POPULARIZING MOUNT HOOD. We wonder how many people of the Hood River valley have ever been to the snow line of Mount Hood. Actual statistics, we believe, would place the number at a relatively small portion of our population.

The elimination of the old grade at China Hill, where the climb exceeded 30 per cent, will make it possible for many more automobiles to reach Cloud Cap Inn.

With the new Columbia Gorge Hotel and other accommodations, Hood River will gradually grow into a Northwest convention center. We note that the trend is already that way. Let's keep it growing.

More folk, by a very great percentage, will visit Mount Hood this year than ever before. The list would probably be greater but for the toll. It is to be regretted that the road cannot be made less private.

Getting to the snowline of Mount Hood is not now the task imagined. The journey to be made Sunday by the Progressive Business Men's Association, will demonstrate this. This trip will do a great deal toward further popularizing Mount Hood.

CLEANUP ORCHARDS. Hood River valley is going to be visited next week by plant experts from all northwestern districts. These men will form a critical body. It is natural that they are going to scrutinize us closely.

THE LEGION HOOD CLIMB. It was a happy thought, that of the Legion members to launch an annual ascent of Mount Hood. We see no reason why the proposed recreational feature should not become more popular each year and become not only an annual reunion for Hood River valley ex-service men but attract their buddies from all states of the Union.

Hershner and Acheson Winners. Hazel Hershner and I. R. Acheson Tuesday night won the finals, in doubles, of the annual tournament of the Benedict Tennis Club.

If Hood River apples bring anything like the price that tomatoes are drawing, this valley will be overflowing with millionaires next summer. Tomatoes are selling for 25 cents per pound. If the grower is getting a fair share of that, he has no cause to see blue devils.

GARDEN MAKING IN CENTRAL AFRICA

Gardening is a year-around task in central Africa, according to a letter from Mr. and Mrs. David Byerlee, who are at Bolenge, Belge Congo, engaged in missionary work.

The man who has a good vacant lot garden is not worried by the scarcity of vegetables or the high price of such foodstuffs. A backyard garden is profitable for the city man, even though he gains nothing other than the healthful exercise from his labors.

Mosier will soon be ready to celebrate the completion of the Columbia River Highway all the way from Portland to her city limits. That is, all but the little strip at the west edge of Hood River.

When we read of the surging heat waves and perspiration producing humidity of the east and middle west and contemplate the comfortable days and cool nights of Hood River, we lift up our voices with old Omar and cry: "This is paradise now."

The new Heights jitney service ought to be a boon to the folk of the Heights. The automobiles, operated at such frequent intervals as to be convenient enough for anyone, deserve patronage.

Beware the smouldering camp fire, if you go into the forests. Be doubly sure you leave not the slightest ember when you break camp.

TOUR OF HOME-SEEKERS DELAYED. Following the recent announcement that the date of the settlers' excursion from the middle west to Oregon had been postponed from July 19th to September 20th upon request of large numbers of homeseekers who are unable to make the trip until after harvest.

Commercial clubs of the state have been urged to complete the listing of available lands in each community for the information of the settlers, and these listed lands will be placed in the hands of each member of the party, according to Secretary Quayle.

It is a plant of the potato, originally a denizen of Chile and Peru, appears as a naturalized Englishman in the United States. The potato had arrived in England about 1585, or a little later."
