CODLING MOTH NEEDS ATTENTION

(By Leroy Childs)
Up to the present time a large percentage of the orchards have been fairly free from codling moth injury. However, this fact should not be taken as an index that they will continue to be so until apples are harvested. The first brood worms entered the apples over a very long period during the spring due largely to intervals of cool and warm weather. As a result of this irregularity the activities of the second brood of moths are going to be much the same, all indications pointing to the fact that worms will be entering the fruit well up to harvest time. Due to these conditions it will be decidedly practical to make another application of arsenate of lead in order to keep down the damage that may be caused.

Many growers will find it difficult operating their sprayers due to the presence of properly laden trees. Even with this condition existing, extra pains must be taken in order to work the sprayer through the orchard. Orchardists who are now preparing should keep in mind and arrange their crops so that the sprayer may be driven through.

From the present development of the worms it appears that a great many eggs will be hatching about the first of September, and it will probably be advisable to spray sometime between the date of August 25 and September 1. More specific dates will be given as later. At that time many growers will notice that a good deal of spray still remains on the fruit. Nevertheless, owing to the fact that the apples have expanded considerably since this application was made and as this spray does not expand with the growth of the fruit much of the surface will be unprotected. This cannot be relied upon to destroy a very great percentage of the young worms. In order to avoid a blotchy appearance of the apples due to the thick coating of spray at this late date, our Station is recommending the addition of 1 pound of calcium caseinate to each 100 gallons of spray material. This material acts as a spreader and gives the apples a more even and much less noticeable covering of spray. The arsenate of lead should be used at the regular strength of 2 pounds to 100 gallons of water.

A careful examination of many orchards has been recently sprayed with Bordeaux and lead shows clearly that growers are not spraying the tops of the trees as they should be doing. Carelessness of this sort will mean many wormy apples which could otherwise have been kept clean by giving the work more careful attention. Growers must take more time in spraying the tops of the trees than they are now doing if the desired results are to be obtained.

NEW HOOD RIVER CAFE BEAUTIFUL

L. M. Bentley, who has remodeled the quarters of the Hood River Cafe in the old Morrison building, now owned by C. A. Richards, has provided one of the most unique entrances in the city. A hangover effect, the entrance of the cafe immediately attracts attention of visitors to the city. Local folk, who have viewed it the past week, have declared the idea one that will draw immediately to the cafe.

The cafe is operated by Charles Gumm, veteran Chinese chef. It has been reconstructed throughout on the inside. A large lunch counter has been arranged for serving quick meals. A partition divides the counter from the tables of the cafe.

Citizens have expressed amazement at the results of Mr. Bentley's work in turning the old cafe quarters into the up to date looking place it is today.

Miss Edgington Plans Special Study

Miss Grace Edgington, former member of the University of Washington faculty and now member of the faculty at the University of Oregon, is here on a visit with her parents, Dr. and Mrs. Jesse Edgington. Miss Edgington, who was acting dean of women at the University of Oregon this summer, has been granted a year's leave of absence. She will go from here to Sisters for a visit with the family of her brother, Ellis Edgington.

Miss Edgington states that she plans on spending most of her leave of absence taking special work at eastern universities.

Same Old Story But a Good One

Mrs. Mahala Burns, Savanna, Mo., relates an experience, the like of which has happened in almost every neighborhood in this country, and she has told and related to thousands of others as follows: "I used a bottle of Chamberlain's Colic and Diarrhoea Remedy about nine years ago and it cured me of box (constancy). I had another attack of the same complaint three or four years ago and a few doses of this remedy cured me. I have recommended it to dozens of people since I first used it and shall continue to do so for I know it is a quick and positive cure for bowel troubles."

Grangers Want New Hall

A mass meeting of Grangers of the county was held at Rockford hall yesterday when plans for the construction of an elaborate Grange hall were discussed. The Park Grange, composed of orchardists of the Oak Grove, Belmont and Barrett districts, has one of the largest memberships of any organization in the state. Several tentative locations for a new hall have been proposed.

Hood River Citizens Gladly Testify and Confidently Recommend Doan's Kidney Pills

It is testimony like the following that has placed Doan's Kidney Pills so far above competitors. When people are right here at home raise their voice in praise there is no room left for doubt. Read the public statement of a Hood River citizen:

Franklin Miller, retired, 810 June St., Hood River, says: "I have used Doan's Kidney Pills and can recommend them from experience. My kidneys were weak and I had a dull aching pain in the small of my back that made it hard for me to stoop or bend. My kidneys did not act right. I used Doan's Kidney Pills for this trouble and they helped me by strengthening my kidneys and back.

Price six, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Miller had. Foster-Milburn Co., Mfrs., Buffalo, N. Y."

WAGNER SUFFERED ALMOST LIFETIME

Says the Way Tanlac Relieved Him Beats Anything He Ever Saw Before

"I am now sixty-three years of age and Tanlac has rid me of a case of stomach trouble that had bothered me nearly all my life," said August Wagner, 460 Glean St., Portland, Ore.

"Ever since I can remember, my stomach has been giving me trouble. After I ate anything my food would turn sour and I would feel simply miserable. I would bloat up awfully with gas and feel all choked-up. At times the pains and cramps nearly killed me and I was simply in agony. Then I had a stomach case of constipation and was all the time taking one medicine right after another for it as well as for my stomach. My troubles had such a tight hold on me that nothing ever reached my case."

"Some time ago a friend of mine heard me complaining of my troubles and advised me to take Tanlac. Well, I commenced taking it and the way it took hold of me beats anything I ever saw in my life. When it straightened me right out in a few weeks and I have been feeling fine ever since."

"For the first time in my life nearly, I can eat anything anybody else can eat and digest it without any trouble. I am not bothered at all with gas or bloating and am free from constipation. I sleep better and am feeling stronger and better all round."

Tanlac is sold in Hood River by Kresse Drug Co. and by leading druggists everywhere.—Adv.
