## "You'll Always Find" says the Good Judge

That you get more genuine satisfaction at less cost when you use this class of tobacco.

A small chew lasts so much longer than a big chew of the ordinary kind. And the full, rich real tobacco taste gives a long lasting, chewing satisfaction.

Any man who uses the Real Tobacco Chew will tell you that.

Put up in two styles

W-B CUT is a long fine-cut tobacco  
RIGHT CUT is a short-cut tobacco

Weyman-Bruton Company, 1107 Broadway, New York City

## RAILROAD MAN ASKS FOR DATA

The following interesting letter has just been received by the Glacier from Jesse M. Jones, general development agent for the Seaboard Air-Line Railway Company. Mr. Jones, whose headquarters are at Norfolk, Va., says:

Editor Glacier: On a recent Sunday, I was in Hood River, accompanied by Mr. C. L. Smith, better known perhaps as Farmer Smith, a mutual agent of the Union Pacific Railroad, to look over your valley and see some of the general conditions there. We were the host of Mr. Leslie Butler, who drove us about the valley and showed us many wonderful things therein.

I am on an extended trip through the North, Northwest and West studying methods of land development and settlement, and how business men and farmers get together to finance agricultural development, and to produce, handle and market their products co-operatively.

Our road, which is about four thousand miles long, traversing six states, Virginia, North Carolina, Georgia, Alabama and Florida, carries a portion of the Hood River apples to the markets of the Southeast. We buy them there at ten cents a piece or two for fifteen cents, so I naturally felt that I must spend some time seeing the conditions under which these were produced. I have been greatly pleased to find many of the Florida grapefruit which are produced along our line being used in the Northwest. This year we will have many millions of boxes of citrus fruit in Florida so you see we have many things in common; certainly in the way of exchange of commodities.

With Mr. Butler we visited the Riverside church and were greatly pleased to learn of the community effort that is manifested there. We should have more of it everywhere. We then had dinner at the Columbia Gorge Hotel, an institution which certainly does credit to Hood River and is a great attraction there. Next we drove for several hours over the highways and byways of the valley, looking at orchards, going through them and talking with the growers. We stopped considerable time with Mr. James R. Nunnaker, who told us his methods of producing and handling crops. Time and again the auto was stopped so that I could view the splendor of Hood River on the one hand and the beauty of Mount Adams on the other. The mountains skirting the valley on either side, the great wooded gorge in the center with the tablelands covered with orchards, and here and there spires of poplar and fir marking the comfortable homes of the growers, caused me to realize why the Hood River folk are proud of their valley. All this, I learned, was supported by highest standards of production and marketing, and backed by principle and fair dealing worthy of the day on which I visited your town and vicinity.

The territory our railroad serves has eighty million acres of available agricultural lands, much of which is of splendid fertility, near markets, and some day will be turned into a veritable garden. There are not sufficient people there now to man it. My visit was to learn how your vicinity had succeeded, and to carry some of the best methods back with me and apply them where conditions fitted. I was very much interested to learn that you have room for expansion, and that your young men and women can be taken care of for years to come.

When I started this letter I did not intend to write you as I have, but to express my regrets for not seeing you and your colleague to learn how it came about that your paper and his were awarded first and second prizes, respectively, for the best general newspapers for a rural community by the Editorial Association of your state. I would like to know your program with reference to the agricultural, the county, the community and the city development respectively, and the basis on which the award was made. Will you not also give me the name of the chairman, or president, of your State Editorial Association, so that I may write to him for information on this general subject. I am interested in this, because I know the great value of a live newspaper to the community in which it lives.

I shall return to my office by August 5th or 7th, and will be anxious to have your reply. I congratulate you and your contemporary on the distinctions which you have achieved.

### Stock Tax Return Due

July 31 is the last day for filing returns of the capital stock tax. To avoid penalty, the returns should be in the hands of collectors of internal revenue on or before midnight of that date.

Blank forms are available at the office of Collector of Internal Revenue Milton A. Miller, 210 Custom House, Portland, and the following branch offices: Pendleton and Eugene. Form 707 is required for domestic, and 708 for foreign corporations.

The capital stock tax is a special excise tax imposed on corporations with respect to "carrying on or doing business." The tax on domestic corporations is \$1 for each \$1,000 or so much of the fair average value of its capital stock for the preceding year ending June 30 as is in excess of \$5,000. Foreign corporations are required to pay a tax at the rate of \$1 for each \$1,000 of their capital employed in the transaction of business in the United States without the benefit of the \$5,000 deduction. The tax is payable in advance, returns filed in July of this year covering the taxable year beginning July 1, 1921, and ending June 30, 1922.

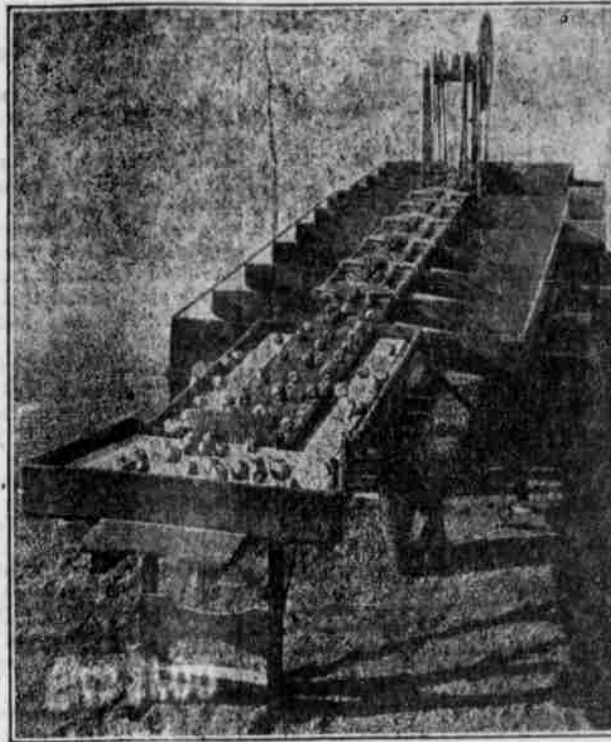

### Rangers Asked to Give Up Smoking

Realizing the danger of forest fires from burning tobacco even when used in the woods by forest officers, District Forester Geo. H. Cecil has just called upon the field men of the national forests of Oregon and Washington to refrain, voluntarily from smoking during the next few months of extreme fire danger.

"The Secretary of Agriculture, upon my recommendation, approved recently a regulation prohibiting smoking in the Olympic blowdown area, and I feel that I am justified in asking every field officer in the North Pacific District to volunteer to refrain from smoking in the forests, outside of camps and houses, during the fire season," said Mr. Cecil.

**Biliousness and Constipation**  
"For years I was troubled with biliousness and constipation, which made life miserable for me. My appetite failed me. I lost my usual force and vitality. Pepsin preparations and cathartics only made matters worse. I do not know where I should have been today had I not tried Chamberlain's Tablets. The tablets relieve the ill feeling at once, strengthen the digestive functions, helping the system to do its work naturally," writes Mrs. Rosa Potts, Birmingham, Ala.

## The Ideal Grader

We have been marketing Ideal Graders for the past six years. They have grown more popular each year.

Our machines are a favorite in all Northwestern fruit sections. We have shipped them in numbers to foreign apple districts.

The 1921 model of Ideal Grader is ready for distribution. It will carry a number of improvements. We mention at random some of them: The machine can be adjusted for sizing while in operation. Two adjusting screws do the work. Our new sorting table is a feature that will be noticed at once.

We hope to place as many as possible of the machines we manufacture in Hood River and for this reason would urge that local growers give us their order at once, in order that we may include them before we are booked to the limit of our capacity.

## The Valley's Development

The progress of the Hood River Valley the past few years has been closely linked with advancement of the Hood River Creamery. The party on the fair board tour Saturday expressed gratifying surprise at the many orchardists who practice profitable dairying.

A visit to our plant any day of the week will show how deliveries of cream and the checks that follow are aiding Hood River.

## HOOD RIVER CREAMERY

## The Picture of Comfort

you have in mind is not complete unless it includes a box of our high grade cigars. You'll know it too, if you'll give yourself the pleasure of trying one of these smokes. After smoking it you'll never again imagine a scene of perfect comfort without our cigars being part of it.
