. Several musical concerts have been given under auspices of the Sunday Evening Club. The church building is headquarters for four troops of Boy Scouts, numbering about 200 members. The young business and professional women of the church have an organization called the "Tri Cs." They have a beautifully furnished room in the church building.

The independent church has not decreased the number of churches already here, although it has absorbed the members of two that were not in operation. Speaking on this matter, Mr. Boddy said:

"We came not to destroy but to fulfill. We have built up a large congregation of men and women who felt the need of a church such as ours but, at the same time, we have, I believe, stimulated the work of every other church in the city. The relations between Riverside church and other churches of Hood River are most cordial."

Census Count Disputed

Protests of the Japanese Exclusion League of California against the recently announced census bureau figures as to the Japanese population of California were forwarded last week to the director of the census by Senator Johnson, of that state. Accompanying the protest was a request that everything possible be done to clear up the variance between the figures announced by the bureau and those announced by the California bureau of vital statistics.

The protests were embodied in a telegram received by Senator Johnson from John H. Chambers, chairman of the league's executive committee, who asserted that the figures of the bureau of vital statistics showed 109,000 Japanese in California, as compared with 71,942 shown in census bureau report.

June Drop Overestimated

It is the belief of J. P. Naumes that the June drop of apples here was overestimated.

"It is remarkable how the drop thinned the fruit," says Mr. Naumes. "Nature thus eliminating the expense of grower in cutting off the small fruit. While the earth was fairly covered, enough apples were left to justify thinning crews in most tracts."

A. E. Woolpert says, however, that the tonnage of apples here this season will not exceed, if it reaches, the record crop of 1919. He says he finds some heavy producing places with a very small crop this season. Mr. Woolpert declares that the apples are exceedingly clean and good sized for the season.

Biliousness and Constipation

"For years I was troubled with biliousness and constipation which made life miserable for me. My appetite failed me. I lost my usual force and vitality. Pepsin preparations and cathartics only made matters worse. I do not know where I should have been today had I not tried Chamberlain's Tablets. The tablets relieve the ill feeling at once, strengthen the digestive functions, helping the system to do its work naturally," writes Mrs. Rosa Polts, Birmingham, Ala.

**DEMAND FOR TANLAC
BREAKS ALL RECORDS**

Amazing Success Achieved by Celebrated Medicine
Not Only Phenomenal, But Unprecedented—
Over 20,000,000 Bottles Sold in Six Years—
Foreign Countries Clamor for It.

Never before, perhaps, in the history of the drug trade has the demand for a proprietary medicine ever approached the wonderful record that is now being made by Tanlac, the celebrated medicine which has been accomplishing such remarkable results throughout this country and Canada. As a matter of fact, the marvelous success achieved by this medicine is not only phenomenal, but unprecedented.

The first bottle of Tanlac to reach the public was sold just a little over six years ago. Its success was immediate and people everywhere were quick to recognize it as a medicine of extraordinary merit. Since that time there have been sold throughout this country and Canada something over Twenty Million (20,000,000) bottles, establishing a record which has probably never been equaled in the history of the drug trade in America.

Fame Is International

The instant and phenomenal success which Tanlac won when it was first introduced has been extended to practically every large city, small town, village and hamlet in North America. Its fame has become international in its scope and England, Japan, Mexico, Cuba, Hawaii, Alaska, Porto Rico and many European countries are clamoring for it.

From coast to coast and from the Great Lakes, Tanlac is known and honored. Millions have taken it with the

most gratifying and astonishing results and have pronounced it the greatest medicine of all time.

Tens of thousands of men and women of all ages in all walks of life, afflicted with stomach, liver and kidney disorders, some of them of long standing, as well as thousands of weak, thin, nervous men and women apparently on the verge of collapse have testified that they have been fully restored to their normal weight, health and strength by its use.

Restored to Health

Still others, who seemed fairly well, yet who suffered with indigestion, headaches, shortness of breath, dizzy spells, sour, gassy stomachs, coated tongues, foulness of breath, constipation, bad complexion, loss of appetite, sleeplessness at night and of terribly dejected, depressed feelings, state that they have been entirely relieved of this distressing symptoms and restored to health and happiness by the use of Tanlac.—Adv.

The Valley's Development

The progress of the Hood River Valley the past few years has been closely linked with advancement of the Hood River Creamery. The party on the fair board tour Saturday expressed gratifying surprise at the many orchardists who practice profitable dairying.

A visit to our plant any day of the week will show how deliveries of cream and the checks that follow are aiding Hood River.

HOOD RIVER CREAMERY
